Parts Management Tools & Data Subcommittee Meeting

- **Discussed Pin Point**
 - Where Pin Point should be in the future
 - Power Users Group would help define it
- **Discussed Technology Roadmap**
 - Agreed that a parts management technology roadmap would be of value to the community
 - Identified working group participants to develop the roadmap
 - Biggest challenge is to define something within our scope within 12 months

Policy, Contracts, SE, Education Subcommittee Meeting

-
- Reviewed two industry association documents – ANSI / EIA 4899 (ECMP) and EIA 933 (COTS) and provided comments on behalf of the PSMC
 - Discussed alternatives to the current “order of preference” in MIL-STD-3018
 - Develop a standardization document to use instead
 - Other alternatives
 - SE technical review checklists
 - Next meeting plan to develop a short list of high-level questions appropriate for Program Managers

Counterfeit Parts Subcommittee Meeting

Discussed the upcoming revision to AS5553

- How to collect comments for it
- Best approach for involving the services in the AS5553 revision effort
- The importance of inviting representatives from the Military Departments to participate in the revision effort
