DLA MASTER LIST  
OF  
TECHNICAL AND QUALITY  
REQUIREMENTS

Version 1

September 2016

HQ Defense Logistics Agency  
Technical and Quality Assurance Division

**TABLE OF CONTENTS**

22

23

24 **I. TECHNICAL AND QUALITY ASSURANCE REQUIREMENTS**

25

26 RP001: DLA PACKAGING REQUIREMENTS FOR PROCUREMENT.....4

27

28 IP025: PACKAGING, MARKING, AND SHIPPING OF HAZARDOUS MATERIALS.....6

29

30 IP027: PACKING AND MARKING REQUIREMENTS FEDERAL STOCK CLASS 5961

31 SEMICONDUCTORS AND HARDWARE DEVICES AND FSC 5962

32 ELECTRONIC MICROCIRCUITS.....7

33

34 RC001: DOCUMENTATION REQUIREMENTS FOR SOURCE APPROVAL REQUEST (SAR)...8

35

36 RD001: DEMILITARIZATION: SMALL ARM WEAPONS AND PARTS AND ACCESSORIES

37 (CATEGORY I – MUNITIONS LIST ITEMS, CATEGORY. I–DODM 4160.28- VOL 3)...9

38

39 RQ001: HIGHER LEVEL CONTRACT QUALITY REQUIREMENTS (MANUFACTURERS AND

40 NON-MANUFACTURERS) .....10

41

42 RQ002: CONFIGURATION CHANGE MANAGEMENT - ENGINEERING CHANGE

43 PROPOSAL REQUEST FOR VARIANCE (DEVIATION OR WAVIER) .....12

44

45 RQ003: CONFIGURATION CHANGE MANAGEMENT FOR EDGEWOOD FOR

46 CHEMICAL, BIOLOGICAL CENTER MATERIALS - ENGINEERING CHANGE

47 PROPOSAL REQUEST FOR VARIANCE (DEVIATION OR WAVIER) .....13

48

49 RQ004: FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT (FIFRA).....14

50

51 RQ005: LENGTHS, TICKETS, PACKAGING, MARKING OF CUTS OR PIECES – DLA TROOP

52 SUPPORT, CLOTHING AND TEXTILES (C&T) .....15

53

54 RQ006: QUALITY CONFORMANCE INSPECTION REQUIREMENTS.....17

55

56 RQ007: QUALIFIED MANUFACTURERS LIST (QML) INTEGRATED CIRCUITS, HYBRID

57 MICROCIRCUITS, AND SEMICONDUCTOR DEVICES – DLA MARITIME.....21

58

59 RQ008: WARRANTY OF INDUSTRIAL PLANT EQUIPMENT (IPE) FEDERAL SUPPLY

60 GROUP (FSG) 34.....22

61

62	RQ009: INSPECTION AND ACCEPTANCE AT ORIGIN.....	24
63		
64	RQ010: DATA NAME PLATES.....	25
65		
66	RQ011: REMOVAL OF GOVERNMENT IDENTIFICATION FROM NON-ACCEPTED	
67	SUPPLIES.....	26
68		
69	RQ012: QUALIFIED PRODUCTS LIST (QPL) CONNECTOR ASSEMBLIES AND QPL	
70	ELECTRICAL CONTACTS.....	27
71		
72	RQ013: QUALIFIED SUPPLIERS LIST OF MANUFACTURERS (QSLM) FOR GUN PARTS.....	28
73		
74	RQ014: QUALIFIED SUPPLIERS LIST OF DISTRIBUTORS (QSLD) AND QUALIFIED	
75	TESTING SUPPLIERS LIST (QTSL) FOR FEDERAL SUPPLY CLASS (FSC) 5961	
76	SEMICONDUCTORS AND HARDWARE DEVICES AND FSC 5962 ELECTRONIC	
77	MICROCIRCUITS.....	29
78		
79	RQ015: QUALIFIED SUPPLIERS LIST FOR MANUFACTURERS (QSLM)/QUALIFIED	
80	SUPPLIERS LIST FOR DISTRIBUTORS FOR TROOP SUPPORT.....	30
81		
82	RQ016: COMPONENT QUALIFIED PRODUCTS LISTS (QPL)/QUALIFIED	
83	MANUFACTURERS LISTS (QML).....	31
84		
85	RQ017: PHYSICAL IDENTIFICATION/BARE ITEM MARKING.....	32
86		
87	RQ018: CONTRACTOR RETENTION OF SUPPLY CHAIN TRACEABILITY	
88	DOCUMENTATION (AUG 2016).....	33
89		
90	RT001: MEASURING AND TEST EQUIPMENT.....	34
91		
92	<b>II. CONTRACT DATA REQUIREMENTS LIST</b>	
93	CERTIFICATE OF QUALITY COMPLIANCE AND TEST REPORT(S).....	35
94	COMMERICAL MANUALS FOR NAVAL SHIPBOARD.....	40
95	PRODUCT CERTIFICATION AND TEST REPORT(S).....	44

96 **RP001: DLA PACKAGING REQUIREMENTS FOR PROCUREMENT**

97  
98 (1) Additional Packaging and Marking Requirements:  
99

100 (a) Prohibited cushioning and wrapping materials: Use of asbestos, excelsior, newspaper, shredded  
101 paper (all types, including wax paper and computer paper), and similar hygroscopic or non-neutral  
102 materials and all types of loose-fill materials, including polystyrene, is prohibited for application  
103 such as cushioning, fill, stuffing, and dunnage. In addition, the use of yellow wrapping or packaging  
104 material is prohibited except where used for the containment of radioactive material.  
105

106 (b) MIL-STD-129 establishes requirements for contractors that ship packaged materiel to the  
107 Government to provide both linear bar codes and two-dimensional (2D) symbols on shipping labels.  
108 Shipping labels with 2D symbols are referred to as Military Shipping Labels (MSL) and are required  
109 on all CONUS and OCONUS shipments with the following exceptions:  
110

111 (1) Subsistence items procured through full-line food distributors (prime contractors), “market  
112 ready” type items shipped within the Continental United States (CONUS) to customers within  
113 CONUS;  
114

115 (2) Any item for which ownership remains with the contractor until the item is placed in  
116 designated locations at the customer location prior to issuance to the customer. Government  
117 control begins upon placement of the item by the contractor into the designated location or  
118 issuance from the designated location by contractor personnel (i.e., the contractor is required to  
119 stock bins at the customer location and/or issue parts from a contractor controlled parts room).  
120

121 (3) Bulk petroleum, oil and lubricant products delivered by pipeline; or tank car, tanker and tank  
122 trailer for which the container has a capacity greater than 450 L (119 gallons) as a receptacle for  
123 a liquid; a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450  
124 L (119 gallons) as a receptacle for a solid; or a water capacity greater than 454 kg (1000  
125 pounds) as a receptacle for a gas.  
126

127 (4) Medical items procured through Customer Direct suppliers or prime contractors that do not  
128 enter the Defense Transportation System.  
129

130 (5) Delivery orders when the basic contract has not been modified to require MIL-STD-129.  
131

132 (c) MIL-STD-129 provides numerous illustrations of what should be bar-coded and the  
133 recommended placement of the bar code. Further information is available on the DLA Packaging  
134 Web Site at:  
135 <http://www.dla.mil/LandandMaritime/Offers/Services/TechnicalSupport/Logistics/Packaging.aspx> .  
136

137 (2) Requirements for Treatment of Wood Packaging Material (WPM)

138 (a) Assets packed in or on wood pallets, skids, load boards, pallet collars, wood boxes, reels,  
139 dunnage, crates, frames, and cleats must comply with the Heat Treatment (HT) or Heat  
140 Treatment/Kiln Dried (HT/KD) (continuous at 56 degrees Centigrade for 30 minutes) standard in

141 DoD Manual 4140.65-M "Compliance for Defense Packaging: Phytosanitary Requirements for Wood  
142 Packaging Material (WPM)". WPM must be stamped or branded with the appropriate certification  
143 markings as detailed in DOD 4140.65-M and be certified by an accredited American Lumber  
144 Standards Committee (ALSC)-recognized agency. The WPM certification markings must be easily  
145 visible, especially in pallet loads, to inspectors.

146  
147 (3) Palletization shall be in accordance with **MD00100452, REVISION C, DATED 09/2016**  
148 found at  
149 [http://www.dla.mil/LandandMaritime/Offers/Services/TechnicalSupport/Logistics/Packaging/Palletiz](http://www.dla.mil/LandandMaritime/Offers/Services/TechnicalSupport/Logistics/Packaging/Palletization.aspx)

1. Packaging and marking for hazardous materials shall comply with applicable requirements including Performance Oriented Packaging (POP) contained in the International Air Transport Association (IATA) Dangerous Goods Regulations, AFMAN 24-204/DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment or the International Maritime Dangerous Goods Code (IMDG) and with Code of Federal Regulations (CFR) Title 29, Title 40 and Title 49.

2. All performance test requirements shall be supported by certificates and reports attesting to the date and the results obtained from performance oriented packaging testing. The contractor, if not a self-certifier, shall be responsible for assuring that third party sources providing performance testing services are, in fact, registered with the Department of Transportation.

3. The contractor's signed certification that the packaged configuration meets DOT, IATA or IMDG requirements shall be incorporated on the DD Form 250, Material Inspection and Receiving Report, and other related acceptance document if the DD Form 250 is not used. Ensure the Shipper's Declaration for Dangerous Goods (SDDG) is included for all air shipments in accordance with IATA and/or AFMAN 24-204/DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment. All certificates and reports (including training records) shall be available for inspection by authorized Government representatives for a period of three years.

4. Shipment to a military aerial port or through a military container consolidation point to include, but not limited to those DOD Activity Address Codes (DODAAC) listed below, for onward movement to an OCONUS customer shall comply with AFMAN 24-204/DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment. Publication is available at: [http://static.e-publishing.af.mil/production/1/af\\_a4\\_7/publication/afman24-204\\_ip/afman24-204\\_ip.pdf](http://static.e-publishing.af.mil/production/1/af_a4_7/publication/afman24-204_ip/afman24-204_ip.pdf)

- |                                   |                         |
|-----------------------------------|-------------------------|
| SW3225 – CCP (Tracy, CA)          | FB4427 – Travis AFB     |
| SW3123 – CCP (New Cumberland, PA) | FB4497 – Dover AFB      |
| SW3142 – Yokosuka, Japan          | FB4418 – Charleston AFB |
| N45627 – Norfolk NAS Terminal     | FB4484 – McGuire AFB    |
| FB4479 – McChord, WA              |                         |

5. Shipment by a commercial air carrier for onward movement to an OCONUS customer, packaging and certification shall comply with the International Air Transport Association (IATA) Dangerous Goods Regulations International.

6. Shipment to a water port for onward movement via vessel, packaging and documentation shall comply with the IMDG, International Maritime Dangerous Goods Code.

7. Training and certification for preparing DOD shipments by any mode of transport may be obtained by contacting the DOT/Technical Safety Institute at: Transportation Safety Institute, 6500 South MacArthur Blvd, Oklahoma City, OK 73169-6900, Commercial: (405) 954-4500, Web address: [www.tsi.dot.gov](http://www.tsi.dot.gov)

(End of TQ Requirement)

201 **IP027: PACKING AND MARKING REQUIREMENTS FEDERAL STOCK CLASS 5961**  
202 **SEMICONDUCTORS AND HARDWARE DEVICES AND FSC 5962**  
203 **ELECTRONIC MICROCIRCUITS**  
204

205 (1) In addition to MIL STD-129 packaging requirements, the following also applies:  
206

207 (a) Special marking as required under the applicable Military Specification [e.g. MIL-PRF-  
208 19500 (Semiconductors), or MIL-PRF-38535 (Microcircuits)] referenced in the contract.  
209

210 (b) Semiconductor devices and microcircuits not procured under a military specification shall be  
211 marked in accordance with MIL-STD-129 for additional markings of unit package and include:  
212

213 (i) Identification number

214 (ii) Manufacturer's identification

215 (iii) Manufacturer's date code  
216

217 (End of TQ Requirement)  
218  
219

220 **RC001: DOCUMENTATION REQUIREMENTS FOR SOURCE APPROVAL REQUEST (SAR)**

221  
222 (1) If an item other than what is cited in the Purchase Item Description (PID) specified in the solicitation  
223 is offered under the provisions of DLA Procurement Notes “L04 Offers for part numbered Items” or  
224 “M06 Evaluation of Offers for Part Numbered Items” then additional documentation requirements are  
225 needed to evaluate that the offered items meet the requirements for Critical Application Item (CAI)  
226 and/or Critical Safety Items (CSI) specified in the PID.  
227

228 (2) The mandatory requirements to submit a SAR for CATEGORY I - III critical parts can be found  
229 on the applicable DLA Office of Small Business Programs web site. To find the applicable DLA Office  
230 of Small Business Program, go to <http://www.dla.mil/HQ/SmallBusiness.aspx> and select the applicable  
231 Primary Level Field Activity (PLFA - Troop Support, Aviation, or Land and Maritime), than look for  
232 information on SAR.  
233

234 (3) The offeror shall determine which category applies (see below). The specific documentation for that  
235 category, as well the documentation specified in paragraph 3 shall be submitted in support of the  
236 manufacturing process.  
237

238 (a) CATEGORY I: Manufacturer of the same item for the Original Equipment Manufacturer (OEM),  
239 or for the Department of Defense (DOD).  
240

241 (b) CATEGORY II: Manufacturer of a similar item for the OEM or DOD. A similar item is defined  
242 as an item whose design, application, operating parameters, material, and manufacturing processes  
243 are similar to those of the item for which source approval is sought.  
244

245 (c) CATEGORY III: New manufacturer. The exact or similar item has not been previously provided  
246 to the OEM or DOD.  
247

248 (4) SAR documentation requirements are also required for all non-critical parts:  
249

250 (a) If the offeror seeking approval is not a manufacturer, the offeror shall submit SAR  
251 documentation on the manufacturer.  
252

253 (b) Any SAR identified to Boeing Rights Guard must comply with the Boeing Rights Guard  
254 Agreement.  
255

256 (End of TQ Requirement)  
257  
258  
259

260 **RD001: DEMILITARIZATION: SMALL ARM WEAPONS AND PARTS AND ACCESSORIES**  
261 **(CATEGORY I – MUNITIONS LIST ITEMS, CATEGORY I–DODM 4160.28- VOL 3)**  
262

263 1. Demilitarization of small arms weapons, weapons parts, accessories, and associated technical data  
264 will be accomplished in accordance with the most current version of the Department of Defense (DOD)  
265 Manual 4160.28, Volume 3, Enclosure 3 found on the Web at:  
266 <http://www.dtic.mil/whs/directives/corres/pub1.html>.

267  
268 2. Mandatory demilitarization training requirements will be fulfilled in accordance with DOD Manual  
269 4160.28, Volume 1, Enclosure 4.

270  
271 (End of TQ Requirement)  
272  
273  
274

275

276 **RQ001: HIGHER LEVEL CONTRACT QUALITY REQUIREMENTS (MANUFACTURERS**  
277 **AND NON-MANUFACTURERS)**

- 278
- 279 1. The minimum Higher Level Contract Quality Requirements for manufacturers for DLA is either SAE  
280 AS9003, or the appropriate tailored version of ISO 9001:2008. MIL-I-45208 and MIL-Q-9858 are  
281 obsolete and no longer acceptable when higher level quality is required.
- 282 2. In the tailored version of the ISO 9001:2008, any references within ISO 9001:2008 which cite the  
283 entire international standard are interpreted as exclusions.
- 284 3. DLA tailored higher level quality technical requirements from ISO 9001:2008 are as follows:
- 285 4.1 General requirements, [excluding reference to 1.2 and excluding Note 3c)]
- 286 4.2.1 General, [excluding subparagraph a)]
- 287 4.2.2 Quality manual, [excluding subparagraph a)]
- 288 4.2.3 Control of documents
- 289 4.2.4 Control of records
- 290 5.1 Management commitment
- 291 5.3 Quality policy
- 292 6.2.2 Competence, training and awareness
- 293 6.4 Work environment
- 294 7.1 Planning of product realization, [excluding Note 2]
- 295 7.2.1 Determination of requirements related to the product
- 296 7.2.2 Review of requirements related to the product
- 297 7.2.3 Customer communication
- 298 7.3.7 Control of design and development changes
- 299 7.4.1 Purchasing process
- 300 7.4.3 Verification of purchased product
- 301 7.5.1 Control of production and service provision
- 302 7.5.3 Identification and traceability
- 303 7.5.4 Customer property

- 304 7.5.5 Preservation of product
- 305 7.6 Control of monitoring and measuring equipment
- 306 8.1 General, [excluding subparagraphs (b) and (c)]
- 307 8.2.2 Internal audit
- 308 8.2.4 Monitoring and measurement of product
- 309 8.3 Control of nonconforming product
- 310 8.5.2 Corrective action
- 311 8.5.3 Preventive action
- 312 4. Manufacturing contractors may also choose to offer a quality management program meeting the  
313 requirements of full ISO 9001:2008, full ISO 9001:2015, or a program that exceeds ISO 9001:2008  
314 (example SAE AS 9100).
- 315 5. Higher-Level Contract Quality Requirement for Non-Manufacturers:
- 316 (a) If a non-manufacturer is supplying the material, the non-manufacturer shall:
- 317 (i) Furnish items produced at a manufacturing facility conforming to the higher-level contract  
318 quality requirement for manufacturers as specified in paragraph one; or
- 319 (ii) Maintain and provide documented evidence that material furnished under this contract was  
320 produced at a manufacturing facility conforming to the specified higher-level contract quality  
321 requirement and that the material meets all requirements. At a minimum, the documented  
322 evidence shall be sufficient to establish the identity of the product and its manufacturing source;  
323 and include the basic item description, the item(s) part number and/or national stock number, the  
324 item(s) manufacturing source, the manufacturing source's commercial and government entity  
325 code (e.g. CAGE code), and clear identification of the name and location of supply chain  
326 intermediaries from the manufacturer to the direct source of the product for the  
327 offeror/contractor, to the item(s) acceptance by the Government. It should also include, where  
328 available, the manufacturer's batch identification for the part(s), such as date codes, lot codes, or  
329 serial numbers.
- 330 (iii) Maintain documentation of the Non-Manufacturers' quality assurance program;  
331 receiving/verification processes; records management system; procurement system; inventory  
332 control system; testing results; and any other records associated with the material being provided.
- 333 (iii) Maintain documentation of the Non-Manufacturers' quality assurance program;  
334 receiving/verification processes; records management system; procurement system; inventory  
335 control system; testing results; and any other records associated with the material being provided.
- 336 (End of TQ Requirement)

337

338 **RQ002: CONFIGURATION CHANGE MANAGEMENT - ENGINEERING CHANGE**  
339 **PROPOSAL REQUEST FOR VARIANCE (DEVIATION OR WAVIER)**  
340

- 341 1. The Configuration Change Management section of SAE EIA-649-1 Configuration Management  
342 Requirement for Defense Contracts, Paragraph 3.3, shall be used for configuration control of material.
- 343 2. Furnished item(s) shall conform to the approved configuration requirements/revision, unless a  
344 Request for Variance (RFV) is processed and approved as provided by Paragraph E. below. The term  
345 "Request for Variance" includes Requests for Deviations and Waivers.
- 346 3. Value Engineering Change Proposals (VECPs) for cost saving improvements to the Technical Data  
347 Package (TDP) should not be processed per SAE EIA-649-1 and should be referred to FAR Part 48  
348 Value Engineering.
- 349 4. All Engineering Change Proposals (ECPs) submitted will be deemed routine. If an ECP is  
350 considered as an emergency or urgent; that justification for the rationale shall be included in the ECP  
351 submittal with all applicable supporting documentation.
- 352 5. For ECPs, RFVs, Notices of Revision (NORs) or Specification Change Notices (SCNs), the  
353 Contractor must submit the applicable documentation listed in sub-paragraphs 5. (a) through 5. (d) to the  
354 Administrative Contracting Officer (ACO), with an information copy to the Procuring Contracting  
355 Officer (PCO). Failure to submit a complete legible package may result in return of the  
356 ECP/RFV/SCN/NOR without processing.
- 357 (a) Documentation listed in EIA-649-1 Paragraph 3.3.1 (for ECPs), 3.3.2 (RFV), 3.3.3 (for SCNs)  
358 or 3.3.4 (for Notices of Revision (NORs)).
- 359 (b) DD Form 1692 (current revision) for ECP.
- 360 (c) DD Form 1694 (current revision) for RFV.
- 361 (d) DD Form 1695 (current revision) for NOR.
- 362 6. Questions regarding the status of previously submitted ECP or RFV should be directed to the PCO.  
363 Incorporation of an approved RFV and/or ECP will require a contract modification execution.
- 364 7. The submission of an ECP/RFV/SCN/NOR does not affect the required delivery date of the contract.  
365 If a delivery date change is needed, a contract modification is required.

366 (End of TQ Requirement)

367 **RQ003: CONFIGURATION CHANGE MANAGEMENT FOR EDGEWOOD FOR**  
368 **CHEMICAL, BIOLOGICAL CENTER MATERIALS - ENGINEERING CHANGE**  
369 **PROPOSAL REQUEST FOR VARIANCE (DEVIATION OR WAVIER)**  
370

371 1. The Configuration Change Management section of SAE EIA-649-1 “Configuration Management  
372 Requirement for Defense Contracts”, Paragraph 3.3, shall be used for configuration control of material  
373 with the following exclusions: paragraph 3.3(3); the second sentence of paragraph 3.3.1.8.1(1), and the  
374 General Note in paragraph 3.3.2.4(1) which reads as "Generally, Minor RFVs address product changes  
375 that are temporary and do not impact the baseline."

376 2. Furnished item(s) shall conform to the approved configuration requirements/revision, unless a  
377 Request for Variance (RFV) is processed and approved as provided by Paragraph E. below. The term  
378 "Request for Variance" includes Requests for Deviations and Waivers.

379 3. Value Engineering Change Proposals (VECPs) for cost saving improvements to the Technical Data  
380 Package (TDP) should not be processed per SAE EIA-649-1 and should be referred to FAR Part 48  
381 Value Engineering.

382 4. All Engineering Change Proposals (ECPs) submitted will be deemed routine. If an ECP is  
383 considered as an emergency or urgent; that justification for the rationale shall be included in the ECP  
384 submittal with all applicable supporting documentation.

385 5. For ECPs, RFVs, Notices of Revision (NORs) or Specification Change Notices (SCNs), the  
386 Contractor must submit the applicable documentation listed in sub-paragraphs 5. (a) through 5. (d) to the  
387 Administrative Contracting Officer (ACO), with an information copy to the Procuring Contracting  
388 Officer (PCO). Failure to submit a complete legible package may result in return of the  
389 ECP/RFV/SCN/NOR without processing.

390 (a) Documentation and/or use of DD Form 1692 (current revision) and delivery of data per DI-SESS-  
391 80639 is detailed in paragraph 3.3.1 of EIA-649-1 for ECPs.

392 (b) Documentation and/or use of DD Form 1694 (current revision) and delivery of data per DI-SESS-  
393 80640 is detailed in paragraph 3.3.2 of EIA-649-1 for RFVs.

394 (c) Documentation and/or use of DD Form 1695 (current revision) and delivery of date per DI-SESS-  
395 80642 is detailed in paragraph 3.3.4 of EIA-649-1 for NORs.

396 (d) Documentation and delivery of data per DI-SESS-80643 is detailed in Paragraph 3.3.3 of EIA-  
397 649-1 for SCNs.

398 6. Questions regarding the status of previously submitted ECP or RFV should be directed to the PCO.  
399 Incorporation of an approved RFV and/or ECP will require a contract modification execution.

400 7. The submission of an ECP/RFV/SCN/NOR does not affect the required delivery date of the contract.  
401 If a delivery date change is needed, a contract modification is required.

402 (End of TQ Requirement)

403

404 **RQ004: FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT (FIFRA)**

405  
406 (1) All insecticidal, acaricidal, herbicidal, fungicidal or algacidal pesticide products delivered or utilized  
407 in the production of finished supplies or delivery of services must be specifically labeled for the  
408 intended use as a pesticide by the US Environmental Protection Agency (EPA).

409  
410 (2) When a pesticide is specified by a contract but is not available with an EPA approved label, the  
411 offeror shall request a deviation from the specification and designate a substitute product with an EPA  
412 approved label for the use required by the specification.

413  
414 (End of TQ Requirement)

415

**RQ005: LENGTHS, TICKETS, PACKAGING, MARKING OF CUTS OR PIECES – DLA TROOP SUPPORT, CLOTHING AND TEXTILES (C&T)**

(1) LENGTHS OF CUTS OR PIECES. The gross length of single continuous pieces (regular length) is in the applicable specification or deviation. On pieces where shade swatches have been removed, gross yards shall exclude any material cut pursuant to the shade evaluation requirement. Pieces less than 50 yards in length will be considered for acceptance as follows:

Gross Length of Short Pieces (Yards)		Maximum % Permitted Of Total Contract Yardage	Discount From Contract Price
From:	To:		
40	49-7/8	4%	2%
30	39-7/8	3%	5%
20	29-7/8	2%	10%

Pieces less than 20 yards in length will not be accepted. When splicing is permitted, each individual cut so spliced will nevertheless be considered as a separate piece. Short lengths listed in this paragraph as acceptable must be presented to the Government Quality Assurance Representative (QAR) in separate groupings, identified as short lengths, and segregated by respective length ranges. The total yardage within any short length range, presented for acceptance at any stage of contract performance, shall not exceed the percentage specified in relation to the total yardage (gross of all regular and short length pieces) shipped to date on the contract plus the yardage in the lot being presented for acceptance.

(2) PIECE TICKETS:

(a) The piece ticket shall not include in the gross quantity any yardage removed there from for purposes of Contractor and Government verification testing, shade evaluation, standby samples, etc., but shall show only actual yardage in the piece.

(b) One-piece ticket shall be required for each length (whether a regular length or a short length as outlined in paragraph (a) above) showing gross yardage. Information on the ticket shall be specified in the applicable requirements for preparation for delivery.

(c) Where permitted, when two or more pieces are put up on the same roll and the roll is shipped unwrapped, one ticket shall be attached to each piece and one additional ticket shall be attached to the roll.

(d) Where permitted, when two or more pieces are put up on the same roll and the roll is shipped wrapped, one ticket shall be attached to each piece and two additional tickets shall be attached to the roll. One of the additional tickets shall be inserted in the paper tube and the other such additional ticket so positioned that, though covered by the wrapping, it can be readily located and drawn. An "X" marked on the outside wrapping shall indicate the position of the latter ticket.

461 (e) The additional tickets required by subparagraph (3) or (4) above shall be as specified in the  
462 applicable requirements for preparation for delivery. These tickets shall show gross yardage of each  
463 piece on the reverse side and the total gross yards of the pieces comprising the roll on the face side.  
464

465 (3) PACKAGING AND MARKING OF SHORT LENGTH:  
466

467 (a) Packaging: Lengths from 20 to 49-7/8 yards will be packed separately from regular length pieces.  
468 In addition, each length ranges as indicated in the table of paragraph (a), "Length of Cuts or Pieces"  
469 will, in turn, be packed separately. The total number of short lengths rolled on a tube shall be limited  
470 by the maximum yardage or maximum weight (whichever is applicable) specified for a roll.  
471

472 (b) Marking: Marking of containers shall clearly indicate "Short Lengths", followed by the length  
473 range of the contents. This information shall immediately follow the nomenclature.  
474

475 (End of TQ Requirement)  
476  
477

478 **RQ006: QUALITY CONFORMANCE INSPECTION REQUIREMENTS**

479 (1) This applies when manufactured parts are being acquired and the item description states that quality  
480 conformance inspection is required.

481 (2) Specifications Standards:

482 (a) American Society of Mechanical Engineers (ASME) B46.1, Surface Texture.

483 (b) ASME Y14.5, Dimensioning and Tolerancing.

484 (c) NCSL Z540.3, "Requirements for the calibration of Measuring and Test Equipment".

485 (d) National Bureau of Standards FED-STD-H28, Screw Thread Standards for Federal Services.

486 (e) American Society for Testing Materials (ASTM) Standards.

487 (f) ASTM E8/E8M – Standard Test Methods for Tension Testing of Metallic Materials.

488 (g) ASTM E10 – Standard Test Method for Brinell Hardness of Metallic Materials.

489 (h) ASTM E18 - Standard Test Methods for Rockwell Hardness of Metallic Materials.

490 (i) International Organization for Standardization (ISO) 9000 "Quality management systems -  
491 fundamentals and Vocabulary".

492 (3) Requirements:

493 (a) Items with a technical data package that is complete for manufacture (e.g., Government drawing,  
494 commercially-available technical data, etc.) shall be tested or examined as follows:

495 (i) Machined surfaces of parts specified to a surface roughness value shall be examined in  
496 accordance with ASME B46.1 to determine conformance of surface roughness to a specified  
497 value.

498 (ii) Product threads shall be examined in accordance with FED-STD-H28.

499 (iii) Specified dimensional and geometric tolerances shall be measured using only calibrated  
500 measuring equipment that is certified and traceable to National Institute of Standards and  
501 Technology (NIST) for accuracy.

502 (iv) Testing shall be in accordance with applicable ASTM standards.

503 (b) Finished products shall be uniform in quality and condition; and clean, smooth and free from  
504 scale, burrs, slivers, sharp edges (unless a technical requirement), ragged or torn edges, and other  
505 defects considered detrimental to serviceability of product.

506 (4) Quality Assurance Provisions:

507 (a) Sampling for quality conformance inspection shall be as specified in the contract.

508 (b) The following classification of characteristics shall apply, unless otherwise specified:

509 (i) Critical:

510 (a) Diametrical and linear dimensions having a total tolerance of 0.001 inch (0.025 MM) or  
511 less.

512 (b) Surface finishes having a 16 rms value or less.

513 (c) Geometric Tolerances having a tolerance of 0.002 inch (0.051 MM) or less.

514 (d) Nondestructive tests - Magnetic particle inspection, Liquid penetrant inspection,  
515 Ultrasonic testing, Radiographic testing, etc.

516 (ii) Major:

517 (a) Diametrical and linear dimensions having a total tolerance greater than 0.001 inch (0.025  
518 MM) up to and including 0.005 inch (0.1270 MM).

519 (b) Surface finishes having specified rms values over 16 but less than or equal to 63.

520 (c) Geometric Tolerance having a tolerance greater than 0.002 inch (0.051 MM) and equal  
521 to or less than 0.008 inch (0.2032 MM).

522 (d) Threads specified to Class 3 tolerances.

523 (iii) Minor:

524 (a) Diametrical and linear dimensions having a total tolerance in excess of 0.005 inch  
525 (0.1270 MM).

526 (b) Surface finishes specified to rms values in excess of 63.

527 (c) Visual and dimensional characteristics that are found to be nonconforming with the  
528 requirements of the applicable drawing and the requirements are contractual nonconformances.

529 (d) Chemical Test Lot - For chemical analysis, a test lot shall consist of one heat or melt of material  
530 regardless of product sizes/shapes produced.

531 (e) Mechanical Test Lot - For mechanical testing, when heat treatment is a technical requirement, a  
532 lot shall consist of:

- 533 (i) One size/shape of "as received" material from a "Chemical Test Lot", or
- 534 (ii) Each heat treats batch or continuous furnace run of end items from a "Chemical Test Lot".
- 535 (f) Material Certification - Written certification shall state that the material used conforms to the  
536 specification requirements and that test reports are on file. The material manufacturer's certificate  
537 of test for each heat or melt of material used in the manufacture of inspection lot product is  
538 required. The certificate shall show that the test results are in accordance with specification  
539 requirement and shall be entered into the inspection record. When a Certificate of Quality  
540 Compliance (COQC) is a requirement, the material certification:
- 541 (i) Shall be signed by an authorized company officer or contractor representative responsible for  
542 Quality Assurance;
- 543 (ii) Shall include actual test/inspection results; and
- 544 (iii) Shall include documentation for all required processes.
- 545 (g) Metallic Products: Products produced from "as received" material, or from material purchased  
546 in accordance with technical requirements of the contract/order, including products to be heat  
547 treated during the manufacturing cycle, shall require certificates (test report results) or mill source  
548 certification; and shall be verified by the Contractor for conformance with the requirements of the  
549 applicable material specification, including conformance with the properties for the type, grade,  
550 class, condition ordered. Inconclusive certification will require verification testing in accordance  
551 with the applicable specification and shall be performed on the chemical test lot and mechanical  
552 test lot of any particular material received; and test report results shall form part of the contract  
553 inspection records.
- 554 (i) Heat Treated Parts: Those articles which during the manufacturing cycle have been heat  
555 treated as may be required by drawing to obtain desired mechanical properties must be tensile  
556 and/or hardness tested as applicable to assure conformance to the drawing requirements.
- 557 (ii) When necessary due to product size, tensile test coupons may be taken from the same  
558 material from which the part is made. Test coupons shall be the same thickness as the maximum  
559 section of the part being heat treated and shall be subjected to the same heating and cooling  
560 cycles performed in the heat treatment of the parts.
- 561 (h) Non-metallic Products: Test certificates from the raw material producer or source certification  
562 shall be examined by the Contractor for conformance to the applicable material application. The  
563 certification received from the material producer/supplier may be the sole basis for acceptance  
564 when the certificate establishes that the material meets the requirements of the applicable  
565 specifications. If the certificate is not complete, additional testing must be performed or data  
566 obtained to establish that material meets the requirements of the applicable specifications.
- 567 (i) Surface Finishes and Treatments/Metallic Coatings:

568 (a) Plating, Surface Finishes and Treatments: Samples shall be selected, examined and tested in  
569 accordance with requirements of the applicable finish specification cited within technical  
570 documents of the contract with the acceptance/rejection criteria of the specification applying. In  
571 lieu of specific testing inspection criteria, the Contractor may furnish the plating contractor's  
572 certification with inspection results attached as objective quality evidence of surface finish  
573 conformance with specified requirements.

574 (b) When hydrogen embrittlement relief treatment is required, the Contractor shall include on the  
575 certification a statement that product was so treated by baking at the temperature and time  
576 required.

577 (j) Examination for Preparation for Delivery - Examination of the preparation for delivery shall be  
578 performed to determine conformance with contractual requirements.

(End of TQ Requirement)

579  
580  
581  
582  
583

584 **RQ007: QUALIFIED MANUFACTURERS LIST (QML) INTEGRATED CIRCUITS, HYBRID**  
585 **MICROCIRCUITS, AND SEMICONDUCTOR DEVICES – DLA MARITIME**  
586

587 (1) This is a QML item. Military specification MIL-M-38510, MIL-PRF-38534, or MIL-PRF-38535,  
588 MIL-PRF-19500 apply, as applicable.  
589

590 (2) QML item(s) shall be in strict conformance to the military specification referenced in the item  
591 description of the solicitation/contracting, including applicable revisions and slash sheets.  
592

593 (3) The contractor shall provide a certificate of conformance and adequate supply chain traceability  
594 documentation (CoC/T), IAW the applicable military specification referenced in paragraph one. The  
595 CoC/T documentation must also reference the contract number. Failure to provide adequate CoC/T will  
596 result in the rejection of the offeror.  
597

598 (4) If the contract requires inspection and acceptance at origin, the contractor shall furnish the original  
599 and two copies of the CoC/T to the Government quality assurance representative (QAR) with the items  
600 offered for acceptance. The CoC/T must clearly reference the applicable contract number. Upon  
601 acceptance, the QAR shall sign all copies indicating approval of the certification and acceptance of the  
602 supplies. The contractor shall email the signed copy to DLA Land and Maritime at  
603 Maritime.CDAP.Monitor@dla.mil. The second copy shall be retained by the QAR. The original shall  
604 be maintained by the contractor.  
605

606 (5) If the contract requires inspection and acceptance at destination, the Contractor shall email one copy  
607 of the CoC/T to DLA Land and Maritime at Maritime.CDAP.Monitor@dla.mil upon shipment/delivery.  
608 The CoC/T must clearly reference the applicable contract number.  
609

610 (End of TQ Requirement)  
611  
612

613 **RQ008: WARRANTY OF INDUSTRIAL PLANT EQUIPMENT (IPE) FEDERAL SUPPLY**  
614 **GROUP (FSG) 34**  
615

616 (1) The contractor warrants that for one year all supplies furnished under this contract will be free from  
617 defects in material and workmanship and will conform to all requirements of this contract. Warranty  
618 period begins from the date of acceptance.

619 (2) Any supplies or parts corrected or furnished in replacement by the contractor shall be subject to the  
620 conditions to the same extent as supplies initially delivered. This warranty shall be equal in duration to  
621 one year and shall run from the date of delivery of the corrected or replaced supplies.

622 (3) When the machine is inoperable because of a defect, deficiency and/or nonconformance subject to  
623 the contractor's warranty, and after the contractor has received written notice of the defect, deficiency or  
624 nonconformance, the warranty shall be extended for the time period during which the machine was  
625 inoperable (i.e., length of time from when contractor receives notification until machine is operable.)

626 (4) The contractor shall not be obligated to correct or replace supplies if the facilities, tooling, drawings,  
627 or other equipment or supplies necessary to accomplish the correction or replacement have been made  
628 unavailable to the contractor by action of the Government. In the event that correction or replacement  
629 has been directed, the contractor shall promptly notify the contracting officer, in writing, of the non-  
630 availability.

631 (5) The contractor shall also prepare and furnish to the Government data and reports applicable to any  
632 correction required (including revision and updating of all affected data called for under this contract) at  
633 no increase in the contract price.

634 (6) When supplies are returned to the contractor, the contractor shall bear the transportation costs from  
635 the place of delivery specified in the contract (irrespective of the free on board point, or the point of  
636 acceptance) to the contractor's plant and return. When defective items are returned to the contractor from  
637 other than the place of delivery specified in the contract, or when the Government exercises alternate  
638 remedies, the contractor's liability for transportation charges incurred shall not exceed an amount equal  
639 to the cost of transportation by the usual commercial method of shipment between the place of delivery  
640 specified in the contract and the contractor's plant and subsequent return.

641 (7) The warranties expressed herein are in lieu of any implied warranties of merchantability and "fitness  
642 for a particular purpose".

643 (8) Remedies available to the Government.

644 (a) In the event of a breach of the contractor's warranty, the Government may, at no increase in  
645 contract price

646 (i) Require the contractor, at the place of delivery specified in the contract (irrespective of the  
647 F.O.B. point or point of acceptance), or at the contractor's plant, to repair or replace, at the  
648 contractor's election, defective or nonconforming supplies, or

649 (ii) Require the contractor to furnish at the contractor's plant the materials or parts and  
650 installation instructions required to successfully accomplish the correction.

651 (iii) Where it is impracticable for the Government to pursue remedies at (i) and (ii), the  
652 Government may arrange for the repair or replacement of defective or nonconforming supplies  
653 by the Government or by another source at the contractor's expense. Where the Government is to  
654 accomplish the repair, the contractor at the Government's option will furnish the material or parts  
655 and the instruction required to successfully accomplish the repair.

656 (9) If the contracting officer does not require correction or replacement of defective or nonconforming  
657 supplies or the contractor is not obligated to correct or replace under paragraph (4) the Government shall  
658 be entitled to an equitable reduction in the contract price.

659 (10) The contracting officer shall notify the contractor in writing of any breach of the warranty in  
660 paragraph (b) of this clause within a reasonable period, but not later than 45 days after discovery of the  
661 defect. The contractor shall submit to the contracting officer a written recommendation within two  
662 working days as to the corrective action required to remedy the breach. After the notice of breach, but  
663 not later than five days after receipt of the contractor's recommendation for corrective action, the  
664 contracting officer may, in writing, direct correction or replacements in paragraph (8)(a) and the  
665 contractor shall comply with this direction within five days of receipt. If it is later determined that the  
666 contractor did not breach the warranty in paragraphs (1) and (b) the contract price will be equitably  
667 adjusted.

668 (11) If supplies are corrected or replaced, the period for notification of a breach of the Contractor's  
669 warranty in paragraph 10 shall be 45 days from the discovery of the defect.

670 (12) The rights and remedies of the Government provided in this clause are in addition to and do not  
671 limit any rights afforded to the Government by any other clause of the contract.

672 (13) The contractor shall be liable for the reasonable costs of disassembly and/or reassembly of larger  
673 items when it is necessary to remove the supplies to be inspected and/or returned for correction or  
674 replacement.

675 (End of TQ Requirement)

676

677 **RQ009: INSPECTION AND ACCEPTANCE AT ORIGIN**

678

679 1. The Government's Quality Assurance Representative (QAR) will inspect supplies described by  
680 manufacturer's name/code and part number at origin location(s):

681 a. The QAR may require that objective evidence be furnished establishing the name and address of  
682 the plant that manufactures the supplies to ensure that a domestic product is being supplied.

683 b. Objective evidence of performance must be present for all quality assurance requirements  
684 specified in the contract. The QAR may require additional examinations and tests to determine:

- 685 i. Completeness of item
- 686 ii. Material is new and unused
- 687 iii. Absence of rust
- 688 iv. Contamination, or deterioration
- 689 v. Correct identification/item marking
- 690 vi. Correct packaging
- 691 vii. Absence of any damage
- 692 viii. Compliance with preparation for delivery

693 2. If the supplier is not the manufacturer of the supplies, objective evidence must be furnished to  
694 establish that the supplies were produced by the approved manufacturer.

695 3. For supplies designated as former Government surplus (whether described by manufacturer's  
696 name/code and part number, or by Military or Federal specification or drawing), the original package  
697 markings of each item shall be verified to previous Government contract number and part number. Any  
698 deviation shall be cause for rejection of the item. The Procuring Activity may add additional inspection  
699 requirements based on the evaluation of the surplus offer. Such additional requirements will be  
700 identified before the award.

701 (End of TQ Requirement)

702

703 **RQ010: DATA NAME PLATES**

704  
705 (1) The most current version of military standard (MIL-STD) 130 is applicable with the exception of  
706 paragraphs 4.1, 4.5, 4.6, 4.11 and 4.13. Data name plates shall be made of minimum 22-gauge  
707 corrosion-resisting metal and attached to each item by rivets, screws, or welding in such a manner as to  
708 meet the applicable National Sanitation Foundation sanitary requirements for this equipment. The plate  
709 shall contain the following information stamped, engraved or applied by photosensitive means.

- 710
- 711 a) National stock number
  - 712
  - 713 b) Procurement Instrument Identification Number
  - 714
  - 715 c) Specification data
  - 716
  - 717 d) Manufacturer's name, address, phone number
  - 718
  - 719 e) Supplier's name, address, phone number
  - 720
  - 721 f) Manufacturer's model number
  - 722
  - 723 g) DIC approved manual number
  - 724

725 (2) Each plate shall be placed so that it is readily visible to the operator during normal operating use.  
726 Each plate shall be placed in a manner as to not adversely affect the life and utility of the item.

727  
728 (End of TQ Requirement)

729  
730  
731  
732

733 **RQ011: REMOVAL OF GOVERNMENT IDENTIFICATION FROM NON-ACCEPTED**  
734 **SUPPLIES**

735  
736 The Contractor shall remove or obliterate from a rejected end item and its packing and packaging,  
737 any marking, symbol, or other representation that the end item or any part of it has been produced or  
738 manufactured for the United States Government. Removal or obliteration shall be accomplished prior to  
739 any donation, sale, or disposal in commercial channels.

790

791 **RQ016: COMPONENT QUALIFIED PRODUCTS LISTS (QPL)/QUALIFIED**  
792 **MANUFACTURERS LISTS (QML)**  
793

794 This is a qualified item. The item contains one or more components defined by a specification(s) with  
795 an associated Qualified Products List (QPL) or Qualified Manufacturers List (QML). The DLA  
796 Directive (DLAD) Procurement Note “H02 Component Qualified Products List (QPL)/Qualified  
797 Manufacturers List (QML)” applies. The full text of H02 can be found in the DLAD Procurement Notes  
798 located on the Web at: <http://www.dla.mil/HQ/Acquisition/Offers/eProcurement.aspx>.

799 (End of TQ Requirement)  
800

801 **RQ017: PHYSICAL IDENTIFICATION/BARE ITEM MARKNG**

802

803 (1) Unless authorized by exclusions listed below, items shall be marked as specified in the current  
804 military standard 130 (MIL-STD-130). The following supplemental marking requirements shall take  
805 precedence in case of conflict with MIL-STD-130:

806

807 (a) Unless the design control document specifically cites other marking requirements, the item will  
808 be considered too small to mark under the conditions listed below (however, IP027 Packing and  
809 Marking Requirements for Federal Stock Class (FSC) 5961 and Semiconductors and Hardware  
810 Devices and FSC 5962 Electronic Microcircuits) applies:

811

812 (2) For federal supply classes (FSCs) 5905, 5910, 5935, 5961, 5962, and 5999, items smaller than .100  
813 inch in diameter and .250 inch in length or .100-inch square X .250 inch in length, exclusive of wire  
814 leads, will not be marked.

815

816 (3) Items from other FSCs will not be marked if the item is smaller than .250 inch in diameter X .500-  
817 inch-long or .250-inch square X .500-inch-long, exclusive of wire leads.

818

819 (4) Restrictions (1) and (2) above will not preclude marking of items of smaller dimensions if it is the  
820 manufacturer's standard practice to do so.

821

822 (a) No other physical item marking exclusions are authorized unless specified by MIL-STD-130.

CONTRACT DATA REQUIREMENT LIST COVER SHEET		Prescribed by: Technical Quality Deskbook Sponsor: J3
Use this form to record the necessary Document Number and Distribution Statement for the Contract Data Requirement List (DD 1423) that is included in this Portfolio.		
DOCUMENT NUMBER	DISTRIBUTION STATEMENT	
CDRL-COQC-16188	A Approved for public release; distribution is unlimited	

CONTRACT DATA REQUIREMENTS LIST (1 Data Item)										Form Approved OMB No. 0704-0188		
The public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Department of Defense, Executive Service Directorate (0704-0188). Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. Please do not return your form to the above organization. Send completed form to the Government Issuing Contracting Officer for the Contract/PR No. listed in Block 6.												
A. CONTRACT LINE ITEM NO. A001			B. EXHIBIT			C. CATEGORY: TDP <input type="checkbox"/> TM <input type="checkbox"/> OTHER <input type="checkbox"/>

D. SYSTEM/ITEM	E. CONTRACT/PR NO.	F. CONTRACTOR			
<p>16. REMARKS <i>(Continued)</i></p> <p>(i) the lot has been produced, sampled, tested, and inspected, and marked in accordance with all contract and specification requirements; and            (ii) the material complies with all of the contract and specification requirements.</p> <p>C. For contracts assigned for Government inspection at source, the supplier shall have the completed Certificate available for review by the Government representative when the material is presented for acceptance by the Government. For all material, the supplier shall attach copies of the completed Certificate to the packing list sent with each shipment to each shipping point designated in the contract. For all material, the supplier shall also send a copy of the completed Certificate to the PCO. If the supplier offering the material to the Government is not the manufacturer of the material, the supplier is responsible for obtaining a certified test report from the manufacturer, including it as part of this COQC, and for demonstrating that the specific material being offered under this Certificate is covered by the certified test report.</p> <p>D. Unless otherwise specified by the contract, the supplier shall be responsible for retaining the Certificate for a period of 4 years. When requested by the Contracting Officer, the supplier shall make the Certificate available for review by the Government at any time during the period the Certificate is required to be retained.</p>					

## INSTRUCTIONS FOR COMPLETING DD FORM 1423

*(See DoD 5010.12-M for detailed instructions.)*

<u>FOR GOVERNMENT PERSONNEL</u>	<u>FOR THE CONTRACTOR</u>
<p>Item A. Self-explanatory.</p> <p>Item B. Self-explanatory.</p> <p>Item C. Mark (X) appropriate category: TDP - Technical Data Package; TM - Technical Manual; Other - other category of data, such as "Provisioning," "Configuration Management," etc.</p> <p>Item D. Enter name of system/item being acquired that data will support.</p> <p>Item E. Self-explanatory (to be filled in after contract award).</p> <p>Item F. Self-explanatory (to be filled in after contract award).</p> <p>Item G. Signature of preparer of CDRL.</p> <p>Item H. Date CDRL was prepared.</p> <p>Item I. Signature of CDRL approval authority.</p> <p>Item J. Date CDRL was approved.</p> <p>Item 1. See DoD FAR Supplement Subpart 4.71 for proper numbering.</p> <p>Item 2. Enter title as it appears on data acquisition document cited in Item 4.</p> <p>Item 3. Enter subtitle of data item for further definition of data item (optional entry).</p> <p>Item 4. Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-L (AMSDL), or one-time DID number, that defines data content and format requirements.</p> <p>Item 5. Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).</p> <p>Item 6. Enter technical office responsible for ensuring adequacy of the data item.</p> <p>Item 7. Specify requirement for inspection/acceptance of the data item by the Government.</p> <p>Item 8. Specify requirement for approval of a draft before preparation of the final data item.</p> <p>Item 9. For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoDD 5230.24).</p> <p>Item 10. Specify number of times data items are to be delivered.</p> <p>Item 11. Specify as-of date of data item, when applicable.</p> <p>Item 12. Specify when first submittal is required.</p> <p>Item 13. Specify when subsequent submittals are required, when applicable.</p> <p>Item 14. Enter addressees and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.</p> <p>Item 15. Enter total number of draft/final copies to be delivered.</p> <p>Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14.; Desired medium for delivery of the data item.</p>	<p>Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.</p> <p style="margin-left: 40px;">a. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.</p> <p style="margin-left: 40px;">Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.</p> <p style="margin-left: 40px;">b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.</p> <p style="margin-left: 40px;">Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.</p> <p style="margin-left: 40px;">c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.</p> <p style="margin-left: 40px;">Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.</p> <p style="margin-left: 40px;">d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.</p> <p style="margin-left: 40px;">Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.</p> <p>Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirement to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.</p>

16. REMARKS Data required by this document will be included in the price of the procured item(s).  CAUTION: Do not submit sample commercial manuals with contract offers. Such samples will not be evaluated prior to award.  Unless the requirement for submission of sample commercial manuals is waived, the supplier, at no cost to the Government, shall submit five (5) sample copies of their commercial manual sent via regular mail, not later than 90 calendar days prior to the initial scheduled delivery of equipment under this contract.  The Contracting Officer (CO) or the Contracting Officer's Representative (COR) will notify the supplier of the acceptance of, or the required corrections to, the sample commercial manual within 60 calendar days after date of receipt.  In the event corrections are required, the CO will furnish the supplier a notice of required corrections. The supplier shall submit five (5) copies of the corrected commercial manual for approval within the period specified in the notice of required corrections, but this period shall not be less than 10 working days after the receipt of notice. When the commercial manual can be corrected by the addition of supplemental sheets, the supplier will be so advised. The CO or COR will furnish the supplier with the notice of approval of the manual and the numbers assigned to the commercial manual.  The Government reserves the right to waive the requirement for submission of sample commercial manuals from those suppliers offering manuals that have been previously furnished by the supplier and accepted by the Government. If the equipment or manual has been altered, changed, modified or redesigned since last manual approval or last Government procurement, then sample manual submission is required unless a waiver is requested and approved. A. CONTRACT LINE ITEM NO. A001	B. EXHIBIT	C. CATEGORY: TOP _____ TM _____ OTHER _____	
D. SYSTEM/ITEM		E. CONTRACT/PR NO.	F. CONTRACTOR

**16. REMARKS (Continued)**

Suppliers offering previously approved manuals shall submit evidence of prior Government acceptance in writing in the following format:

PRIOR GOVERNMENT ACCEPTANCE  
GOVERNMENT AGENCY  
SPECIAL CONTRACT REQUIREMENTS  
PREVIOUS COMMERCIAL MANUAL CONTROL NO.  
DATE  
CONTRACT NO.  
MODEL NO.  
NATIONAL STOCK NO.

If requesting a waiver the supplier shall also furnish to the Government, five (5) copies of any changes to the previously approved commercial manual. Unless submission of the sample manuals is waived, the supplier shall furnish, on or before initial shipment of production items, copies of the approved commercial manual specified herein.

If approval of the manual has not been obtained by the time the end item is ready for shipment, the supplier shall request permission from the Contracting Officer to pack a copy of the proposed manual for shipment with each unit.

**Option for Additional Commercial Manuals:**

The Government may order by written notice any time after award, but not later than 30 calendar days before final scheduled delivery of end items, additional copies of manuals. Delivery of additional copies of manuals ordered shall be not later than 60 calendar days after written notice, unless the parties otherwise agree. The supplier may, without affecting the responsiveness of their offer, refuse to give the Government the right to purchase additional commercial manuals, provided that such refusal is set forth in their offer. Supplier shall provide pricing information for the additional manuals.

**INSTRUCTIONS FOR COMPLETING DD FORM 1423**

*(See DoD 5010.12-1/f for detailed instructions.)*

FOR GOVERNMENT PERSONNEL

- Item A.** Self-explanatory.
- Item B.** Self-explanatory.
- Item C.** Mark (X) appropriate category: TDP - Technical Data Package; TM - Technical Manual; Other - other category of data, such as "Provisioning," "Configuration Management," etc.
- Item D.** Enter name of system/item being acquired that data will support.
- Item E.** Self-explanatory (to be filled in after contract award).
- Item F.** Self-explanatory (to be filled in after contract award).
- Item G.** Signature of preparer of CDRL.
- Item H.** Date CDRL was prepared.
- Item I.** Signature of CDRL approval authority.
- Item J.** Date CDRL was approved.
- Item 1.** See DoD FAR Supplement Subpart 4.71 for proper numbering.
- Item 2.** Enter title as it appears on data acquisition document cited in Item 4.
- Item 3.** Enter subtitle of data item for further definition of data item (optional entry).
- Item 4.** Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-1 (AMSDL), or one-time DID number, that defines data content and format requirements.
- Item 5.** Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).
- Item 6.** Enter technical office responsible for ensuring adequacy of the data item.
- Item 7.** Specify requirement for inspection/acceptance of the data item by the Government.
- Item 8.** Specify requirement for approval of a draft before preparation of the final data item.
- Item 9.** For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoDD 5230.24).
- Item 10.** Specify number of times data items are to be delivered.
- Item 11.** Specify as-of date of data item, when applicable.
- Item 12.** Specify when first submittal is required.
- Item 13.** Specify when subsequent submittals are required, when applicable.
- Item 14.** Enter addressees and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.
- Item 15.** Enter total number of draft/final copies to be delivered.
- Item 16.** Use for additional/clarity information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14.; Desired medium for delivery of the data item.

FOR THE CONTRACTOR

**Item 17.** Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

a. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

**Item 18.** For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirement to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

**16. REMARKS**

A. Data required by this document will be included in the price of the procured item(s).

B. Definitions. For purposes of this CDRL, the following definitions apply:

- (1) Primary Mill. A manufacturing facility which produces a basic product, denoted herein as a primary mill product, by the smelting of raw materials or scrap metal by electric furnace or other conversion process authorized by the applicable specification.
- (2) Primary Mill Product. A basic product which is manufactured or produced at a primary mill by electric furnace or other authorized conversion process and cast in metal molds.
- (3) Derivative Product. A product which is manufactured or produced from a primary mill product, or a product which is manufactured or produced from another derivative product.
- (4) Heat, Melt or Die Lot Number. The designation of the single manufacturing process of smelting by which specific metal mill products have been identified.
- (5) Manufacturing Lot. All products of the same thickness or diameter, class, condition or temper, rolled or forged from the same heat, and heat-treated at the same time or by the same continuous process.

C. Each Certificate prepared in accordance with this document shall include the following:

- (1) The supplier's name, address, and Commercial and Government Entity (CAGE) code; the Contract/Order Number, the applicable specification, drawing or standard, or part number (including revisions/amendment and date); identification of the specific supplies delivered under the order, including the National Stock Number (NSN), the nomenclature, the class, type and grade, and Unified Numbering System (UNS) code, if applicable; and for metal products, include the alloy designation, and condition (finish and temper). If the supplier is not the manufacturer of the supplies furnished under the order, the Certificate will include the name, address, and CAGE code (if applicable) for each of the entities through which the supplies passed, whether as complete products, or as products upon which further manufacturing, production, or fabrication was required, so that traceability from the manufacturer of the primary mill product will be readily discernible.
- (2) The identification of each parameter for which the contract, specification, standard, drawing or other data, is required for inspection or testing.

A. CONTRACT LINE ITEM NO. A001	B. EXHIBIT	C. CATEGORY: TOP _____ TM _____ OTHER _____	
D. SYSTEM/ITEM		E. CONTRACT/PR NO.	F. CONTRACTOR

16. **REMARKS (Continued)**

- (3) The identification of the specific requirement for each of the parameters in C(1) above, for the particular supplies being produced and covered by the Certificate.
  - (4) The actual results of inspection and/or tests conducted by the supplier to demonstrate conformance with each of the specific requirements of C(3) above.
  - (5) The marking requirement for the material and the source of this requirement, i.e., the contract schedule, specifications, standards or other requirement(s).
  - (6) A statement, signed by an authorized representative of the supplier who is responsible for quality assurance, certifying that the lot has been produced, inspected, sampled and tested, and marked in accordance with all contract and specification requirements, and that the supplies comply with all applicable contract and specification requirements.
- D. If the supplies to be delivered under this contract are primary mill products, or are/were produced or fabricated from products which were derived from primary mill products, the supplier shall attach to each Certificate for supplies delivered under this contract, a true copy of the Certification and Test Report (CERT) of the primary mill which manufactured or produced the primary mill product(s). The producing mill CERT for the primary mill product(s) shall identify each manufacturing lot by HEAT, MELT or DIE LOT number. If the supplies to be delivered under this contract are derived from primary mill product of more than one HEAT, MELT or DIE LOT, a separate CERT shall be attached to the supplier's Certification for each such HEAT, MELT or DIE LOT. If the supplies to be delivered under this contract are derivative products, produced from primary mill products, or from other derivative products, then, in addition to each primary mill CERT required by this document, the supplier shall attach to its Certification a true copy of the CERT of each derivative product manufacturer or producer for each manufacturing lot represented by the supplies delivered under the contract.
- E. Unless otherwise specified in this contract, the supplier shall retain the Certificate and supporting documents (CERTS) for a period of four (4) years. Upon the request of the Contracting Officer at any time during the period required for retention, the supplier shall make the Certificate(s) available to the Government.
- F. With each tender of supplies under this contract, the supplier shall secure a copy of the order and the Product Certification and Test Report(s) to the packing slip so as to withstand air, rail or ocean shipment to each consignee specified in the order. If the supplies to be delivered under this contract are the product(s) of more than one (1) manufacturing lot, a separate Certificate shall be furnished for each manufacturing lot. This requirement shall apply whether the supplies are/were manufactured or produced under a product specification, the part number or die number of a particular manufacturer or other entity, a commercial, industry or military standard or specification, drawings or any other form of technical data.

## INSTRUCTIONS FOR COMPLETING DD FORM 1423

(See DoD 5010.12-1/1 for detailed instructions.)

### FOR GOVERNMENT PERSONNEL

- Item A.** Self-explanatory.
- Item B.** Self-explanatory.
- Item C.** Mark (X) appropriate category: TDP - Technical Data Package; TM - Technical Manual; Other - other category of data, such as "Provisioning," "Configuration Management," etc.
- Item D.** Enter name of system/item being acquired that data will support.
- Item E.** Self-explanatory (to be filled in after contract award).
- Item F.** Self-explanatory (to be filled in after contract award).
- Item G.** Signature of preparer of CDRL.
- Item H.** Date CDRL was prepared.
- Item I.** Signature of CDRL approval authority.
- Item J.** Date CDRL was approved.
- Item 1.** See DoD FAR Supplement Subpart 4.71 for proper numbering.
- Item 2.** Enter title as it appears on data acquisition document cited in Item 4.
- Item 3.** Enter subtitle of data item for further definition of data item (optional entry).
- Item 4.** Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-1 (AMSDL), or one-time DID number, that defines data content and format requirements.
- Item 5.** Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).
- Item 6.** Enter technical office responsible for ensuring adequacy of the data item.
- Item 7.** Specify requirement for inspection/acceptance of the data item by the Government.
- Item 8.** Specify requirement for approval of a draft before preparation of the final data item.
- Item 9.** For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoDD 5230.24).
- Item 10.** Specify number of times data items are to be delivered.
- Item 11.** Specify as-of date of data item, when applicable.
- Item 12.** Specify when first submittal is required.
- Item 13.** Specify when subsequent submittals are required, when applicable.
- Item 14.** Enter addressees and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.
- Item 15.** Enter total number of draft/final copies to be delivered.
- Item 16.** Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14.; Desired medium for delivery of the data item.

### FOR THE CONTRACTOR

**Item 17.** Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

a. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

**Item 18.** For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirement to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.
