

# Parts Standardization and Management Committee (PSMC)

## Parts Management

**Boeing  
Industry Co-Lead  
Spring PSMC, LMI, VA  
28 Apr 2015**

# *What We Are*

The Parts Standardization and Management Committee is a DoD sponsored committee that ***provides a forum to influence and support parts management and standardization through commonality of parts and processes.***

# Who We Are

- The PSMC is chartered by the Defense Standardization Program Office (DSPO) to ***advise in the development of policy, procedures, and guidance related to parts management.***
- Our goal is to ***establish parts management best practices*** across DoD to ***increase weapon system operational availability*** and ***reduce total ownership costs.***

# *Government Participants*

- Defense Standardization Program Office
- OSD Systems Engineering
- Military Departments
- Defense Logistics Agency
- Federal Aviation Agency
- Government-Industry Data Exchange Program
- Missile Defense Agency

# Industry & Part Data Participants

- Aerospace Corporation
- Applied DNA Sciences
- ARINC
- BAE Systems
- KLX Aerospace
- BMP COE
- Boeing
- Convergence Data
- DfR Solutions
- ECCMA
- ECC Corp
- General Dynamics Electric Boat
- Honeywell
- IDA
- IHS
- Inventory Locator Svc
- L-3 Communications
- Lansdale
- LMI
- Lockheed Martin
- NCI Inc.
- Northrop Grumman
- PARTsolutions LLC
- Raytheon
- Rochester
- SAE International
- Sandia National Labs
- SiliconExpert Technologies
- SMT
- TechnoLINK
- UTC Aerospace Systems
- XSB

# *Why Parts Management Is Important*

Parts are the ***building blocks*** from which systems are created and, as such, greatly impact hardware dependability and readiness. Parts Management focuses on ***selecting the best parts at the design phase of an acquisition program***, considering factors which may affect ***reliability, standardization, quality and obsolescence mitigation*** under an overarching Systems Engineering umbrella.

These parts will provide the ultimate user, the Warfighter, returns that can be measured through the desired performance-based criteria of ***operational availability, operational reliability, logistics footprint and logistics response time***, as well as payback in terms of ***total ownership costs***.

# *Benefits of Parts Management*

Parts Management focuses on part selection during weapon system design, considering factors that may affect part application, obsolescence mitigation and standardization.

## ***Benefits include:***

- Reduced system life cycle costs
- Enhanced system supportability
- Improved quality and reliability
- Improved readiness
- Better interoperability
- Reduced logistic footprint
- Lower documentation costs
- Decreased part and supplier qualifications
- Reduced inventory costs
- Enhanced economy of scale through larger volume buys

# *PSMC Objectives*

## ***PSMC Mission:***

**To provide a standing forum for communication and collaboration between DoD and industry to promote and enable effective parts management in support of the Warfighter.**

## ***We achieve this by:***

- Promoting the benefits of Parts Management
- Reducing life cycle costs by promoting part and process commonality
- Advocating commercial/industrial part standardization
- Promoting parts management education and training
- Developing parts management tools
- Promoting a standard parts database
- Assisting in developing cost-effective parts management programs
- Mitigating the impact of obsolescence

# *PSMC Benefits*

Partnering with the PSMC can provide your organization insight into the latest practices in parts management.

## ***The PSMC offers:***

- Development of parts management policy and documentation.
- A forum to discuss the latest changes in acquisition initiatives and practices.
- Networking opportunities at multiple levels of government and industry.
- Increased knowledge through briefings presented by leading government and industry representatives, introducing innovative tools and practices that assist in the development and maintenance of a parts management program.

# *Current Focus Areas*

## **The PSMC is focusing on the following efforts:**

- Reengineering DoD Parts Management
- Recommending Parts Management Policy
- Revitalizing Parts Management within Systems Engineering
- Providing Parts Management Tools and Data
- Recommending Process Improvements
- Developing Case Studies
- Collaborating with the DMSMS/GIDEP Communities

# *Become a PSMC Partner*

## **Subcommittees for participation:**

- Contracting, Policy, Systems Engineering and Education/Documentation
- Counterfeit Parts Mitigation
- Parts Management Tools and Data
- Implementation
- DMSMS
- Charter

# *Join the PSMC Team*

## **Meeting Locations/Timeframes:**

- Biannual, fall and spring
- Locations alternate between east and west coasts
- Next meeting : Tentatively week of 3 Nov 2015; location is TBD

**PSMC Website:** <http://www.dscclia.mil/programs/psmc>

## **Participation:**

If interested in joining the committee as a government or industry participant, contact the PSMC Chair by *calling (703)767-6874*

# *Participant Introductions*

- Around the room introductions (sign-in sheet)
- Previous Meeting Summary / Surveys
- Detailed work to be performed
- Subcommittee Breakouts to meet Wednesday
