Compressed Gases and Cylinders

DLA Aviation announces a new partnership with HAAS Group International under a five-year base, five-year option, incentive-based performance contract, excluding Ozone Depleting Substances (ODS). This contract covers CONUS customers only, with plans to expand OCONUS within the next three years.

Federal Supply Class (FSC) 8120

FSC 8120 contains national stock numbers (NSNs) used for the purchase and inventory control of empty commercial and industrial gas cylinders and related hardware, such as valves, caps, adapters and manifolds.

Federal Supply Class (FSC) 6830

FSC 6830 contains NSNs for cylinders that are filled with a specific compressed or liquefied gas. Cylinders are color coded in accordance with MIL-STD-101B to indicate the particular gas or gas mixture contained within.

Contract benefits:

Improved performance:

- Requisition priorities, 01-08:
24-hour turnaround from vendor receipt of order
- Requisition Priorities, 09-13:
3-day turnaround from vendor receipt of order

These are some of the industrial gases offered by the DLA Aviation Industrial Gas Supplier Team:

Acetylene
Air, Human Respiration
Ammonia
Argon
Calibrating Gas Mixture
Carbon Dioxide
Chlorine
Helium
Hydrogen
Nitrogen
Oxygen, Aviator Breathing (ABO)
Oxygen, Technical
Propane
Sulfur Hexafluoride
Refrigerants
