

## DoD EMALL– Improving for the Future

DoD EMALL is currently going through a technical refresh that will change the application’s look, feel and operability. Some highlights of the new application are pictures with every item, a better search engine, flexible shipping options and competitive pricing comparable to popular commercial eCommerce systems. The technical refresh is scheduled to “Go-Live” 2nd quarter fiscal year 2016.

Members of DLA Information Operations and DLA Acquisition have been working hand in hand with DoD stakeholders, General Services Administration (GSA) and the commercial vendor community since late 2014 to gather requirements for this effort. The outcome of this collaboration is to deliver a government wide, state of the market ecommerce solution that provides the same level of quality and performance as commercial eCommerce systems. The vision is to become a Federal Mall or FEDMALL, for Federal, DoD, State and local governments to search for and acquire products and services.
