MEMORANDUM FOR DISTRIBUTION

SUBJECT: Defense Logistics Management System (DLMS) Annual DLMS Status Review for 2007

The DOD 4140.1-R, Materiel Management Regulation, establishes a requirement for DLMSO to issue to the DUSD(L&MR), and to the other DOD Components, a status review of all revision proposals that have not yet been approved for publication, or, that if approved, have not been implemented.

Attached is the DLMS Status Review. The consolidated review includes both Defense Logistics Standard System (DLSS), (i.e., MILSTRIP, MILSTRAP, SDR, Contract Administration, and MILSBILLS), and DLMS changes. Part I contains revision proposals. Part II contains approved changes staffed with the Components for establishment of an implementation date. Part III consists of approved changes with implementation status. Part IV has been added to track proposals which are in inactive status or have been withdrawn. ***Bold italics*** are used to identify updates since the last annual report.

The Components are responsible for providing timely responses to proposed change coordination, and updated implementation status compiled for this report, no later than May 31, 2008. Components should carefully review the attachment, and submit missing responses and updated implementation status, as appropriate. The status review will be updated throughout the year, and is accessible via the DLMSO web page (refer to: http://www.dla.mil/j6/dlmso/ eLibrary/Changes/processchanges.asp).

Addressees may direct questions or comments to the DLMSO points of contact below. All others, please contact your designated Component representative.
