

Logistics Information Services

Self-Help Tools Side-by-Side Comparison

THE NATIONAL STOCK NUMBER

A National Stock Number (NSN) is simply the official label applied to an item of supply that is repeatedly procured, stocked, stored, issued and used throughout the federal supply system.

During NSN assignment, a wide range of logistics data is assembled to define the item of supply. This information includes the item name, manufacturer's part number, unit price, characteristics, shelf life and information associated with how to dispose of the item when requirements are no longer needed.

The NSN is officially recognized by the United States government, the North Atlantic Treaty Organization (NATO), and many international partners around the world.

Web Federal Logistics Information System (WebFLIS)

WebFLIS provides essential information about supply items including the NSN, the item name and company data (including part numbers), through a web interface connected to Federal Logistics Information System (FLIS) data. This information is primarily used by DLA, military services, and United States Government sponsored contractors doing business with the U.S. Government. WebFLIS data is updated multiple times a day. WebFLIS has additional tabs such as Advanced Characteristics Search, Medical, Weapon System and a Bill of Material (BOM)/Sets, Kits and Outfits (SKO) to allow users to narrow down searches using specific filtering and clear text supply codes with the ability to translate. WebFLIS is available to DLA internal and external customers who have a Common Access Card (CAC), External Certificate Authority (ECA) or Federal Bridge authentication.

For more information, please visit:

<http://www.dla.mil/HQ/InformationOperations/Offers/Products/LogisticsApplications/WebFLIS.aspx>

Federal Logistics Data on Mobile Media (FED LOG)

FED LOG is available by subscription or can be downloaded directly from DOD EMALL. FED LOG is For Official Use Only (FOUO) and is used by engineering, technical research, provisioning, procurement/contracting, supply, cataloging, maintenance, distribution, storage, transportation, quality assurance and disposal personnel to retrieve management, part/reference number, supplier, Commercial and Government Entity (CAGE), freight, Interchangeability and Substitutability (I&S) and characteristics information recorded against NSNs. FED LOG also provides service unique data for additional search capabilities. FED LOG Data is updated every 30 days through a subscription process and direct download from DOD EMALL. For more information, please visit:

<http://www.dla.mil/HQ/InformationOperations/Offers/Products/LogisticsApplications/FEDLOG.aspx>

Public Logistics Data on Mobile Media (PUB LOG)

PUB LOG is an interactive alternative source for users not authorized to access FED LOG or WebFLIS but require National Stock Number (NSN) information and other cataloging information including Federal Supply Classification (FSC) data and Commercial and Government Entity (CAGE) Codes. Restricted data such as service unique data, proprietary data and North Atlantic Treaty Organization (NATO) data is not available in PUB LOG. PUB LOG is available in a DVD media format updated monthly through a subscription process. For more information, please visit:

<http://www.dla.mil/HQ/InformationOperations/Offers/Products/LogisticsApplications/PUBLOG.aspx>

Public Logistics Data on Mobile Media FLIS Search (PUB LOG FLIS Search)

PUB LOG FLIS Search is a downloadable web service that users install to their PC. A onetime download of the executable file is all that is required for making the web service function. Data files are not included. The executable file connects to a secured server that stores and returns data with each query. This data is updated weekly. Users will be notified if an update to the executable file is required. Restricted data such as service unique data, proprietary data and North Atlantic Treaty Organization (NATO) data is not available in PUB LOG FLIS Search. Information is obtained through the Freedom of Information (FOIA), e-Reading room and requires no subscription or CAC authorization. For more information, please visit:

<http://www.dla.mil/HQ/InformationOperations/LogisticsInformationServices/FOIARReading.aspx>

DLA Customer Interaction Center (DLA CIC)

The DLA Customer Interaction Center (CIC) is your **"One Call Resolution"** point of contact for all Logistics issues related to DLA.

We're here for you 24 hours a day, 7 days a week, including Government holidays.

Toll Free: 1-877-DLA-CALL (1-877-352-2255)

DSN: 661-7766 / OCONUS: 312-661-7766 / Commercial: (269) 961-7766

Logistics Information Services offers comprehensive training and education on several DLA products and services. Many of our courses offer classroom instruction as well as delivery by Computer Based Training (CBT), Web Based Training (WBT), Satellite/VTC Training, and Webinar. Tailored courses are developed to meet individual service or agency needs.
