

Defense Logistics Agency Map Catalog

DLA Limited Distribution Catalog

DLA produces an interactive catalog for Military and Government use. The catalog contains only products stocked by DLA. These products are divided into four categories: Aeronautical, Digital, Hydrographic and Topographic (now with USGS coverage), all available in one catalog.

The DLA Map Catalog helps users find the right geospatial product for their specific needs by utilizing several easy-to-use and intuitive search tools. This includes, among many other capabilities, being able to query different map product layers simultaneously, allowing users to locate all needed products in a particular area.

Catalog users can order these maps or charts by finding, selecting and adding products to an interactive shopping cart. Check-out by saving an automatically generated MILSTRIP and uploading it to WEBREQ or DOD EMALL.

Features:

- Search by Area of Interest, Product Series, Sheet/Chart-Number, National Stock Number (NSN), Exact Location, Notice to Mariner, Bi-lateral Chart Agency and Route
- Online catalog updates within DOD EMALL
