Approved Defense Logistics Management Change 1450

Administrative Update DLMS 846R Location Reconciliation Request

Note - MFR

1. ORIGINATING SERVICE/AGENCY AND POC INFORMATION: Defense Enterprise Data Standards Office (DEDSO), Rafael Gonzalez, email: DEDSO.SUPPLY@dla.mil.

2. REASON FOR CHANGE:

a. Bottom Line Up-Front: This administrative change removes the Defense Logistics Management Standards (DLMS) 846R Location Reconciliation Request transaction note located in segment REF02/140 for the lot/segment number. REF02/140 should contain the value related to the code in REF01/140. The note is misleading because lot/segment is not a code in the REF01/140.

b. Background: The Defense Automated Addressing System (DAAS) implementation team identified a syntax error in the DLMS 846R Location Reconciliation Request transaction during a DAAS mapping review. The current DLMS note is incorrect because lot/segment is not a code in the REF01/140.

3. CHANGE IN DETAIL:

a. Technical Details: Remove the note for the DLMS 846R Location Reconciliation Request associated with REF01/140 for the lot/segment identifier.

b. Revised Transaction Flow: No impact to the Location Reconciliation Request transaction process flow.

4. TECHNICAL IMPACT:

a. Additions or Changes to Data Elements: Not applicable.

b. Automated Information Systems (AIS): No impact to Component systems. The removed note references a non-existence code.

5. PUBLICATION/POLICY IMPACT:

a. Defense Logistics Manual (DLM) 4000.25: No impact to DLMS publications.

b. Non-DLM 4000.25 Publications: No impact to non-DLM publications.

6. REFERENCES: Not applicable.
