

LEGACY TPC CADRG RESTORE

PLEASE BE ADVISED THAT AS OF 14-NOV-2014 ALL "NEXT GENERATION" (NEXTGEN) TACTICAL PILOTAGE CHARTS (TPC) HAVE BEEN RESTORED TO THEIR PREVIOUS LEGACY VERSION. THIS INCLUDES ALL TPC FRAMES AVAILABLE VIA THE GEOINT DELIVERY PLATFORM (GDP), AVIATION MISSION PLANNING UPDATES (AMPU), AND THE MONTHLY CADRG SUPPLEMENTAL DISK (CSD). THE NOVEMBER CSD CONTAINS ALL 153 RESTORED LEGACY TPC CHARTS (NRN:CDRGAUPDATE1 / NSN:7644014545188). DUE TO THE RESTORATION PROCESS, APPROXIMATELY 42,000 CHUM CALLS NEED TO BE APPLIED TO THE 153 LEGACY TPC CHARTS TO MAKE THEM CURRENT. NGA IS WORKING TO INCREASE CHUM PRODUCTION AS QUICKLY AS POSSIBLE TO CLOSE THE CHUM GAP, HOWEVER, DURING THE INTERIM USERS SHOULD APPLY THE LATEST VECTOR VERTICAL OBSTRUCTION DATA (VVOD) AND/OR TABLE FORMATTED AERONAUTICAL DATA SET (TFADS) TO ENSURE THE LATEST SOURCE OF VERTICAL OBSTRUCTIONS. USERS MAY ALSO CONSULT THE ECHART (GEOREFERENCED PDF) VERSION OF THE NEXTGEN TPCS, WHICH ARE STILL AVAILABLE FOR DOWNLOAD ON OUR GEOINT DELIVERY PLATFORM (GDP).

THE NGA VO WEBSITE FOR ALL AERONAUTICAL VO PRODUCTS IS WEBDVOF:

NIPRNET - <https://dvof/geointel.nga.mil/home.cfm>

SIPRNET - <http://vvod.geoint.nga.smil.mil>

JWICS - <http://vvod.geoint.nga.ic.gov/index.cfm>

THE CSD, VVOD, and OCF ARE ALSO AVAILABLE ON THE AVIATION MISSION PLANNING UPDATES (AMPU) WEBSITE:

NIPRNET -- <https://aerodata.nga.mil/aero/index.jsp>

ECHART VERSIONS OF THE NEXTGEN TPCS ARE LOCATED ON THE GEOINT DELIVERY PLATFORM:

NIPRNET - <https://websvcs.geo.nga.mil/gdp>

SIPRNET - www.geoint.nga.smil.mil/gdp

JWICS -- http://www.nga.ic.gov/gdp/gdp_ui.html

QUESTIONS CAN BE DIRECTED TO MICHAEL MACIK (NAVPLAN PROGRAM MANAGER), KRIS GILL (CADRG PROGRAM MANAGER), OR CRAIG MAHLKE (NAVPLAN/CADRG BRANCH CHIEF):
