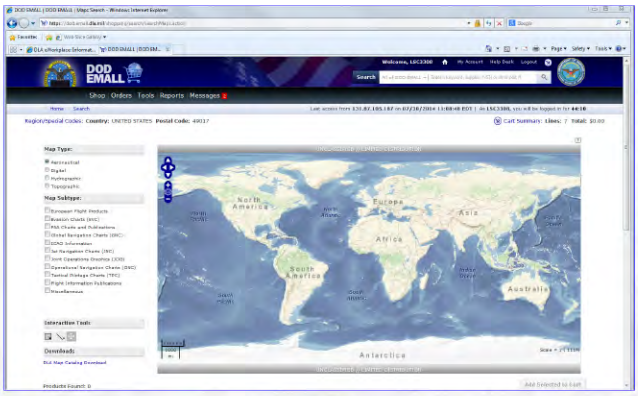
# DLA MAP CATALOG

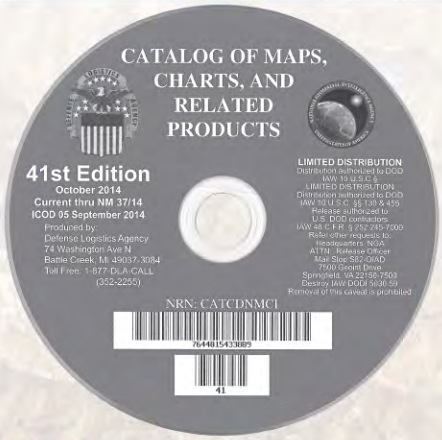


## DLA Limited Distribution Catalog

DLA produces an interactive catalog for Military and Government use. The catalog contains only products stocked by DLA. These products are divided into four categories: Aeronautical, Digital, Hydrographic and Topographic, all available in one catalog.

The DLA Map Catalog is used to locate and identify geospatial products using several easy-to-use search tools that help users find the right products for their specific needs. One feature of the DLA Map Catalog is that different map product layers can be searched on the same area simultaneously, allowing users to locate exactly which products they need.

Catalog users can order these products by finding, selecting and adding products to an interactive shopping cart. Check-out by saving an automatically generated MILSTRIP and uploading it to WEBREQ or DOD EMALL.



## Features:

- Search by Area of Interest, Product Series, Sheet/Chart-Number, National Stock Number (NSN), Exact Location, Notice to Mariner, Bi-lateral Chart Agency and Route
- Online catalog updates within DOD EMALL

## Ordering from the Limited Distribution DLA Map Catalog

To order products from the catalog, users will need a DODAAC, Map Account, WEBREQ or DOD EMALL Account

## DODAAC

Information on how to request a DoDAAC can be found at:
www.aviation.dla.mil/rmf/accounts.htm
then click on the DODAAC/FEDAAC link.

## Map Account

Information can be found at:
www.aviation.dla.mil/rmf/

## WEBREQ or DOD EMALL Account

WEBREQ information can be found at:
https://www.transactionservices.dla.mil/daashome/

DOD EMALL information can be found at:
https://dod.emall.dla.mil

To order the DLA Limited Distribution Map Catalog, contact DLA at 800-826-0342, DSN 695-6500, or online at: www.aviation.dla.mil/rmf/

NRN: CATCDNMCI
NSN: 7644-01-543-3809

## Online Interactive DLA Map Catalog

The DLA Map Catalog is now available online within DOD EMALL at https://dod.emall.dla.mil. Access the Interactive DLA Map Catalog by navigating to the DOD EMALL Homepage and clicking on the link under the Tools tab.

The online DLA Map Catalog contains the most current listing of maps, charts and geospatial products available from DLA. This catalog includes easy-to-use tools with the convenience of a web site.

The DLA Map Catalog is a significant step forward in interactive product catalogs and the catalog's ability to be updated ensures current data.
