

Strategic and Critical Materials Operations Report To Congress

**Operations under the Strategic and Critical
Materials Stockpiling Act during
Fiscal Year 2014**

**Office of the Under Secretary of Defense
for Acquisition, Technology, and Logistics**

January 2015

The estimated cost of this report or study for the Department of Defense is approximately \$3,240 in Fiscal Years 2014 - 2015. This includes \$0 in expenses and \$3,240 in DoD labor.

I. THE STRATEGIC AND CRITICAL MATERIALS STOCKPILING PROGRAM

OVERVIEW

The Strategic and Critical Materials Stock Piling Act (50 U.S.C. § 98 *et seq.*) provides for the acquisition and retention of stocks of certain strategic and critical materials and encourages the conservation and development of sources of such materials within the United States. The acquisition and retention of stocks will decrease and preclude, when possible, a dangerous and costly dependence upon foreign sources or a single point of failure of such materials during and immediately following a national emergency. Such materials when acquired and stored constitute and are collectively known as the National Defense Stockpile (NDS or the “stockpile”).

By Executive Order, the Secretary of Defense is designated as the NDS Manager, with management responsibilities delegated to the Under Secretary of Defense for Acquisition, Technology and Logistics. The operational activities of the NDS are delegated to the Director of the Defense Logistics Agency (DLA). DLA Strategic Materials was established as a field activity to manage the operations of the NDS program, including the acquisition, storage, management, and disposal of materials.

Not later than January 15 of each year, the Stockpile Manager is required to submit to the Congress a written report detailing operations of the stockpile. This report has been prepared to satisfy this requirement. Per the section 11(a) of Stock Piling Act (50 U.S.C. 98h-2(a)), the report is to include:

- (1) Information with respect to foreign and domestic purchases of materials during the preceding fiscal year;
- (2) Information with respect to the acquisition and disposal of materials under this subchapter by barter, as provided for in section 6(c) of this Act, during such fiscal year;
- (3) Information with respect to the activities by the Stockpile Manager to encourage the conservation, substitution, and development of strategic and critical materials within the United States;
- (4) Information with respect to the research and development activities conducted under sections 2 and 8 of this Act;
- (5) A statement and explanation of the financial status of the National Defense Stockpile Transaction Fund and the anticipated appropriations to be made to the fund, and obligations to be made from the fund, during the current fiscal year; and

- (6) Such other pertinent information on the administration of this subchapter as will enable the Congress to evaluate the effectiveness of the program provided for under this subchapter and to determine the need for additional legislation.

Fiscal Year 2014 (FY14) brought about the return of new material acquisition authorities for the National Defense Stockpile for the first time in over 20 years. In coordination with various components of the Department of Defense (DoD), other Federal agencies, and industry, DLA Strategic Materials identified six strategic and critical materials for which stockpiling was deemed prudent in order to mitigate future supply chain risk. As a result, the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66) included authorities for the acquisition of the six materials.

- (1) Ferroniobium
- (2) Dysprosium Metal
- (3) Yttrium Oxide
- (4) Cadmium Zinc Telluride Substrate Materials
- (5) Lithium Ion Precursors
- (6) Triamino-Trinitrobenzene and Insensitive High Explosive Molding Powders

The acquisition authority is from FY14 through FY19. Up to \$41,000,000 from the NDS Transaction Fund is authorized for the acquisitions.

The acquisition of modern materials represents a significant milestone in the efforts to reconfigure the NDS as per the plan presented to Congress by the Department of Defense in the 2009 report entitled "Reconfiguration of the National Defense Stockpile (NDS) Report to Congress." The first acquisition initiated under the newly granted authority is for the Lithium Ion Battery Precursors. This acquisition consists of three separate satellite related battery materials: Mesocarbon Microbeads (MCMB); Lithium Cobalt Oxide (LCO); and Lithium Nickel Cobalt Aluminum Oxide (LNCAO). A contract has been awarded to a domestic producer for supplying up to 3,240 kg of MCMB, 750 kg of LCO, and 2,700 kg of LNCAO. Delivery of the materials will begin in FY15.

DLA Strategic Materials continued on a path of achieving audit readiness for the Transaction Fund financial statements by September 30, 2015. The goal of Audit Readiness is to establish and/or improve business processes and internal controls for DLA Strategic Materials as a reporting entity.

Two research and development programs relating to preparation, treatment, and utilization of mineral substances were executed in FY14. These programs are authorized under section 8c of the Stock Piling Act. The first program involves reclamation of Germanium from DoD components at the end of life cycle. Germanium is a strategic material for defense. Increasing secondary material availability (scrap) will positively impact supply and therefore

make the U.S. more self-reliant. The goal of the second program is to research efficient and environmentally-friendly processing techniques which could be used to domestically produce strategic materials such as rare earth metals. Both programs should be completed during FY15.

DLA Strategic Materials continues to monitor the balance in the Stockpile Transaction Fund established under section 9 of the Stock Piling Act. The Transaction Fund funds acquisitions of new materials for the National Defense Stockpile, as well as funds NDS operations including storing material, rotating and upgrading materials, completing required reports for Congress, and environmental stewardship. Per the Stockpiling Act, moneys received from the sales of excess NDS inventory authorized for disposal go into the Transaction Fund to pay for acquisitions and NDS operations. However, revenue generated from sales of certain commodities does not go back to the Transaction Fund and is instead diverted to the General Fund of the Treasury, where it is utilized for purposes unrelated to the National Defense Stockpile. As discussed later in this report, the diversion of revenue may result in the need for an appropriation into the Transaction Fund to continue operations beyond FY 20.

STATUS OF THE STOCKPILE INVENTORY

The total inventory of the NDS represented a market value of \$1.546 billion on September 30, 2014.

NDS inventory quantities shown in Table 1 do not include quantities of materials that have been sold, but have not yet been shipped from NDS depots. Table 2 lists quantities of materials that have been sold, but not shipped as of the end of the fiscal year.

The NDS no longer has any materials on consignment or loan. Inventory values are based on a three-year rolling average of applicable published benchmarks through September 30, 2014, prices at which comparable materials are being traded. In the absence of current trading data, market values are estimated. The market values are not necessarily the amount that would be realized if the materials were sold.

The NDS goals shown in Table 1 are derived by subtracting the quantity identified in the 2013 Biennial Report on Stockpile Requirements (2013 Requirements Report) from the total inventory. If the quantity from the 2013 Requirements Report is greater than the inventory, the entire inventory is designated as goal material. Throughout the years, quantities designated as goal have been reduced for those materials for which disposal has been authorized in the National Defense Authorization Acts for Fiscal Years 1998, 1999, 2000, 2001, and 2002.

When the NDS contains more than one form of a primary material, the inventory group may include the different forms of the material.

II. STOCKPILE ACQUISITION, UPGRADING, AND DISPOSAL PROGRAMS

ANNUAL MATERIALS PLAN (AMP)

The AMP sets the maximum quantity of each material for which an action can be taken (disposal, conversion, rotation, upgrade, sell, or procurement) by the Department of Defense in a given fiscal year. Before any materials may be bought or sold, Congress must enact specific enabling legislation. In accordance with section 11(b) of the Stock Piling Act, the Department of Defense develops and submits the AMP to Congress by February 15th of each year for the following fiscal year and 4 succeeding years. Prior to submission, the AMP is coordinated with the Market Impact Committee, an interagency committee that advises the Department of Defense on the projected domestic and foreign economic effects of the proposed NDS transactions. The FY14 AMP is shown in Table 3.

ACQUISITIONS AND UPGRADES

DLA Strategic Materials placed a contract for the acquisition of Lithium Ion battery materials as authorized in the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113–66). The acquisition consists of three separate satellite related battery materials: Mesocarbon Microbeads (MCMB); Lithium Cobalt Oxide (LCO); and Lithium Nickel Cobalt Aluminum Oxide (LNCAO). A contract has been awarded to a domestic producer for supplying up to 3,240 kg of MCMB, 750 kg of LCO, and 2,700 kg of LNCAO. Delivery is anticipated to begin in late 2014 and run through 2019. The acquisition of the Lithium Ion Battery materials is the first new material to be acquired for the NDS in approximately twenty years. This acquisition of modern material represents a significant milestone in the efforts to reconfigure the NDS as per the plan presented to Congress in the 2009 report entitled "Reconfiguration of the National Defense Stockpile (NDS) Report to Congress."

DLA Strategic Materials took delivery of 3,466 pounds of modern Beryllium Powder through execution of a FY13 contract to upgrade 4,851 pounds of NDS Hot Pressed Powder (HPP) Billets. The HPP was converted into S200F Hot Isostatic Pressing (HIP) powder and meets many current specifications. DLA Strategic Materials also took delivery of 488.237 pounds of 99.9% purity Iridium through execution of a FY13 contract to upgrade 567.362 troy ounces of 98.8% purity NDS Iridium. The upgraded Iridium is in a specification which matches the requirements for the modern U.S. industrial base.

STRATEGIC METALS BUFFER FOR THE DLA WARSTOPPER PROGRAM

In Fiscal Year 2014, DLA-Strategic Materials awarded two buffer contracts funded by the DLA Warstopper Program, one for aluminum and one for titanium. The goal of the investments is to significantly reduce the lead time mills require, thus reducing manufacturing production lead times across a wider range of products (or NSNs). The buffer contracts

guarantee significantly reduced lead times. This material is not Government Furnished Material (GFM) and all warranties and title transfer as vendor to vendor transactions. The buffers are self-executing for DoD contracts and immediately provide DoD sub-tier vendors with reduced lead times to improve customer support and can be directed at specific DoD contracts when required. Each contract has optional periods that will be reviewed annually and exercised if the need continues.

SALES OF EXCESS INVENTORY

The NDS sold \$68.32 million of excess materials during FY14. Sales for Fiscal Year 1999 through 2014, totalling \$5.2 billion, are shown in Chart 1.

CHART 1: PRIOR YEAR SALES

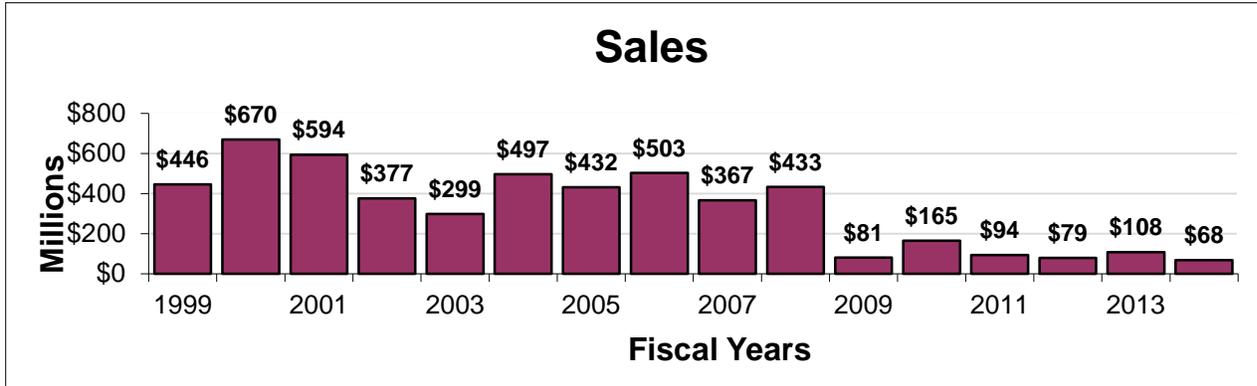

Table 4 on page 8 lists all NDS sales for FY14. A summary of these sales is shown in Chart 2. Dollar amounts are based on awarded contracts. The top selling materials in FY14 were High and Low Carbon Ferrochromium. Combined, they accounted for \$40.1 million and 59 percent of total sales. Additionally, 965.5 ST of Talc was disposed of under a DLA Disposition Services contract.

<p>2). P.L. 104-201 authorized the transfer to the Department of Health and Human Services of revenues from the sale of specific quantities of 27 NDS commodities. The program began in FY99. The required transfers to fund HHS programs ended in 2003 and since then the revenue generated has been transferred to the General Fund of the Treasury to fund activities unrelated to the National Defense Stockpile. The revenue transferred in FY14 completes the current legislative revenue goal for this program.</p>			
<p>3). P.L. 105-261 authorizes the sale of specific quantities of four NDS commodities. The program started in FY00 and extends through FY16. These revenues were originally used to reclaim certain radio frequencies that are reserved for the Department of Defense but were surrendered for civilian use. That use for the revenue has ended, but the revenue continues to be transferred to the General Fund of the Treasury to fund activities unrelated to the National Defense Stockpile. DLA anticipates meeting the current legislative revenue goal for this program in FY15.</p>			

III: FINANCIAL STATUS OF THE NDS TRANSACTION FUND

OVERVIEW

The FY14 Transaction Fund financial status (Table 5) portrays the collections and disbursement activity. All proceeds from the sale of excess materials (reimbursements collected) are posted in the Transaction Fund.

Table 5: Sales generated collections of \$73 million in FY14. Transfers to two Congressionally mandated programs totaled \$85 million. Sequestration order, March 01, 2013, under section 251A of the Balanced Budget and Emergency Deficit Control Act of 1985 (BBEDCA, Title II of P.L. 99-177, commonly known as the Gramm-Rudman-Hollings Act) as amended by the Taxpayer Relief Act of 2012, directed the reduction of NDS prior year balances carried

forward in the amount of \$42 million. Although this automatic spending reduction under which budgetary resources were permanently canceled to enforce certain budget policy goals were not available for obligation during the year in which the sequestration occurred, by law, it was restored (made available) in subsequent years.

All data shown in Table 5 is sourced from the official accounting records, as reported to the U.S. Treasury by the Defense Finance and Accounting Service. In addition to expenses for NDS operations, future funded environmental expenses that the NDS is likely to incur are estimated to be \$25 million. These are costs related to environmental monitoring, remediation and site closures.

Per section 9 of the Stock Piling Act (50 USC § 98h), the National Defense Stockpile (NDS) Transaction Fund funds acquisition of new materials, as well as funds the rotating and upgrading of stockpile materials, completing required reports for Congress, and environmental stewardship.

The Defense Logistics Agency Strategic Materials participates in the annual DoD Program Budget Review process. The FY15 planned combined operational and material acquisitions budget for Defense Logistics Agency Strategic Materials totals \$55.5 million. The unobligated balance of the Transaction Fund was \$202 million on October 1, 2014. This balance is sufficient to cover planned operations and material acquisitions without appropriated funding for the next few years.

Operations of the NDS have not required an appropriation for more than 20 years. This is because the sales of excess NDS inventory kept the balance of the Transaction Fund greater than operational requirements. From the end of Fiscal Year 2009 to the current period, Defense Logistics Agency Strategic Materials sold \$6.49 billion worth of excess material, of which over \$4.36 billion was transferred to the General Fund of the Treasury or otherwise outside of the Transaction Fund to be used for purposes unrelated to the National Defense Stockpile. Current projections, however, indicate sales of excess NDS inventory may be unable to sustain stockpile operations and acquisitions beyond the next six years.

In the Cold War era, the NDS held considerable quantities and varieties of strategic and critical materials. The majority of the materials in high demand have been sold to the private sector leaving less than 20 materials available for disposal. This includes portions of the inventory of Tungsten Ore, Ferrochromium and Ferromanganese.

Although the NDS inventory holds materials with a significant value, this value is not easy to access. Some of the materials in the NDS cannot be sold because they are earmarked as strategic and critical. Others are obsolete and do not generate as much revenue as modern material. Some suffer from the effects of poor market conditions which reduce the price of the material and limit the quantity that the market is willing to absorb.

Revenue from the sale of other NDS inventories is legislatively committed under Public Laws 104-201 and 105-261 to be transferred to the General Fund of the Treasury and, therefore,

not available to replenish the Transaction Fund. Specifically, the revenue from very saleable commodities, such as Ferrochromium and Chromium metal, are committed to the General Fund of the Treasury rather than the Transaction Fund. These commitments hamper efforts to replenish the Transaction Fund balance. The programs established under these Public Laws will meet current revenue goals in FY16, at which time the remaining excess inventory could be sold and the revenue returned to the Transaction Fund, as required by the Stock Piling Act. If the current legislative programs are allowed to continue past 2016, appropriations may be required as early as FY20 to continue NDS operations and to fund acquisitions of strategic and critical materials already authorized for purchase and anynew materials recommended for acquisition.

Without the opportunity to return proceeds from future sales to the Transaction Fund, the fund is projected to turn into a deficit. Authorizations to sell remaining excess inventory with the proceeds returning to the Transaction Fund are necessary in order to fund continuing NDS operations and material acquisitions.

IV: OTHER PERTINENT INFORMATION ON ADMINISTRATION OF THE NDS

SPECIAL REPORTS TO CONGRESS COMPLETED BY DLA STRATEGIC MATERIALS

In collaboration with other DoD agencies and the Office of the Secretary of Defense, Acquisition Technology and Logistics, Manufacturing and Industrial Base Policy (OSD/AT&L [M&IBP]), DLA Strategic Materials drafted two Congressionally requested reports in FY14.

Assessment of the Tungsten-Rhenium Wire Supply Chain

Senate report to accompany S. 1197, the National Defense Authorization Act for FY14, S. Rep. No. 113-44, page 97, requested the Secretary of Defense make a determination as to whether the Department of Defense (DoD) has a sufficient supply of tungsten-rhenium wire to support DoD requirements, and if not, to submit a mitigation plan to ensure its supply.

Diversification of Supply Chain and Reclamation Activities Related to Rare Earths

This report was prepared in response to the request in the House Report to accompany H.R. 1960, the National Defense Authorization Act for Fiscal Year 2014, H. Rep. 113-02, page 297 for the Under Secretary of Defense for Acquisition, Technology, and Logistics to submit a report to the congressional defense committees by February 1, 2014. The committee was concerned that some of these processes presented in the Department's earlier established risk mitigation strategy for rare earth supply diversification could prove be technically difficult or so expensive that they could be deemed cost-prohibitive. Therefore this report discusses mitigation strategy for rare earths for U.S. defense demands, focusing on alternative sources of rare earth supply and in particular the reclamation of rare earths from waste.

ENVIRONMENTAL ACTIVITIES

During FY14, DLA Strategic Materials completed more than 70 updates to its "I Am the Key" Environmental Safety and Occupational Health Management System (ESOHMS) that has been in place since September 2004. Continual improvements were accomplished throughout the environmental and safety programs, including updates to the Environmental Management System to include a "Management of Change" Internal Guidance Document and a table containing all ESOHMS training requirements for DLA Strategic Materials personnel to fill out as required training is completed.

Significant progress was made in the remediation of current and former storage sites. DLA Strategic Materials developed requirements and awarded contracts for environmental remediation contracts at Large, PA, and Somerville, NJ, and the remedial action work plan was completed and soil removal activities for environmental remediation began at the Large site. A contract was awarded at the end of FY14 to initiate environmental remediation activities at

Somerville. An updated 'No Further Action' (NFA) package and Environmental Covenant, which restricts the property to industrial land use (current land use) and follows the property through any future changes in ownership, were completed and submitted to Ohio Environmental Protection Agency (EPA) for the Warren, OH, Depot. If the NFA package is approved by Ohio EPA and the Environmental Covenant is signed by the property owner, this would close out DLA's future environmental responsibilities at the Warren site.

The entire NDS inventory of mercury is being held in long term storage. The mercury program is a multi-year plan which provides for the repackaging and long term storage at the DLA Strategic Materials Hawthorne, NV, Depot. The ongoing work on the mercury program to begin mercury repackaging at Hawthorne Army Depot, Hawthorne, NV, includes updates made to the Mobile Mercury Transfer System (MMTS) that was designed with Oak Ridge National Lab (ORNL) as DLA Strategic Materials consultant. The DLA Strategic Materials Material Management Directorate completed 29 documented standard operating procedures to operate the MMTS, completed 12 elements of the Chemical Accident Prevention Program (CAPP) and distributed these documents to the State of Nevada Department of Environmental Quality for approval. DLA Strategic Materials is on schedule to start repackaging mercury in early calendar year 2015.

The environmental liabilities cost estimate was updated to address project progress and project completion liabilities. An external program audit was conducted at the Hammond, IN, Depot under the auspices of the USACE and the US Army Institute of Public Health. An external review of the DLA Strategic Materials Environmental Management System was conducted by DLA Installation Support staff at Headquarters. Internal audits were conducted at the depots in Warren, OH, and Scotia, NY, by DLA Strategic Materials staff environmental protection specialists. These audits were conducted to ensure compliance with ISO certifications and OSHA standards for DLA Strategic Materials Environmental Management System (EMS); an EMS is required by E.O. 13148.

OPERATIONS ACTIVITIES

DLA Strategic Materials Operations staff consolidated inventories by relocating 13,860 pounds of materials from the DLA Strategic Materials depot in Warren, OH to its depots in Hammond, IN and Scotia, NY. This relocation along with the disposals of other commodities from the Warren and Scotia Depots, enabled DLA Strategic Materials to reduce its warehouse footprint at Warren by 385,333 square feet, lowering annual operating costs at that depot.

DLA Strategic Materials Operations staff planned and developed requirements for the acquisition of climate controlled storage and insulated buildings, roofs, upgraded security cameras and new overhead doors at the Hammond Depot. Facility improvements were to increase security based on Department of Homeland Security recommendations and provide climate controlled storage space for sensitive materials.

DLA Strategic Materials Operations staff provided safe and secure shipping of all Strategic Materials materials sold during FY14; there were no reported incidents or accidents at any Strategic Materials location.

APPENDIX A: THE STRATEGIC AND CRITICAL MATERIALS STOCK PILING ACT

(50 U.S.C. § 98 et seq.)

(As amended through Public Law 113-66, the National Defense Authorization Act for Fiscal Year 2014)

SEC. 1. This Act may be cited as the "Strategic and Critical Materials Stock Piling Act".

Congressional findings and declaration of purpose

SEC. 2. (a) The Congress finds that the natural resources of the United States in certain strategic and critical materials are deficient or insufficiently developed to supply the military, industrial, and essential civilian needs of the United States for national defense.

(b) It is the purpose of this Act to provide for the acquisition and retention of stocks of certain strategic and critical materials and to encourage the conservation and development of sources of such materials within the United States and thereby to decrease and to preclude, when possible, a dangerous and costly dependence by the United States upon foreign sources or a single point of failure for supplies of such materials in times of national emergency.

(c) The purpose of the National Defense Stockpile is to serve the interest of national defense only. The National Defense Stockpile is not to be used for economic or budgetary purposes.

Materials to be Acquired: Presidential Authority and Guidelines

SEC. 3. (a) Determination of materials; quantities. Subject to subsection (c), the President shall determine from time to time (1) which materials are strategic and critical materials for the purposes of this Act, and (2) the quality and quantity of each such material to be acquired for the purposes of this Act and the form in which each such material shall be acquired and stored. Such materials when acquired, together with the other materials described in section 4 of this Act, shall constitute and be collectively known as the National Defense Stockpile (hereinafter in this Act referred to as the "stockpile").

(b) Guidelines for exercise of Presidential authority. The President shall make the determinations required to be made under subsection (a) on the basis of the principles stated in section 2(c).

(c) Quantity change; notification to Congress.

(1) The quantity of any material to be stockpiled under this Act, as in effect on September 30, 1987, may be changed only as provided in this subsection or as otherwise provided by law enacted after December 4, 1987.

(2) The President shall notify Congress in writing of any change proposed to be made in the quantity of any material to be stockpiled. The President may make the change after the end of the 45-day period beginning on the date of the notification. The President shall include a full explanation and justification for the proposed change with the notification.

Materials constituting the National Defense Stockpile

SEC. 4. (a) Contents. The stockpile consists of the following materials:

(1) Materials acquired under this Act and contained in the national stockpile on July 29, 1979.

(2) Materials acquired under this Act after July 29, 1979.

(3) Materials in the supplemental stockpile established by section 104(b) of the Food for Peace Act [7 USCS § 1704(b)] (as in effect from September 21, 1959, through December 31, 1966) on July 29, 1979.

(4) Materials acquired by the United States under the provisions of section 303 of the Defense Production Act of 1950 (50 U.S.C. App. 2093) and transferred to

the stockpile by the President pursuant to subsection (f) of such section.

(5) Materials transferred to the United States under section 663 of the Foreign Assistance Act of 1961 (22 U.S.C. 2423) that have been determined to be strategic and critical materials for the purposes of this Act and that are allocated by the President under subsection (b) of such section for stockpiling in the stockpile.

(6) Materials acquired by the Commodity Credit Corporation and transferred to the stockpile under section 4(h) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714b(h)).

(7) Materials acquired by the Commodity Credit Corporation under paragraph (2) of section 103(a) of the Act entitled "An Act to provide for greater stability in agriculture; to augment the marketing and disposal of agricultural products; and for other purposes", approved August 28, 1954 (7 U.S.C. 1743(a)), and transferred to the stockpile under the third sentence of such section.

(8) Materials transferred to the stockpile by the President under paragraph (4) of section 103(a) of such Act of August 28, 1954 [7 USCS § 1743(a)(4)].

(9) Materials transferred to the stockpile under subsection (b).

(10) Materials transferred to the stockpile under subsection (c).

(b) Transfer and reimbursement. Notwithstanding any other provision of law, any material that (1) is under the control of any department or agency of the United States, (2) is determined by the head of such department or agency to be excess to its needs and responsibilities, and (3) is required for the stockpile shall be transferred to the stockpile. Any such transfer shall be made without reimbursement to such department or agency, but all costs required to effect such transfer shall be paid or reimbursed from funds appropriated to carry out this Act.

(c) Transfer and disposal.

(1) The Secretary of Energy, in consultation with the Secretary of Defense, shall transfer to the stockpile for disposal in accordance with this Act uncontaminated materials that are in the Department of Energy inventory of materials for the production of defense-related items, are excess to the requirements of the Department for that purpose, and

are suitable for transfer to the stockpile and disposal through the stockpile.

(2) The Secretary of Defense shall determine whether materials are suitable for transfer to the stockpile under this subsection, are suitable for disposal through the stockpile, and are uncontaminated.

Authority for stockpile operations

SEC. 5. (a) Funds appropriated for acquisitions; proposed stockpile transactions; significant changes therein.

(1) Except for acquisitions made under the authority of paragraph (3) or (4) of section 6(a), no funds may be obligated or appropriated for acquisition of any material under this Act unless funds for such acquisition have been authorized by law. Funds appropriated for such acquisition (and for transportation and other incidental expenses related to such acquisition) shall remain available until expended, unless otherwise provided in appropriation Acts.

(2) If for any fiscal year the President proposes certain stockpile transactions in the annual materials plan submitted to Congress for that year under section 11(b) and after that plan is submitted the President proposes (or Congress requires) a significant change in any such transaction, or a significant transaction not included in such plan, no amount may be obligated or expended for such transaction during such year until the President has submitted a full statement of the proposed transaction to the appropriate committees of Congress and a period of 45 days has passed from the date of the receipt of such statement by such committees.

(b) Disposal. Except for disposals made under the authority of paragraph (3), (4), or (5) of section 6(a) or under section 7(a), no disposal may be made from the stockpile unless such disposal, including the quantity of the material to be disposed of, has been specifically authorized by law.

(c) Authorization of appropriations. There is authorized to be appropriated such sums as may be necessary to provide for the transportation, processing, refining, storage, security, maintenance, rotation, and disposal of materials contained in or acquired for the stockpile. Funds appropriated for such purposes shall remain available to carry out the purposes for which appropriated for a period of two fiscal years, if so provided in appropriation Acts.

Stockpile management

SEC. 6. (a) Presidential powers. The President shall-

- (1) acquire the materials determined under section 3(a) to be strategic and critical materials;
 - (2) provide for the proper storage, security, and maintenance of materials in the stockpile;
 - (3) provide for the upgrading, refining, or processing of any material in the stockpile (notwithstanding any intermediate stockpile quantity established for such material) when necessary to convert such material into a form more suitable for storage, subsequent disposition, and immediate use in a national emergency;
 - (4) provide for the rotation of any material in the stockpile when necessary to prevent deterioration or technological obsolescence of such material by replacement of such material with an equivalent quantity of substantially the same material or better material;
 - (5) provide for the appropriate recovery of any strategic and critical materials under section 3(a) that may be available from excess materials made available for recovery purposes by other Federal agencies;
 - (6) subject to the notification required by subsection (d)(2), provide for the timely disposal of materials in the stockpile that (A) are excess to stockpile requirements, and (B) may cause a loss to the Government if allowed to deteriorate; and
 - (7) subject to the provisions of section 5(b), dispose of materials in the stockpile the disposal of which is specifically authorized by law.
- (b) Federal procurement practices. Except as provided in subsections (c) and (d), acquisition of strategic and critical materials under this Act shall be made in accordance with established Federal procurement practices, and, except as provided in subsections (c) and (d) and in section 7(a), disposal of strategic and critical materials from the stockpile shall be made in accordance with the next sentence. To the maximum extent feasible--
- (1) competitive procedures shall be used in the acquisition and disposal of such materials; and

(2) efforts shall be made in the acquisition and disposal of such materials to avoid undue disruption of the usual markets of producers, processors, and consumers of such materials and to protect the United States against avoidable loss.

(c) Barter; use of stockpile materials as payment for expenses of acquiring, refining, processing, or retailing materials.

(1) The President shall encourage the use of barter in the acquisition under subsection (a)(1) of strategic and critical materials for, and the disposal under subsection (a)(5) or (a)(6) of materials from, the stockpile when acquisition or disposal by barter is authorized by law and is practical and in the best interest of the United States.

(2) Materials in the stockpile (the disposition of which is authorized by paragraph (3) to finance the upgrading, refining, or processing of a material in the stockpile, or is otherwise authorized by law) shall be available for transfer at fair market value as payment for expenses (including transportation and other incidental expenses) of acquisition of materials, or of upgrading, refining, processing, or rotating materials, under this Act.

(3) Notwithstanding section 3(c) or any other provision of law, whenever the President provides under subsection (a)(3) for the upgrading, refining, or processing of a material in the stockpile to convert that material into a form more suitable for storage, subsequent disposition, and immediate use in a national emergency, the President may barter a portion of the same material (or any other material in the stockpile that is authorized for disposal) to finance that upgrading, refining, or processing.

(4) To the extent otherwise authorized by law, property owned by the United States may be bartered for materials needed for the stockpile.

(d) Waiver; notification of proposed disposal of materials.

(1) The President may waive the applicability of any provision of the first sentence of subsection (b) to any acquisition of material for, or disposal of material from, the stockpile. Whenever the President waives any such provision with respect to any such acquisition or disposal, or whenever the President determines that the application of paragraph (1) or (2) of such subsection to a particular acquisition or disposal is not feasible, the President shall notify the Committee on Armed Services of the Senate and the

Committee on Armed Services of the House of Representatives in writing of the proposed acquisition or disposal at least 45 days before any obligation of the United States is incurred in connection with such acquisition or disposal and shall include in such notification the reasons for not complying with any provision of such subsection.

(2) Materials in the stockpile may be disposed of under subsection (a)(5) only if such congressional committees are notified in writing of the proposed disposal at least 45 days before any obligation of the United States is incurred in connection with such disposal. (e) Leasehold interests in property. The President may acquire leasehold interests in property, for periods not in excess of twenty years, for storage, security, and maintenance of materials in the stockpile.

Special disposal authority of the President

SEC. 7. (a) Materials in the stockpile may be released for use, sale, or other disposition--

(1) on the order of the President, at any time the President determines the release of such materials is required for purposes of the national defense;

(2) in time of war declared by the Congress or during a national emergency, on the order of any officer or employee of the United States designated by the President to have authority to issue disposal orders under this subsection, if such officer or employee determines that the release of such materials is required for purposes of the national defense; and

(3) on the order of the Under Secretary of Defense for Acquisition, Technology, and Logistics, if the President has designated the Under Secretary to have authority to issue release orders under this subsection and, in the case of any such order, if the Under Secretary determines that the release of such materials is required for use, manufacture, or production for purposes of national defense.

(b) Any order issued under subsection (a) shall be promptly reported by the President, or by the officer or employee issuing such order, in writing, to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives.

Materials development and research

SEC. 8. (a) Development, mining, preparation, treatment, and utilization of ores and other mineral substances.

(1) The President shall make scientific, technologic, and economic investigations concerning the development, mining, preparation, treatment, and utilization of ores and other mineral substances that (A) are found in the United States, or in its territories or possessions, (B) are essential to the national defense, industrial, and essential civilian needs of the United States, and (C) are found in known domestic sources in inadequate quantities or grades.

(2) Such investigations shall be carried out in order to--

(A) determine and develop new domestic sources of supply of such ores and mineral substances;

(B) devise new methods for the treatment and utilization of lower grade reserves of such ores and mineral substances; and

(C) develop substitutes for such essential ores and mineral products.

(3) Investigations under paragraph (1) may be carried out on public lands and, with the consent of the owner, on privately owned lands for the purpose of exploring and determining the extent and quality of deposits of such minerals, the most suitable methods of mining and beneficiating such minerals, and the cost at which the minerals or metals may be produced.

(b) Development of sources of supplies of agricultural commodities for manufacture of materials. The President shall make scientific, technologic, and economic investigations of the feasibility of developing domestic sources of supplies of any agricultural material or for using agricultural commodities for the manufacture of any material determined pursuant to section 3(a) of this Act to be a strategic and critical material or substitutes therefor.

(c) Development of sources of supplies of other materials; development of use of alternative methods for refining or processing materials in stockpile. The President shall make scientific, technologic, and economic investigations concerning the feasibility of--

(1) developing domestic sources of supply of materials (other than materials referred to in

subsections (a) and (b)) determined pursuant to section 3(a) to be strategic and critical materials; and

(2) developing or using alternative methods for the refining or processing of a material in the stockpile so as to convert such material into a form more suitable for use during an emergency or for storage.

(d) Grants and contracts to encourage conservation of strategic and critical materials. The President shall encourage the conservation of domestic sources of any material determined pursuant to section 3(a) to be a strategic and critical material by making grants or awarding contracts for research regarding the development of--

(1) substitutes for such material; or

(2) more efficient methods of production or use of such material.

National Defense Stockpile Transaction Fund

SEC. 9. (a) Establishment. There is established in the Treasury of the United States a separate fund to be known as the National Defense Stockpile Transaction Fund (hereinafter in this section referred to as the "fund").

(b) Fund operations.

(1) All moneys received from the sale of materials in the stockpile under paragraphs (5) and (6) of section 6(a) shall be covered into the fund.

(2) Subject to section 5(a)(1)], moneys covered into the fund under paragraph (1) are hereby made available (subject to such limitations as may be provided in appropriation Acts) for the following purposes:

(A) The acquisition, maintenance, and disposal of strategic and critical materials under section 6(a) *a*).

(B) Transportation, storage, and other incidental expenses related to such acquisition, maintenance, and disposal.

(C) Development of current specifications of stockpile materials and the upgrading of existing stockpile materials to meet current specifications (including transportation, when economical, related to such upgrading).

(D) Encouraging the appropriate conservation of strategic and critical materials.

(E) Testing and quality studies of stockpile materials.

(F) Studying future material and mobilization requirements for the stockpile.

(G) Activities authorized under section 15.

(H) Contracting under competitive procedures for materials development and research to--

(i) improve the quality and availability of materials stockpiled from time to time in the stockpile; and

(ii) develop new materials for the stockpile.

(I) Improvement or rehabilitation of facilities, structures, and infrastructure needed to maintain the integrity of stockpile materials.

(J) Disposal of hazardous materials that are stored in the stockpile and authorized for disposal by law.

(K) Performance of environmental remediation, restoration, waste management, or compliance activities at locations of the stockpile that are required under a Federal law or are undertaken by the Government under an administrative decision or negotiated agreement.

(L) Pay of employees of the National Defense Stockpile program.

(M) Other expenses of the National Defense Stockpile program.

(3) Moneys in the fund shall remain available until expended.

(c) Moneys received from the sale of materials being rotated or disposed of. All moneys received from the sale of materials being rotated under the provisions of section 6(a)(4) or disposed of under section 7(a) shall be covered into the fund and shall be available only for the acquisition of replacement materials.

(d) Effect of bartering. If, during a fiscal year, the National Defense Stockpile Manager barter materials in the stockpile for the purpose of acquiring, upgrading, refining, or processing other materials (or for services directly related to that

purpose), the contract value of the materials so bartered shall--

(1) be applied toward the total value of materials that are authorized to be disposed of from the stockpile during that fiscal year;

(2) be treated as an acquisition for purposes of satisfying any requirement imposed on the National Defense Stockpile Manager to enter into obligations during that fiscal year under subsection (b)(2); and

(3) not increase or decrease the balance in the fund.

Advisory committees

SEC. 10. (a) Membership. The President may appoint advisory committees composed of individuals with expertise relating to materials in the stockpile or with expertise in stockpile management to advise the President with respect to the acquisition, transportation, processing, refining, storage, security, maintenance, rotation, and disposal of such materials under this Act.

(b) Expenses. Each member of an advisory committee established under subsection (a) while serving on the business of the advisory committee away from such member's home or regular place of business shall be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons intermittently employed in the Government service.

(c) Market Impact Committee.

(1) The President shall appoint a Market Impact Committee composed of representatives from the Department of Agriculture, the Department of Commerce, the Department of Defense, the Department of Energy, the Department of the Interior, the Department of State, the Department of the Treasury, and the Federal Emergency Management Agency, and such other persons as the President considers appropriate. The representatives from the Department of Commerce and the Department of State shall be Cochairmen of the Committee.

(2) The Committee shall advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions and disposals of materials from the stockpile that are proposed to be included in the annual materials plan submitted to Congress under section 11(b), or in any

revision of such plan, and shall submit to the manager the Committee's recommendations regarding those acquisitions and disposals.

(3) The annual materials plan or the revision of such plan, as the case may be, shall contain--

(A) the views of the Committee on the projected domestic and foreign economic effects of all acquisitions and disposals of materials from the stockpile;

(B) the recommendations submitted by the Committee under paragraph (2); and

(C) for each acquisition or disposal provided for in the plan or revision that is inconsistent with a recommendation of the Committee, a justification for the acquisition or disposal.

(4) In developing recommendations for the National Defense Stockpile Manager under paragraph (2), the Committee shall consult from time to time with representatives of producers, processors, and consumers of the types of materials stored in the stockpile.

Reports to Congress

SEC. 11. (a) Not later than January 15 of each year, the President shall submit to the Congress an annual written report detailing operations under this Act. Each such report shall include--

(1) information with respect to foreign and domestic purchases of materials during the preceding fiscal year;

(2) information with respect to the acquisition and disposal of materials under this Act by barter, as provided for in section 6(c) of this Act during such fiscal year;

(3) information with respect to the activities by the Stockpile Manager to encourage the conservation, substitution, and development of strategic and critical materials within the United States;

(4) information with respect to the research and development activities conducted under sections 2 and 8;

(5) a statement and explanation of the financial status of the National Defense Stockpile Transaction Fund and the anticipated appropriations to be made to the fund, and obligations to be made from the fund, during the current fiscal year; and

(6) such other pertinent information on the administration of this Act as will enable the Congress to evaluate the effectiveness of the program provided for under this Act and to determine the need for additional legislation.

(b) (1) Not later than February 15 of each year, the President shall submit to the appropriate committees of the Congress a report containing an annual materials plan for the operation of the stockpile during the next fiscal year and the succeeding four fiscal years.

(2) Each such report shall include details of all planned expenditures from the National Defense Stockpile Transaction Fund during such period (including expenditures to be made from appropriations from the general fund of the Treasury) and of anticipated receipts from proposed disposals of stockpile materials during such period. Each such report shall also contain details regarding the materials development and research projects to be conducted under section 9(b)(2)(G) during the fiscal years covered by the report. With respect to each development and research project, the report shall specify the amount planned to be expended from the fund, the material intended to be developed, the potential military or defense industrial applications for that material, and the development and research methodologies to be used.

(3) Any proposed expenditure or disposal detailed in the annual materials plan for any such fiscal year, and any expenditure or disposal proposed in connection with any transaction submitted for such fiscal year to the appropriate committees of Congress pursuant to section 5(a)(2) that is not obligated or executed in that fiscal year may not be obligated or executed until such proposed expenditure or disposal is resubmitted in a subsequent annual materials plan or is resubmitted to the appropriate committees of Congress in accordance with section 5(a)(2), as appropriate.

Definitions

SEC. 12. For the purposes of this Act:

(1) The term "strategic and critical materials" means materials that (A) would be needed to supply the military, industrial, and essential civilian needs of the United States during a national emergency, and (B) are not found or produced in the United States in sufficient quantities to meet such need.

(2) The term "national emergency" means a general declaration of emergency with respect to the national defense made by the President or by the Congress.

Importation of strategic and critical materials

SEC. 13. The President may not prohibit or regulate the importation into the United States of any material determined to be strategic and critical pursuant to the provisions of this Act, if such material is the product of any foreign country or area not listed in general note 3(b) of the Harmonized Tariff Schedule of the United States (*19 USC 1202*), for so long as the importation into the United States of material of that kind which is the product of a country or area listed in such general note is not prohibited by any provision of law.

Biennial report on stockpile requirements

SEC. 14. (a) In general. Not later than January 15 of every other year, the Secretary of Defense shall submit to Congress a report on stockpile requirements. Each such report shall include--

(1) the Secretary's recommendations with respect to stockpile requirements; and

(2) the matters required under subsection (b).

(b) National emergency planning assumptions. Each report under this section shall set forth the national emergency planning assumptions used by the Secretary in making the Secretary's recommendations under subsection (a)(1) with respect to stockpile requirements. The Secretary shall base the national emergency planning assumptions on a military conflict scenario consistent with the scenario used by the Secretary in budgeting and defense planning purposes. The assumptions to be set forth include assumptions relating to each of the following:

(1) The length and intensity of the assumed military conflict.

(2) The military force structure to be mobilized.

(3) The losses anticipated from enemy action.

(4) The military, industrial, and essential civilian requirements to support the national emergency.

(5) The availability of supplies of strategic and critical materials from foreign sources during the mobilization period, the military conflict, and the subsequent period of replenishment, taking into consideration possible shipping losses.

(6) The domestic production of strategic and critical materials during the mobilization period, the military conflict, and the subsequent period of replenishment, taking into consideration possible shipping losses.

(7) Civilian austerity measures required during the mobilization period and military conflict.

(c) Period within which to replace or replenish materials. The stockpile requirements shall be based on those strategic and critical materials necessary for the United States to replenish or replace, within three years of the end of the military conflict scenario required under subsection (b), all munitions, combat support items, and weapons systems that would be required after such a military conflict.

(d) Effect of alternative mobilization periods. The Secretary shall also include in each report under this section an examination of the effect that alternative mobilization periods under the military conflict scenario required under subsection (b), as well as a range of other military conflict scenarios addressing potentially more serious threats to national security, would have on the Secretary's recommendations under subsection (a)(1) with respect to stockpile requirements.

(e) Plans of President. The President shall submit with each report under this section a statement of the plans of the President for meeting the recommendations of the Secretary set forth in the report.

Development of domestic sources

SEC. 15. (a) Purchase of materials of domestic origin; processing of materials in domestic facilities. Subject to subsection (c) and to the extent the President determines such action is required for the national defense, the President shall encourage the development and appropriate conservation of domestic sources for materials determined pursuant to section 3(a) to be strategic and critical materials--

(1) by purchasing, or making a commitment to purchase, strategic and critical materials of domestic

origin when such materials are needed for the stockpile; and

(2) by contracting with domestic facilities, or making a commitment to contract with domestic facilities, for the processing or refining of strategic and critical materials in the stockpile when processing or refining is necessary to convert such materials into a form more suitable for storage and subsequent disposition.

(b) Terms and conditions of contracts or commitments. A contract or commitment made under subsection (a) may not exceed five years from the date of the contract or commitment. Such purchases and commitments to purchase may be made for such quantities and on such terms and conditions, including advance payments, as the President considers to be necessary.

(c) Proposed transactions included in annual materials plan; availability of funds.

(1) Descriptions of proposed transactions under subsection (a) shall be included in the appropriate annual materials plan submitted to Congress under section 11(b). Changes to any such transaction, or the addition of a transaction not included in such plan, shall be made in the manner provided by section 5(a)(2).

(2) The authority of the President to enter into obligations under this section is effective for any fiscal year only to the extent that funds in the National Defense Stockpile Transaction Fund are adequate to meet such obligations. Payments required to be as a result of obligations incurred under this section shall be made from amounts in the fund.

(d) Transportation and other incidental expenses. The authority of the President under subsection (a) includes the authority to pay--

(1) the expenses of transporting materials; and

(2) other incidental expenses related to carrying out such subsection.

(e) Reports. The President shall include in the reports required under section 11(a) information with respect to activities conducted under this section.

National Defense Stockpile Manager

SEC. 16. (a) Appointment. The President shall designate a single Federal office to have responsibility for performing the functions of the

President under this Act, other than under sections 7(a)(1) and 13. The office designated shall be one to which appointment is made by the President, by and with the advice and consent of the Senate.

(b) Title of designated officer. The individual holding the office designated by the President under subsection (a) shall be known for purposes of functions under this Act as the "National Defense Stockpile Manager".

(c) Delegation of functions. The President may delegate functions of the President under this Act (other than under sections 7(a)(1) and 13) only to the National Defense Stockpile Manager. Any such delegation made by the President shall remain in effect until specifically revoked by law or Executive order. The President may not delegate functions of the President under sections 7(a)(1) and 13.

EXCERPTS FROM THE NATIONAL DEFENSE
AUTHORIZATION ACT FOR FISCAL YEAR 2014
Public Law 113-66

SEC. 1411. USE OF NATIONAL DEFENSE STOCKPILE FOR THE CONSERVATION OF A STRATEGIC AND CRITICAL MATERIALS SUPPLY

(a) Presidential Responsibility for Conservation of Stockpile Materials.--Section 6(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98e(a)) is amended--

(1) by redesignating paragraphs (5) and (6) as paragraphs (6) and (7), respectively; and

(2) by inserting after paragraph (4) the following new paragraph (5):

“(5) provide for the appropriate recovery of any strategic and critical materials under section 3(a) that may be available from excess materials made available for recovery purposes by other Federal agencies;”.

(b) Uses of National Defense Stockpile Transaction Fund.--Section 9(b)(2) of such Act (50 U.S.C. 98h(b)(2)) is amended--

(1) by redesignating subparagraphs (D) through (L) as subparagraphs (E) through (M), respectively; and

(2) by inserting after subparagraph (C) the following new subparagraph (D):

“(D) Encouraging the appropriate conservation of strategic and critical materials.”.

(c) Development of Domestic Sources.--Section 15(a) of such Act (50 U.S.C. 98h-6(a)) is amended, in the matter preceding paragraph (1), by inserting “and appropriate conservation” after “development”.

SEC. 1412. AUTHORITY TO ACQUIRE ADDITIONAL MATERIALS FOR THE NATIONAL DEFENSE STOCKPILE.

(a) Acquisition Authority.--Using funds available in the National Defense Stockpile Transaction Fund, the National Defense Stockpile Manager may acquire the following materials determined to be strategic and critical materials required to meet the defense, industrial, and essential civilian needs of the United States:

- (1) Ferroniobium.
- (2) Dysprosium Metal.
- (3) Yttrium Oxide.
- (4) Cadmium Zinc Tellurium Substrate

Materials.

- (5) Lithium Ion Precursors.

(6) Triamino-Trinitrobenzene and Insensitive High Explosive Molding Powders.

(b) Amount of Authority.--The National Defense Stockpile Manager may use up to \$41,000,000 of the National Stockpile Transaction Fund for acquisition of the materials specified in subsection (a).

(c) Fiscal Year Limitation.--The authority under this section is available for purchases during fiscal year 2014 through fiscal year 2019.

APPENDIX C: PREVIOUS YEARS' NATIONAL DEFENSE AUTHORIZATION ACTS

EXCERPTS FROM THE NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2013 Public Law 112-81

SEC. 1411. AUTHORIZED USES OF NATIONAL DEFENSE STOCKPILE FUNDS.

(a) Obligation of Stockpile Funds.--During fiscal year 2013, the National Defense Stockpile Manager may obligate up to \$44,899,227 of the funds in the National Defense Stockpile Transaction Fund established under subsection (a) of section 9 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h) for the authorized uses of such funds under subsection (b)(2) of such section, including the disposal of hazardous materials that are environmentally sensitive.

(b) Additional Obligations.--The National Defense Stockpile Manager may obligate amounts in excess of the amount specified in subsection (a) if the National Defense Stockpile Manager notifies Congress that extraordinary or emergency conditions necessitate the additional obligations. The National Defense Stockpile Manager may make the additional obligations described in the notification after the end of the 45-day period beginning on the date on which Congress receives the notification.

(c) Limitations.--The authorities provided by this section shall be subject to such limitations as may be provided in appropriations Acts.

SEC. 1412. ADDITIONAL SECURITY OF STRATEGIC MATERIALS SUPPLY CHAINS.

Section 2(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98a(b)) is amended by

inserting ``or a single point of failure" after ``foreign sources".

SEC. 1413. RELEASE OF MATERIALS NEEDED FOR NATIONAL DEFENSE PURPOSES FROM THE STRATEGIC AND CRITICAL MATERIALS STOCKPILE.

(a) Authority for President to Delegate Special Disposal Authority of President for Release for National Defense Purposes.--Section 7(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98f(a)) is amended--

(1) in paragraph (1), by striking ``and" at the end;

(2) in paragraph (2), by striking the period at the end and inserting ``; and"; and

(3) by adding at the end the following new paragraph: ``(3) on the order of the Under Secretary of Defense for Acquisition, Technology, and Logistics, if the President has designated the Under Secretary to have authority to issue release orders under this subsection and, in the case of any such order, if the Under Secretary determines that the release of such materials is required for use, manufacture, or production for purposes of national defense.".

(b) Exclusion From Delegation Limitation.--Section 16 of such Act (50 U.S.C. 98h-7) is amended by striking ``sections 7 and 13" each place it appears and inserting ``sections 7(a)(1) and 13".

SEC. 853. ASSESSMENT OF FEASIBILITY AND ADVISABILITY OF ESTABLISHMENT OF RARE EARTH MATERIAL INVENTORY.

(a) Requirement.--Not later than 180 days after the date of the enactment of this Act, the Administrator of the Defense Logistics Agency Strategic Materials shall submit to the Secretary of Defense an assessment of the feasibility and advisability of establishing an inventory of rare earth materials necessary to ensure the long-term availability of such rare earth materials. The assessment shall--

(1) identify and describe the steps necessary to create an inventory of rare earth materials, including oxides, metals, alloys, and magnets, to support national defense requirements and ensure reliable sources of such materials for defense purposes;

(2) provide a detailed cost-benefit analysis of creating such an inventory in accordance with Office of Management and Budget Circular A-94;

(3) provide an analysis of the potential market effects, including effects on the pricing and commercial availability of such rare earth materials, associated with creating such an inventory;

(4) identify and describe the mechanisms available to the Administrator to make such an inventory accessible, including by purchase, to entities requiring such rare earth materials to support national defense requirements, including producers of end items containing rare earth materials;

(5) provide a detailed explanation of the ability of the Administrator to authorize the sale of excess materials to support a Rare Earth Material Stockpile Inventory Program;

(6) analyze any potential requirements to amend or revise the Defense Logistics Agency Strategic Materials Annual Material Plan for fiscal year 2012 and subsequent years to reflect an inventory of rare earth materials to support national defense requirements;

(7) identify and describe the steps necessary to develop or maintain a competitive, multi-source supply-chain to avoid reliance on a single source of supply;

(8) identify and describe supply sources considered by the Administrator to be reliable,

including an analysis of the capabilities of such sources to produce such materials in forms required for military applications in the next five years, as well as the security of upstream supply for these sources of material; and

(9) include such other considerations and recommendations as necessary to support the establishment of such inventory.

(b) Findings and Recommendations.--

(1) In general.-- Not later than 90 days after the date on which the assessment is submitted under subsection (a), the Secretary of Defense shall submit to the congressional defense committees--

(A) the findings and recommendations from the assessment required under subsection (a);

(B) a description of any actions the Secretary intends to take regarding the plans, strategies, policies, regulations, or resourcing of the Department of Defense as a result of the findings and recommendations from such assessment; and

(C) any recommendations for legislative or regulatory changes needed to ensure the long-term availability of such rare earth materials.

(c) Definitions.--In this section:

(1) The term "rare earth" means any of the following chemical elements in any of their physical forms or chemical combinations and alloys:

Conference Report 109-702

Sale of Strategic and Critical Materials

The National Defense Stockpile (NDS) operates under authority of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98, et seq.). The Act mandates the maintenance of a stockpile of strategic and critical materials to decrease, and preclude, when possible, dependence upon foreign sources for supplies in times of national emergency. The Defense National Stockpile Center, a field activity of the Defense Logistics Agency, conducts the sale of strategic and critical materials in the NDS. Over 95 percent of the materials currently in the NDS have been determined to be in excess to the Department of Defense's (DOD) needs and are now being disposed. In the committee report (H. Rept. 109-

89) accompanying the National Defense Authorization Act for Fiscal Year 2006, the committee noted concern with the increasing reliance on foreign sources of supply, particularly with respect to titanium, for defense programs. In addition, the report directed the Secretary of Defense to review DOD's current policy to dispose of material and determine whether the NDS should be re-configured to adapt to current world market conditions to ensure future availability of materials required for defense needs. The committee notes that this report was not delivered and again urges the Secretary to submit the report to the Senate Committee on Armed Services and the House Committee on Armed Services.

Sale of Strategic and Critical Materials

The National Defense Stockpile (NDS) operates under the authority of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98, et seq.). The Act mandates that a stockpile of strategic and critical materials be maintained to decrease, and preclude, when possible, dependence on foreign sources of supply in times of national emergency. The Defense National Stockpile Center, a field activity of the Defense Logistics Agency,

conducts the sale of strategic and critical materials in the NDS. Over 95 percent the materials currently in the NDS have been determined to be excess to Department of Defense (DOD) needs and are now being disposed of. As a result of recent market conditions, particularly with respect to titanium, and the increasing reliance on foreign sources of supply for defense programs, the committee has concerns about the the DOD’s ability to ensure the timely availability of materials to meet the current needs of

the military services. The committee directs the Secretary to review the DOD's current policy to dispose of material and determine whether the NDS should be re-configured to adapt to current world market conditions to ensure future availability of materials required for defense needs. The committee directs the Secretary to report to the Senate Committee on Armed Services and the House Committee on Armed Services by March 1, 2006, on the findings and conclusions.

(c) Minimization of Disruption and Loss.—The President may not dispose of materials under subsection (a) to the extent that the disposal will result in—

(1) undue disruption of the usual markets of producers, processors, and consumers of the materials proposed for disposal; or

(2) avoidable loss to the United States.

(d) Treatment of Receipts.—Notwithstanding section 9 of the Strategic and Critical materials Stock Piling Act (50 U.S.C. 98h), funds received as a result of the disposal of materials authorized for disposal under subsection (a) shall be treated as follows:

(1) The following amounts shall be transferred to the Secretary of Health and Human Services, to be credited in the manner determined by the Secretary of Health and Human Services, to be credited in the manner determined by the Secretary to the Federal Hospital Insurance Trust Fund and the Federal Supplementary

Medical Insurance Trust Fund:

- (A) \$3,000,000 during Fiscal Year 1999
- (B) \$22,000,000 during Fiscal Year 2000
- (C) \$28,000,000 during Fiscal Year 2001
- (D) \$31,000,000 during Fiscal Year 2002
- (E) \$8,000,000 during Fiscal Year 2003

(2) The balance of the funds received shall be deposited into the general fund of the Treasury.

(e) Relationship to Other Disposal Authority.—The disposal authority provided in subsection (a) is new disposal authority and is in addition to, and shall not affect, any other disposal authority provided by law regarding materials specified in such subsection.

(f) Authorization of Sale.—The authority provided by this section to dispose of materials contained in the National Defense Stockpile so as to result in receipts of \$100,000,000 of the amount specified for fiscal year 1999 in subsection (a) by the end of that fiscal year shall be effective only to the extent provided in advance in appropriation Acts.

SEC. 3304. USE OF STOCKPILE FUNDS FOR CERTAIN ENVIRONMENTAL REMEDIATION, RESTORATION, WASTE MANAGEMENT, AND COMPLIANCE ACTIVITIES.

Section 9(b)(2) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(b)(2)) is amended—

(1) by redesignating subparagraphs (J) and (K) as subparagraphs (K) and (L) respectively; and

(2) by inserting after subparagraph (I) the following new subparagraph (J):

“(J) Performance of environmental remediation, restoration, waste management, or compliance activities at locations of the stockpile that are required under a Federal law or are undertaken by the government under an administrative decision or negotiated agreement.”.

EMERGENCY SUPPLEMENTAL APPROPRIATIONS ACT FOR FISCAL YEAR 1999 Public Law 106-31

Sec. 303.

(a) Disposal Authorized. - Subject to subsection (c), the President may dispose of the material in the National Defense Stockpile specified in the table in subsection (b).

(b) Table.- The total quantity of the material authorized for disposal by the President under subsection (a) is as follows:

Material for disposal	Quantity
Zirconium ore	17,383 short dry tons

(c) Minimization of Disruption and Loss.--The President may not dispose of material under subsection (a) to the extent that the disposal will result in-

(1) undue disruption of the usual markets of producers, processors, and consumers of the material proposed for disposal; or

(2) avoidable loss to the United States.

(d) Relationship to Other Disposal Authority.-- in subsection (a) is new disposal authority and is in

addition to, and shall not affect, any other disposal authority provided by law regarding the material specified in such subsection.

(e) National Defense Stockpile Defined.--In this section, the term “National Defense Stockpile Transaction Fund” means the fund in the Treasury of the United States established under section 9(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(a)).

Sec. 304.

Notwithstanding any other provision of law, from funds appropriated by Public Law 105-262, Public Law 105- 56, and Public Law 104-208, under the heading “Aircraft Procurement, Air Force”, \$50,700,000 is available for recording, adjusting, and liquidating obligations incurred as of the date of this Act for the fiscal years 1995 and 1996 production quantities of Joint Surveillance Target Attack Radar System (JSTARS) aircraft: Provided, That the Secretary of the Air Force shall notify the congressional defense committees of all of the specific sources of funds to be used for the JSTARS obligations and follow normal reprogramming procedures.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1998 Public Law 105-85

TITLE XXXIII--NATIONAL DEFENSE STOCKPILE

Sec. 3301. Definitions.

Sec. 3302. Authorized uses of stockpile funds.

Sec. 3303. Disposal of beryllium copper master alloy in National Defense Stockpile.

Sec. 3304. Disposal of titanium sponge in National Defense Stockpile.

Sec. 3305. Disposal of cobalt in National Defense Stockpile.

Sec. 3306. Required procedures for disposal of strategic and critical materials.

Sec. 3307. Return of surplus platinum from the Department of the Treasury.

SEC. 3301. DEFINITIONS.

In this title:

(1) The term “National Defense Stockpile” means the stockpile provided for in section 4 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c).

(2) The term “National Defense Stockpile Transaction Fund” means the fund in the Treasury of the United States established under section 9(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(a)).

(3) The term “Market Impact Committee” means the Market Impact Committee established under section 10(c) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h-1(c)).

SEC. 3302. AUTHORIZED USES OF STOCKPILE FUNDS.

(a) Obligation of Stockpile Funds. - During fiscal year 1998, the National Defense Stockpile Manager may obligate up to \$73,000,000 of the funds in the National

Defense Stockpile Transaction Fund for the authorized uses of such funds under section 9(b)(2) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(b)(2)), including the disposal of hazardous materials that are environmentally sensitive.

(b) Additional Obligations. - The National Defense Stockpile Manager may obligate amounts in excess of the amount specified in subsection (a) if the National Defense Stockpile Manager notifies Congress that extraordinary or emergency conditions necessitate the additional obligations. The National Defense Stockpile Manager may make the additional obligations described in the notification after the end of the 45-day period beginning on the date on which Congress receives the notification.

(c) Limitations. - The authorities provided by this section shall be subject to such limitations as may be provided in appropriations Acts.

SEC. 3303. DISPOSAL OF BERYLLIUM COPPER MASTER ALLOY IN NATIONAL DEFENSE STOCKPILE.

(a) Disposal Authorization.—Pursuant to section 5(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d(b)), the National Defense Stockpile Manager may dispose of all beryllium copper master alloy from the National Defense Stockpile as part of continued efforts to modernize the stockpile.

(b) Precondition for Disposal.—Before beginning the disposal of beryllium copper master alloy under subsection (a), the National Defense Stockpile Manager shall certify to Congress that the disposal of beryllium copper master alloy will not adversely affect the capability of the National Defense Stockpile to supply the strategic and critical material needs of the United States.

(c) Consultation With Market Impact Committee.—In disposing of beryllium copper master alloy under

subsection (a), the National Defense Stockpile Manager shall consult with the Market Impact Committee to ensure that the disposal of beryllium copper master alloy does not disrupt the domestic beryllium industry.

(d) **Extended Sales Contracts.**—The National Defense Stockpile Manager shall provide for the use of long-term sales contracts for the disposal of beryllium copper master alloy under subsection (a) so that the domestic beryllium industry can re-absorb this material into the market in a gradual and nondisruptive manner. However, no such contract shall provide for the disposal of beryllium copper master alloy over a period longer than eight years, beginning on the date of the commencement of the first contract under this section.

(e) **Relationship to Other Disposal Authority.**—The disposal authority provided in subsection (a) is new disposal authority and is in addition to, and shall not affect, any other disposal authority provided by law regarding materials in the National Defense Stockpile.

(f) **Beryllium Copper Master Alloy Defined.**—For purposes of this section, the term “beryllium copper master alloy” means an alloy of nominally four percent beryllium in copper.

SEC. 3304. DISPOSAL OF TITANIUM SPONGE IN NATIONAL DEFENSE STOCKPILE.

(a) **Disposal Required.**—Subject to subsection (b), the National Defense Stockpile Manager shall dispose of 34,800 short tons of titanium sponge contained in the National Defense Stockpile provided for in section 4 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c) and excess to stockpile requirements.

(b) **Consultation With Market Impact Committee.**—In disposing of titanium sponge under subsection (a), the National Defense Stockpile Manager shall consult with the Market Impact Committee to ensure that the disposal of titanium sponge does not disrupt the domestic titanium industry.

(c) **Relationship to Other Disposal Authority.** The disposal authority provided in subsection (a) is new disposal authority and is in addition to, and shall not affect, any other disposal authority provided by law regarding materials in the National Defense Stockpile.

SEC. 3305. DISPOSAL OF COBALT IN NATIONAL DEFENSE STOCKPILE.

(a) **Disposal Required.** -- Subject to subsections (b) and (c), the President shall dispose of cobalt contained in the National Defense Stockpile so as to result in receipts to the United States in amounts equal to --

- (1) \$20,000,000 during fiscal year 2003;
- (2) **\$30,000,000** during fiscal year 2004;
- (3) **\$34,000,000** during fiscal year 2005;
- (4) **\$34,000,000** during fiscal year 2006; and
- (5) \$34,000,000 during fiscal year 2007.

(b) **Limitation on Disposal Authority.** — The total quantity of cobalt authorized for disposal by the President under subsection (a) may not exceed 14,058,014 pounds.

(c) **Minimization of Disruption and Loss.** The President may not dispose of cobalt under subsection (a) to the extent that the disposal will result in—

- (1) undue disruption of the usual markets of producers, processors, and consumers of cobalt; or
- (2) avoidable loss to the United States.

(d) **Treatment of Receipts.** Notwithstanding section 9 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h), funds received as a result of the disposal of cobalt under subsection (a) shall be deposited into the general fund of the Treasury.

(e) **Relationship to Other Disposal Authority.** The disposal authority provided in subsection (a) is new disposal authority and is in addition to, and shall not affect, any other disposal authority provided by law regarding materials in the National Defense Stockpile.

SEC. 3306. REQUIRED PROCEDURES FOR DISPOSAL OF STRATEGIC AND CRITICAL MATERIALS.

Section 6(b) of the Strategic and Critical Materials Stockpiling Act (50 U.S.C. 98e(b)) is amended in the first sentence by striking out “materials from the stockpile shall be made by formal advertising or competitive negotiation procedures.” and inserting in lieu thereof “strategic and critical materials from the

stockpile shall be made in accordance with the next sentence.”.

SEC. 3307. RETURN OF SURPLUS PLATINUM FROM THE DEPARTMENT OF THE TREASURY.

(a) Return of Platinum to Stockpile. Subject to subsection (b), the Secretary of the Treasury, upon the request of the Secretary of Defense, shall return to the Secretary of Defense for sale or other disposition platinum of the National Defense Stockpile that has been loaned to the Department of the Treasury by the Secretary of Defense, acting as the stockpile manager. The quantity requested and required to be returned shall be any quantity that the Secretary of Defense determines appropriate for sale or other disposition.

(b) Alternative Transfer of Funds. The Secretary of the Treasury, with the concurrence of the Secretary of Defense, may transfer to the Secretary of Defense funds

in a total amount that is equal to the fair market value of any platinum requested under subsection (a) and not returned. A transfer of funds under this subsection shall be a substitute for a return of platinum under subsection (a). Upon a transfer of funds as a substitute for a return of platinum, the platinum shall cease to be part of the National Defense Stockpile. A transfer of funds under this subsection shall be charged to any appropriation for the Department of the Treasury and shall be credited to the National Defense Stockpile Transaction Fund.

(c) Responsibility for Costs. The return of platinum under subsection (a) by the Secretary of the Treasury shall be made without the expenditure of any funds available to the Department of Defense. The Secretary of the Treasury shall be responsible for all costs incurred in connection with the return, such as transportation, storage, testing, refining, or casting costs.

(c) MINIMIZATION OF DISRUPTION AND LOSS. – The President may not dispose of materials under subsection (a) to the extent that the disposal will result in –

(1) undue disruption of the usual markets of producers, processors, and consumers of the materials proposed for disposal; or

(2) avoidable loss to the United States.

(d) TREATMENT OF RECEIPTS. – Notwithstanding section 9 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h), funds received as a result of the disposal of materials under subsection (a) shall be –

(1) deposited into the general fund of the Treasury; and

(2) to the extent necessary, used to offset the revenues that will be lost as a result of execution of the amendments made by section 4303(a) of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 658).

(e) QUALIFYING OFFSETTING LEGISLATION. – This section is specifically enacted as qualifying offsetting legislation for the purpose of offsetting fully the estimated revenues lost as a result of the amendments made by subsection (a) of section 4303 of the National Defense Authorization Act for Fiscal Year

1996 (Public Law 104-106; 110 Stat. 658), and as such is deemed to satisfy the conditions in subsection (b) of such section.

(f) RELATIONSHIP TO OTHER DISPOSAL AUTHORITY – The disposal authority provided in subsection (a) is new disposal authority and in addition to, and shall not affect, any other disposal authority provided by law regarding the materials specified in such subsection.

SUBTITLE B – PROGRAMMATIC CHANGE

SEC. 3311. BIENNIAL REPORT ON STOCKPILE REQUIREMENTS.

(a) NATIONAL EMERGENCY PLANNING ASSUMPTIONS. – Section 14 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h-5) is amended –

(1) by redesignating subsection (c) as subsection (e); and

(2) by striking out subsection (b) and inserting in lieu thereof the following new subsection:

“(b) Each report under this section shall set forth the national emergency planning assumptions used by the Secretary in making the Secretary’s recommendations under subsection (a)(1) with respect to stockpile requirements. The Secretary shall base the national emergency planning assumptions on a military conflict scenario consistent with the scenario used by the Secretary in budgeting and defense planning purposes. The assumption to be set forth include assumptions relating to each of the following:

“(1) The length and intensity of the assumed military conflict.

“(2) The military force structure to be mobilized.

“(3) The losses anticipated from enemy action.

“(4) The military, industrial, and essential civilian requirements to support the national emergency.

“(5) The availability of supplies of strategic and critical materials from foreign sources during the mobilization period, the military conflict, and the subsequent period of replenishment, taking into

consideration possible shipping losses.

“(6) The domestic production of strategic and critical materials during the mobilization period, the military conflict, and the subsequent period of replenishment, taking into consideration possible shipping losses.

“(7) Civilian austerity measures required during the mobilization period and military conflict.

“(c) The stockpile requirements shall be based on those strategic and critical materials necessary for the United States to replenish or replace, within three years of the end of the military conflict scenario required under subsection (b), all munitions, combat support items, and weapons systems that would be required after such a military conflict.

“(d) The Secretary shall also include in each report under this section an examination of the effect that alternative mobilization periods under the military conflict scenario required under subsection (b), as well as a range of other military conflict scenarios addressing potentially more serious threats to national security, would have on the Secretary’s recommendations under subsection (a)(1) with respect to stockpile requirements.”.

(b) CONFORMING AMENDMENT. – Section 2 of such Act (50 U.S.C. 98a) is amended by striking out subsection (c) and inserting in lieu thereof the following new subsection:

“(c) The purpose of the National Defense Stockpile is to serve the interest of national defense only. The National Defense Stockpile is not to be used for economic or budgetary purposes.”

(c) EFFECTIVE DATE. – The amendments made by

this section shall take effect on October 1, 1996.

SEC. 3312. NOTIFICATION REQUIREMENTS.

(a) PROPOSED CHANGES IN STOCKPILE QUANTITIES. – Section 3(c)(2) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b(c)(2) is amended –

(1) by striking out “effective on or after the 30th legislative day following” and inserting in lieu thereof “after the end of the 45-day period beginning on”, and

(2) by striking out the last sentence.

(b) WAIVER OF ACQUISITION AND DISPOSAL REQUIREMENTS. – Section 6(d)(1) of such Act (50 U.S.C. 98e(d)(2) is amended by striking out “thirty days” and inserting in lieu thereof “45 days”.

(c) TIME TO BEGIN DISPOSAL. – Section 6(d)(2) of such Act (50 U.S.C. 98e(d)(2) is amended by striking out “thirty days” and inserting in lieu thereof “45 days”.

SEC. 3313. IMPORTATION OF STRATEGIC AND CRITICAL MATERIALS.

Section 13 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h-4) is amended-

(1) by striking out “as a Communist-dominated country or area”; and

(2) by striking out “such Communist-dominated countries or areas” and inserting in lieu thereof “a country or area listed in such general note”.

EMAIL NOTIFICATION LISTS

Individuals or companies interested in buying from or selling to the DLA Strategic Materials may request to be placed on an email notification list for the material(s) or services they wish to buy or sell by signing up for email notifications on the DLA Strategic Material's Website, <https://www.dnsc.dla.mil>. DLA Strategic Materials no longer routinely provides copies of solicitations and amendments by mail or facsimile. Requests for sales and acquisitions documents may also be sent to:

The DLA Strategic Materials sales program moved to a new website in the Fall of 2013. The address of the new website is: <http://www.strategicmaterials.dla.mil>.

SALES

Materials are offered for sale when they are excess to the goal, authorized for sale by the Congress, and are listed on the current fiscal year's Annual Materials Plan. To the extent possible, sales are conducted competitively. DLA Strategic Materials carefully monitors prices and other market conditions to ensure that sales do not unduly disrupt the market and that there is a fair return to the taxpayer. Individuals and companies on the email mailing list for a material being sold automatically receive by email the necessary information in order to submit a quote or offer.

TYPES OF SALES

Negotiated: The solicitation does not determine all the terms and conditions of the final contract. Price and other terms are negotiable. Buyers make an initial offer and an award may be made without further discussions or the Government may negotiate terms. Where discussions have taken place, each offeror is asked to submit a "best and final offer," at which point discussions end. Offers are then evaluated and awards are made to responsible offerors whose offers are considered most advantageous to the Government.

Basic Ordering Agreement (BOA): The BOA is a written instrument of understanding that contains a description of the material offered for sale and the terms and conditions negotiated between the Contracting Officer and the Contractor. The terms and conditions will apply to all resulting contracts awarded under the BOA. Under the BOA process, DLA Strategic Materials periodically offers materials for

sale based on market and/or customer needs. Quoters must pre-qualify by submitting a completed BOA package prior to quoting. All pre-qualified quoters are invited to quote. Award is based on prices offered, as may be adjusted by special terms negotiated previously. Quotes are submitted through the DLA Strategic Materials website. Submission of all quotes is only through the website at <http://www.strategicmaterials.dla.mil>.

SUBMISSION OF SHIPPING INSTRUCTIONS

Contractors are required to submit shipping instructions under their sales contracts through the website at <http://www.strategicmaterials.dla.mil>.

EMAIL NOTIFICATION OF SOLICITATION DOCUMENTS

DLA Strategic Materials sends solicitation documents by email notices when documents are posted to the DLA Strategic Materials website. Submission of requests for email notifications will be through the new site at: <http://www.strategicmaterials.dla.mil>.

METHODS OF PAYMENT

Payment for stockpile materials is due prior to delivery. Contractors are required to send payment for material by wire transfer only. Submission of a payment for material by any other method will result in delays in releasing the material for shipment.

FINANCIAL EXPOSURE LIMIT

DLA Strategic Materials establishes a financial exposure limit for each contractor seeking to participate in the sale of stockpile materials. Prior to awarding its sales contracts, DLA Strategic Materials establishes a financial exposure limit for a contractor based on financial data provided by the firm. The exposure limit represents the maximum level of outstanding contractual obligations DLA Strategic Materials will allow at one time. If a contractor reaches its financial exposure limit, subsequent sales may cease until the contractor either satisfactorily performs its existing contracts or provides additional information which justifies an increase in the exposure limit.

ACQUISITIONS (PURCHASES)

To the maximum extent possible, DLA Strategic Materials purchases supplies and services competitively through award to small business concerns. DLA Strategic Materials contracts for the purchase of materials for the National Defense Stockpile, repair and alteration (construction), maintenance, other non-personal services, and

supplies for the various Stockpile storage locations across the United States. In Fiscal Year 2014, DLA Strategic Materials also contracted for environmental remediation services for one of its former stockpile storage sites. Notices of solicitations are published on FedBizOpps and GSA E-buy. Firms signed up for the portals above will automatically receive notification when solicitations are synopsized or issued. Those not signed up for notification may request the solicitations from DLA Strategic Materials Contracting.

TYPES OF PROCUREMENTS

Negotiated: Most of DLA Strategic Materials' procurements are negotiated. Negotiated procurements involve the submission of initial proposals to the Government in response to a Request for Proposals (or Request for Quotations with a smaller dollar value or if the requirement is listed on GSA eBuy) for the particular supply or service. This method permits discussions by the parties and allows the offeror/quoter to revise the initial proposal or quotation prior to the award of the contract if the Contracting Officer requests revised proposals/quotations. Negotiations may include discussions on price, delivery schedule, technical requirements, type of contract, or other terms of the proposal or quotation. Price is not necessarily the most important factor and awards may be made on other than price and price-related factors; for example, a superior technical approach or delivery schedule.

METHODS OF PAYMENT

The contractor is paid by Government Electronic Funds Transfer (EFT) through Wide Area Workflow (WAWF).
