# SE, Procedures, Contracts, Education Subcommittee Meeting

- 
- Worked on the proposed Change Notice 2 for MIL-STD-3018, Parts Management.
    - Part selection order of preference, paragraph 5.2, and related issues.
    - Discussed potential verbiage for clarifying the section.
    - Discussed general updates.
  - Discussed concept of potentially developing an industry standard for parts standardization.

# Parts Management Tools and Data Subcommittee

- 
- Discussed promoting / accelerating adoption of digital standards within government / industry.
  - LMI proposed an approach to defining an open architecture for improving data exchange interoperability and took an action item to develop a common enterprise-wide approach.
  - Discussed preferred parts and technology roadmaps.

# Counterfeit Parts Subcommittee Meeting

- 
- **Discussed the status of revising AS5553 and areas of greatest concern for resolving comments**
  - **Considered the development of a document similar to an SD on counterfeit mitigation**
    - **To provide guidance and address best practices.**
    - **To distill and summarize the key elements contained in numerous other counterfeit-related documents.**

# Implementation & Marketing Subcommittee Meeting

---

**Three-step approach for this newly renamed subcommittee regarding accomplishing parts management to meet MIL-STD-3018:**

- **Templates for Contract wording**
- **Suggested Industry Best Practices for Processes and procedures**
- **Implementation and checks and balances**
  - **How to make sure folks are actually getting it**
  - **Create a practitioner's guide – Actual "how to" templates, not just repeating requirements**
