 - Actual \$216.7M *
- FY17 Obligation Forecast for Load Bearing Items \$59,130,240

*NOTE: Total inclusive of all items purchased by the team; body armor & others included.

Open Procurements

- SPE1C1-16-R-0074 USMC Waterproof Liners; Closed 8/22/2016; TAD NOV 2016
- SPE1C1-16-R-0108 ANP Load Bearing Items; Closed 8/29/2016; TAD JAN 2017
- SPE1C1-16-R-0111 ANA Load Bearing Items; Closed 8/29/2016; TAD JAN 2017
- SPE1C1-16-R-0157 for Leather Handcuff Cases; Closed 9/30/2016; TAD NOV 2017

Open Procurements

- SPE1C1-16-R-0162 for Baton & Baton Holders; Closing 10/24/2016

CLIN	NATIONAL STOCK NUMBER (NSN)	DESTINATION	QUANTITY
0001	8465-01-625-7829	W25G1U	41,187
0002	8465-01-625-7830	W25G1U	41,187

CLIN	NATIONAL STOCK NUMBER (NSN)	PART NUMBERS	CAGE CODES
0001	8465-01-625-7829	MONADUCK Module 3800	04TLO
0002	8465-01-625-7830	MONADUCK Module 9830	04TLO

Upcoming Opportunities

- Modular Lightweight Loadbearing Equipment (MOLLE)
 - Army & Air Force main modular loadbearing system
 - New Procurement estimated to be 2rd Quarter of Fiscal Year 17 (January, February, March)
 - Increased Small Business Set-Asides Planned
 - New Procurement in OCP
- Family of Improved Lightweight Loadbearing Equipment (FILBE)
 - USMC main modular loadbearing system
 - Supply Request Package to DLA Troop Support estimated to be November/December, 2016. Approximately 90 days after Receipt of SRP new Procurement for FILBE will be issued; March, 2017 est.

Upcoming Opportunities

- Afghan National Army (ANA) – AK47/M4/M16 Triple Magazine Pouch & Drop Leg Holster (Color is CG483)
 - Estimated Solicitation Issuance date July 2017
 - Estimated Quantity 75,000 for Magazine Pouches
 - Estimated Quantity 10,000 for Drop Leg Holster
 - Similar to SPE1C1-16-R-0156
- Afghan National Police (ANP) - AK47/M4/M16 Triple Magazine Pouch & Drop Leg Holster (Color is Black)
 - Estimated Solicitation Issuance Date July 2017
 - Estimated Quantity 20,000 for Magazine Pouches
 - Estimated Quantity 15,000 for Drop Leg Holster
 - Similar to SPE1C1-16-R-0156

Load Carrying Equipment Updates

Fabric For Future Load-Bearing Equipment

Army Modular Tactical Holster (AMTH)

20 October 2016

JAPBI Brief

John Kirk
Load Carriage Engineer
NSRDEC

FABRIC FOR FUTURE LOAD-BEARING EQUIPMENT

Where We Are:

- US Army Load-Carriage equipment currently uses:
 - Textured nylon fabric
 - MIL-DTL- 32439
 - Water repellent treated 12 oz. coated fabric

Where We Want To Go:

- Fabric sought for future load-carriage applications, i.e. Rucksacks and Pouches that meets:
 - Similar durability and performance requirements of the textured nylon
 - Lighter than 12 oz./sq yd

ARMY MODULAR TACTICAL HOLSTER (AMTH)

Where We Are:

- A Request For Information (RFI) was posted in Fed Biz Ops on Aug 12 for an Army Modular Tactical Holster (W911QY-16-AMTH)
- The Government is conducting this market investigation to acquire information on the types and sizes of businesses that will be able to compete on future contracting actions, potential costs, as well as production and delivery capabilities. In addition, the Government is interested in identifying emergent technologies
- Key Performance Parameters (KPPs) are described in the RFI

Where We Are Going:

- Refine KPPs for the AMTH as a result of Industry responses to the RFI
- Determine appropriate COA'S to procure the AMTH in support of the Modular Handgun System (MHS) program
- Ensure the AMTH is properly provisioned and prepared to support the MHS fielding
