Item No., Schedule of Supplies/Services, Quantity, Unit:

# **Schedule of Supplies and Services**

The intent of this solicitation is to issue Multiple Indefinite Delivery/Requirements Contracts for Commercial Type <u>Fire and Emergency Vehicles</u> used by the U.S. Military and other Federal Government Agencies within the Contiguous United States, Alaska, Hawaii, the outlying areas and throughout Europe, Africa and the Pacific. Awards will be made to responsible offerors who take no exception to the terms and conditions of the solicitation and whose prices are determined to be fair and reasonable. This method of contracting is intended to provide broad, flexible, efficient, long term contracts to provide maximum coverage for Fire and Emergency Vehicles with comprehensive equipment support. Contracts will be awarded to individual contractors for their product line of Fire and Emergency Vehicles.

# Product lines can include but not be limited to:

- >rescue vehicles, brush and wildlands, tankers, pumpers, aerials
- >command vehicles, bomb squad vehicles, hazmat vehicles, glider kits
- >aircraft rescue fire-fighting vehicles, all-terrain "emergency" vehicles

NOTE: the following equipment will **no longer** be provided under Fire and Emergency Vehicles, <u>so please do not propose them under this solicitation.</u>

- > "Snow removal equipment; De-icing vehicles and equipment; Snow plows; Brooms: Snow blowers; Snow sweepers". A new product group titled "Snow Removal Equipment" has been created and will be solicited separately.
- > "All-terrain vehicles, Utility vehicles; Electric utility cars". This equipment will be procured under "Agricultural Equipment" going forward.

Each item shall be new and the manufacturer's current commercial product. Each product offered shall include all standard components that are offered to the commercial market. Equipment shall be in operating condition, which includes but is not limited to having all fluid levels filled to normal operating ranges, when delivered to the destination. One paper and/or electronic set of commercial manuals consisting of operator's instructions, service and repair manuals, and a complete parts list shall be overpacked with each item.

Product lines will also include incidental service and support features for each model. The incidental service and support can include but is not limited to operator training, operator certification training, service plans, spare parts support, video packages, extended warranty agreements, and any additional value-added incidental services and support features that the manufacturer or their certified representative offers. This incidental service and support may only be ordered at the time the new equipment is ordered as part of the new equipment order. The services and support features cannot be ordered as stand-alone items under any resulting contract.

Incidental service and support will be solicited as part of the Request for Quotation/ Delivery Order process, as required.

PLEASE SUBMIT A 'CD' WITH YOUR PRICING SPREADSHEETS AS WELL AS YOUR COMMERCIAL CATALOGUES, IN ADDITION TO THE HARD COPY REQUIREMENTS STIPULATED BELOW.

#### **CAUTION NOTICE**

# **Items Requiring Special Attention**

Although the specific details of the following information may be included within, the following list of items is intended to summarize key aspects of this solicitation and resulting contract.

This procurement is a negotiated acquisition issued on an unrestricted basis. The Government intends to award Multiple Fixed Price Indefinite Delivery/Requirements Contracts for the purpose of acquiring commercial Fire and Emergency Vehicles.

Offerors must submit a proposal in accordance with the requirements of the solicitation.

For specific details regarding submission of proposals, see provision FAR 52.212-1 Instructions to offerors - Commercial Items. Offeror's proposals will be evaluated based on all of the solicitation requirements, including the evaluation criteria listed in provision FAR 52.212-2, Evaluation – Commercial Items.

After the initial contracts are awarded, all subsequent Fire and Emergency Vehicles customer requirements will be competed amongst all contract holders and each contract holder will be afforded a fair opportunity to submit offers on the requirements except for items covered by a Limited Source Justification.

The required delivery schedule is between 30/365 days. The required delivery schedule will be referenced in each Request for Quotations (RFQs).

The resulting contract will be for a term of five-years (no options).

The unit prices for the basic contract items will be awarded on an FOB Origin basis. However, the FOB point is Destination for individual Request for Quotations (RFQs). Contract awardees will be required to quote FOB Destination at the time of each individual RFQs. All customer requirements will be satisfied on an FOB Destination basis. For items shipped overseas the FOB point will be the point of loading closest to the port of embarkation. The cognizant DCMA office is responsible for designating the port of loading.

DLA Troop Support will award only one contract per manufacturer's product(s) or product line.

The solicitation will be open continuously with early consideration for offers received by the initial closing date. Offers received by the initial closing date will be the only offers included in the initial evaluation process. New offers may be submitted at any time after the initial closing date but prior to the final closing date. The final closing date will be four (4) years after the initial closing date. Only proposals for manufacturer's product(s) or product lines that are not on a contract resulting from this solicitation will be evaluated after the initial closing date. All subsequent proposals for duplicate manufacturer's products/product lines will be sent back to the prospective offerors unevaluated. Proposals received after the initial closing date will be retrieved from the Business Opportunities Office on a weekly basis.

At the time contracts from this solicitation are awarded, there will still be existing contracts from solicitation SPM8EC-11-R-0005. Because the resulting awards will be requirements contracts, there can only be one contract for each manufacturer's product line. Therefore, manufacturer's products that are still on contract from the previous solicitation will not be awarded on this solicitation until the contract from the previous solicitation expires or is terminated for convenience or cause.

DLA Troop Support intends to utilize Government Standard Source Inspection and Acceptance Procedures. However, the government reserves the right to change the method of Inspection/Acceptance procedures for any individual delivery order at the discretion of the Contracting Officer.

All delivery orders issued under the resulting contracts will be written/placed only by DLA Troop Support who will be the ordering office.

FAR Clause 52.216-2, Economic Price Adjustment - Standard Supplies is incorporated in full text. The clause provides for an aggregate increase not to exceed 20 percent of the original contract unit price. This provision will be in effect for the first two years of the resulting contracts. After two years, the contracts will be modified to provide for an aggregate Economic Price Adjustment ceiling for subsequent years. The economic price adjustments will be made only to the base list prices and not to the discount percentages.

Only two (2) Economic Price Adjustments are permitted per year.

Items may be added to the contract as they are added to the awardees' commercial catalog. Items that become obsolete or discontinued from the commercial catalog may be deleted.

Offerors must complete the representation contained in DFARS 252.247-7022, *Representation of Extent of Transportation by Sea* referenced in the solicitation. DFARS 252.247-7023, Transportation of Supplies by Sea is referenced in the solicitation and will also be included in all contracts resulting from this solicitation.

Offerors must submit a complete proposal including commercial catalog prices for all items and commercial catalog prices for all machine attachments and related equipment. The proposal should also include discounts to be offered on the proposed commercial catalog prices. In addition, offerors must supply pricing support data relating to the proposed products which includes: commercial invoices for items sold commercially, pricing and or discount structure pertaining to commercial customers/dealers, and other supporting documentation that can be used to determine price reasonableness.

#### This solicitation requires offerors to submit the following:

- 1.) Commercial Price Lists and Discounts
- 2.) Commercial Catalogs (descriptive literature)
- 3.) Commercial Invoices

<u>Commercial Price Lists and Discounts</u>: Offerors are required to submit pricing and discounts for each model offered, and to include discounts, if any, for commercially available price listed equipment attachments and optional features for each proposed model (See Attachment 1).

<u>Commercial Catalogs</u>: Offerors must submit commercial catalogs and/or other commercially offered descriptive literature that will be used to determine commerciality of all models, attachments and optional features.

<u>Commercial Invoices</u>: Offerors must submit commercial invoices that will verify commercial sales and discounts offered to the commercial market.

DLA Troop Support will award one contract per the Original Equipment Manufacturer's (OEM) product(s) or product line. Dealers and suppliers, other than the OEM, that wish to be considered for an award must submit an original letter of commitment from the OEM specifically addressing the products or product line, the offeror and this solicitation. The OEM's letter of commitment must confirm that the offeror is "the OEM's sole representative for the contract". The OEM's letter of commitment must include assurance "to provide the offeror a guaranteed, uninterrupted source of supply sufficient to satisfy the Government's requirements for the contract period". The offeror must submit the letter of commitment with the proposal. Failure to provide the guarantees mentioned above will result in your elimination from consideration for award.

Manufacturer's letters of commitment for the same products or product line from more than one offeror will render all offerors for that manufacturer's product(s) or product line unacceptable and therefore excluded for award.

This procurement is being solicited on an unrestricted basis. Awards will be made to responsible offerors who take no exception to the terms and conditions of the solicitation, meet all solicitation requirements and whose prices are determined fair and reasonable. The evaluation criteria for award are contained in FAR clause 52.212-2 Evaluation - Commercial Items.

The following procedures will be used in issuing delivery orders:

A fair notice of intent to make a purchase, including an item description of the equipment to be delivered and the basis upon which the contracting officer will make the selection, will be issued to all contractors who currently hold Fire and Emergency Vehicles contracts on contracts resulting from both solicitation SPM8EC-11-R-0005 and this solicitation except for items covered by a Limited Source Justification. The Request for Quotations (RFQs)/E-mail notification will clearly identify the customer's requirements, and include reference to the specific equipment requirements and, if necessary, will clearly identify the best value delivery order placement criteria to be used for the specific purchase. This will afford all contractors responding to the notice

a fair opportunity to submit an offer and have that offer fairly considered. Note that DLA's customer will be responsible for determining whether or not an item is technically acceptable. Upon receipt of the offer(s), a delivery order will be issued by the DLA Troop Support Contracting Officer based on the delivery order placement criteria specified in the contract. DLA Troop Support is the designated ordering office. No other government activities may place delivery orders against this contract.

All delivery orders will be awarded based on Lowest Price Technically Acceptable (LPTA) unless otherwise specified.

Unless otherwise specified in the Request for Quotations/Delivery Order process, preservation, packaging, and packing shall be of sufficient nature as to preclude damage to the equipment under normal shipping and handling conditions. In accordance with ASTM D 3951 (Standard Practice for Commercial Packaging) and MIL-STD 147 such packaging should conform to industry commercial and military practices, and be consistent with applicable carrier regulations. Shipping containers shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. OCONUS shipping must conform to International Air Transport Association regulations and the specific delivery order packaging directions.

The contractor shall be responsible for packaging and over packing the equipment in commercial of the type, size and kind commonly used for the purpose and so constructed as to ensure acceptance and safe delivery to destination. A packing list/slip containing the following information, as a minimum: Contractor's name, delivery order number, date of order, itemized list of equipment / attachments/ supplies included in the shipment, manufacturers name, part number, quantity shipped, delivery site, secondary delivery site, if necessary, and any special instructions, shall be enclosed with each shipped order. The line number used in the order will be duplicated on the packing slip.

Any deviation from commercial practice will be specified in the RFQs as required.

Offerors must provide a list of any hazardous material to be delivered under this contract, and submit a Material Safety Data Sheet for items meeting specific criteria (See FAR 52.223-3 incorporated by referenced and the Hazard Communication Standard Notice).

Large Business concerns must submit a Subcontracting Plan with its offer. For further information on subcontracting plans, please visit: https://www.esrs.gov.

It is anticipated that there will be Fire and Emergency Vehicles contracts in place as a result of a prior solicitation (SPM8EC-11-R-0005) when this solicitation closes. The priority will be to award the new contracts as expeditiously as possible. However, due to the existing contracts in place as a result of the prior solicitation and the expected award of new contracts as a result of this solicitation, this solicitation permits overlap when competing Request for Quotations (RFQs). This solicitation will allow for RFQs to accommodate quotations and the resulting contract delivery orders to be made under contracts from either solicitation in order to enhance competition to the fullest extent. It should be noted that not more than one contract for a manufacturer's product(s) or product line is permissible.

Contractors will be required to submit contract retention plans as referenced in FAR 52.212-5(d) and FAR 4.703 no later than forty-five days after the effective contract award date. The contract retention plans must be in accordance with FAR 4.703.

# **CAUTION – Contractor Code of Business Ethics (FEB 2012)**

FAR Part 3.1002(a) requires all government contractors to conduct themselves with the highest degree of integrity and honesty. Contractors should have a written code of business ethics and conduct within thirty days of award. To promote compliance with such code of business ethics and conduct, contractors should have an employee business ethics and compliance training program that facilitates timely discovery and disclosure of improper conduct in connection with government contracts and ensures corrective measures are promptly instituted and carried out. A contractor may be suspended and/or debarred for knowing failure by a principal to timely disclose to the government, in connection with the award, performance, or closeout of a government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733)

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). When FAR 52.203-13 is included in the contract, contractors must provide a copy of its written code of business ethics and conduct to the contracting officer upon request by the contracting officer.

#### FAR 52.211-16 VARIATION IN QUANTITY (APR 1984)

- (a) A variation in quantity of any item called for by this contract will not be accepted unless the variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified in Paragraph (b) of this clause.
  - (b) The permissible variation shall be limited to:

0 % increase 0% decrease

This increase or decrease shall apply to total quantity of each line item per delivery order.

The term "unit price" excludes any part of the price directly resulting from requirements for preservation, packaging, or packing beyond standard commercial practice. The term "established price" means a price that --

- (2) Is the net price after applying any standard trade discounts offered by the Contractor.
- (b) The Contractor shall promptly notify the Contracting Officer of the amount and effective date of each decrease in any applicable established price. Each corresponding contract unit price shall be decreased by the same percentage that the established price is decreased. The decrease shall apply to those items delivered on and after the effective date of the decrease in the Contractor's established price, and this contract shall be modified accordingly.

- (c) If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:
- (1) The aggregate of the increases in any contract unit price under this clause shall not exceed 20 percent of the original contract unit price.
- (2) The increased contract unit price shall be effective --

- (ii) If the written request is received later, on the date the Contracting Officer receives the request.
- (3) The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.
- (4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.
- (5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.
- (d) During the time allowed for the cancellation provided for in subparagraph (c)(5) of this clause, and thereafter if there is no cancellation, the Contractor shall continue deliveries according to the contract delivery schedule, and the Government shall pay for such deliveries at the contract unit price, increased to the extent provided by paragraph (c) of this clause.

#### **FAR 52.216-19 -- ORDER LIMITATIONS (OCT 1995)**

Upon receiving this notice, the Government may acquire the supplies or services from another source.

# **FAR 52.216-21 - REQUIREMENTS (OCT 1995)**

- (a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.
- (b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. - (f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 365 days.

**DFARS 252.216-7006 ORDERING (MAY 2011)**

Such orders may be issued from the effective date of award/contract through a date corresponding to 5 calendar year (s) after the effective date of the award/contract.
- (b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.
- (c)(1) If issued electronically, the order is considered "issued" when a copy has been posted to the Electronic Document Access system, and notice has been sent to the Contractor.
  - (2) If mailed or transmitted by facsimile, a delivery order or task order is considered "issued" when the Government deposits the order in the mail or transmits by facsimile. Mailing includes transmittal by U.S. mail or private delivery services.
  - (3) Orders may be issued orally only if authorized in the schedule.

#### TIME OF DELIVERY - ORDERING OFFICE

The Government reserves the right, with agreement from the contractor, to add to this contract any new or replacement items at offeror's current price (i.e. latest catalog price minus negotiated discount). If any item included in this contract becomes obsolete, discontinued, or cancelled as a commercial catalog item by the contractor, the contractor will provide to the Government 30 days advance written notice of such. New/replacement items will be added to the contract only after prices are determined to be fair and reasonable by the contracting officer. All additions/deletions will be accomplished by modification to the contract. This clause is intended to keep the offerors catalog current at all times as it is the Government's intent to offer the contractors' entire product line at any given time.

Additional Items- Furnish one commercial catalog page/pages including the price list and applicable discount, for the new items. Pages should reflect the effective date. Also, submit the production location and time of delivery as applicable. Product/spec sheets should be submitted for each addition. If price, place of performance and delivery are unchanged from the original, a statement to that effect is all that is required. The additional items will be added by inserting the offeror's new catalog pages, option pages, spec sheets and discount sheets to the existing commercial catalog.

<u>Deletions</u>- The reason for deletion should be stated in writing and supported by company documentation, should the Contracting Officer deem such support necessary. The contractor agrees to honor any delivery orders issued during such thirty-day period. If the contractor adds a catalog item as a suitable replacement item such notice is to be provided to the Contracting Officer along with the replacement catalog pages, option pages, and discount sheets for insertion into the catalog. The Government will accordingly delete any such item from this contract after receiving the required notice. The Government reserves the right to reject any subsequent offer of a substantially equal or same item at a higher price during the same contract period if in the opinion of the Contracting Officer, the price for the item replacing the deleted item is considered unreasonable as compared to that of the deleted item.

Note: The government reserves the right to request additional commercial invoices at any time (prior to and after contract award), including prior to the addition of any new item(s).

#### **RP001: DLA PACKAGING REQUIREMENTS FOR PROCUREMENT**

- (1) Additional Packaging and Marking Requirements:
- (a) Prohibited cushioning and wrapping materials: Use of asbestos, excelsior, newspaper, shredded paper (all types, including wax paper and computer paper), and similar hygroscopic or non-neutral materials and all types of loose-fill materials, including polystyrene, is prohibited for application such as cushioning, fill, stuffing, and dunnage. In addition, the use of yellow wrapping or packaging material is prohibited except where used for the containment of radioactive material.

- (b)MIL-STD-129 establishes requirements for contractors that ship packaged materiel to the Government to provide both linear bar codes and two-dimensional (2D) symbols on shipping labels. Shipping labels with 2D symbols are referred to as Military Shipping Labels (MSL) and are required on all CONUS and OCONUS shipments with the following exceptions:
- (1) Subsistence items procured through full-line food distributors (prime contractors), "market ready" type items shipped within the Continental United States (CONUS) to customers within CONUS;
- (2) Any item for which ownership remains with the contractor until the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the contractor into the designated location or issuance from the designated location by contractor personnel (i.e., the contractor is required to stock bins at the customer location and/or issue parts from a contractor controlled parts room).
- (3) Bulk petroleum, oil and lubricant products delivered by pipeline; or tank car, tanker and tank trailer for which the container has a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; a maximum net mass greater than 400 kg (882 pounds) and a capacity greater than 450123 L (119 gallons) as a receptacle for a solid; or a water capacity greater than 454 kg (1000124 pounds) as a receptacle for a gas.
- (4) Medical items procured through Customer Direct suppliers or prime contractors that do not enter the Defense Transportation System.128
- (5) Delivery orders when the basic contract has not been modified to require MIL-STD-129.
- (c) MIL-STD-129 provides numerous illustrations of what should be bar-coded and the recommended placement of the bar code. Further information is available on the DLA Packaging Web Site at: http://www.dla.mil/LandandMaritime/Offers/Services/TechnicalSupport/Logistics/Packaging.aspx.
- (2) Requirements for Treatment of Wood Packaging Material (WPM)
- (a)Assets packed in or on wood pallets, skids, load boards, pallet collars, wood boxes, reels, dunnage, crates, frames, and cleats must comply with the Heat Treatment (HT) or Heat Treatment/Kiln Dried (HT/KD) (continuous at 56 degrees Centigrade for 30 minutes) standard in 09/19/2016 5
- DoD Manual 4140.65-M "Compliance for Defense Packaging: Phytosanitary Requirements for Wood Packaging Material (WPM)". WPM must be stamped or branded with the appropriate certification markings as detailed in DOD 4140.65-M and be certified by an accredited American Lumber Standards Committee (ALSC)-recognized agency. The WPM certification markings must be easily visible, especially in pallet loads, to inspectors.
- (3) Palletization shall be in accordance with MD00100452, REVISION C, DATED 09/2016 found at http://www.dla.mil/LandandMaritime/Offers/Services/TechnicalSupport/Logistics/Packaging/Palletization.aspx

# C03 CONTRACTOR RETENTION OF SUPPLY CHAIN TRACEABILITY DOCUMENTATION (SEP 2016)

- (1) By submitting a quotation or offer, the contractor agrees that, when the contractor is not the manufacturer of the item, it is confirming that it currently has or will obtain before delivery and shall retain documented evidence (supply chain traceability documentation) that the item is from the approved manufacturer and conforms to the technical requirements. The retention period is five years after final payment under this contract.
- (2) At a minimum, the supply chain traceability documentation for the item shall include: basic item description, part number and/or national stock number, manufacturing source, manufacturing source's commercial and government entity code (e.g. CAGE code), and clear identification of the name and location of all supply chain intermediaries between the manufacturer to the contractor to item(s) acceptance by the Government. The documentation should also include, where available, the manufacturer's batch identification for the item(s), such as date codes, lot codes, or serial numbers.
- (3) Examples of acceptable supply chain traceability documentation can be found at: http://www.dla.mil/LandandMaritime/Business/Selling/Counterfeit-Detection-Avoidance-Program/
- (4) The contractor shall immediately make available documentation upon request of the contracting officer. The contracting officer determines the acceptability and sufficiency of documentation. If the contractor fails to retain or provide the documentation or the contracting officer finds the documentation to be unacceptable, corrective action may be taken including, but not limited to, cancellation of undelivered orders or rejection of delivered supplies.

REQUIREMENTS FOR TREATMENT OF WOOD PACKAGING MATERIAL (WPM)

- (a) This clause only applies when wood packaging material will be used to make shipments under this contract and/or when wood packaging material is being acquired under this contract.
- (b) Definition.

Wood packaging material (WPM) means wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frame and cleats. The definition excludes materials that have undergone a manufacturing process, such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board (OSD).

- (c) All Wood Packaging Material (WPM) used to make shipments under DoD contracts and/or acquired by DoD must meet requirements of International Standards for Phytosanitary Measures (ISPM) 15, "Guidelines for Regulating Wood Packaging Materials in International Trade." DoD shipments inside and outside of the United States must meet ISPM 15 whenever WPM is used to ship DoD cargo.
  - (1) All WPM shall comply with the official quality control program for heat treatment (HT) or kiln dried heat treatment (KD HT) in accordance with American Lumber Standard Committee, Incorporated (ALSC) Wood Packaging Material Program and WPM Enforcement Regulations (see http://www.alsc.org/).
  - (2) All WPM shall include certification/quality markings in accordance with the ALSC standard. Markings shall be placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides of the pallet and be contrasting and clearly visible. All containers shall be marked on a side other than the top or bottom, contrasting and clearly visible. All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an ASLC approved DUNNAGE stamp.
- (d) Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment of materials at the point of entry. The Agency reserves the right to recoup from the Contractor any remediation costs incurred by the Government.

#### HAZARD COMMUNICATION STANDARD NOTICE:

Effective June 1, 2015, Federal Standard No. 313-E, Material Safety Data, Transportation Data and Disposal Data for Hazardous Materials Furnished to Government Activities, established the requirement for preparation and submission of Safety Data Sheets (SDS) in lieu of Material Safety Data Sheets (MSDS) by suppliers who provide hazardous materials to government activities. The Occupational Safety and Health Administration (OSHA) has modified its Hazard Communication Standard (HCS) to conform to the United Nations Globally Harmonized System of Classification and Labeling of Chemicals. As a result of this change, Federal Standard No. 313-E was revised to require Safety Data Sheets for classifying chemicals and communicating the applicable information on labels.

In accordance with the revised standard after June 1, 2015:

- 1. Offerors/Contractors are required to submit, to the contracting officer for review and approval prior to award, safety data sheets consistent with the requirements found at 29 C.F.R.1910.1200 for any hazardous materials or items containing hazardous materials that are to be delivered to the Government.
- 2. Offerors/Contractors are required to submit, to the contracting officer for review and approval prior to award, hazardous warning labels in accordance with 29 C.F.R. 1910.1200 for hazardous materials delivered to the Government.
- 3. Finally, offerors/contractors are required as part of the new FEDSTD 313E to train their employees on the new safety data sheets, hazardous warning labels, and requirements of 29 C.F.R.1910.1200.

For more information on SDS, offerors/contractors should refer to the OSHA website, available at: <a href="https://www.osha.gov/dsg/hazcom/ghs-final-rule.html">https://www.osha.gov/dsg/hazcom/ghs-final-rule.html</a>

# STATEMENT OF WORK

DLA Troop Support intends to award contracts for the supply of Fire and Emergency Vehicles to the military services and federal agencies. Contracts will be awarded to individual contractors for their offered line of Fire and Emergency Vehicles.

Product lines can include but not be limited to:

- >rescue vehicles, brush and wildlands, tankers, pumpers, aerials
- >command vehicles, bomb squad vehicles, hazmat vehicles, glider kits
- >aircraft rescue fire-fighting vehicles, all-terrain "emergency" vehicles

Product lines will also include "incidental service and support" for each machine. This incidental service and support can include but should not be limited to operator training, operator certification training, service plans, spare parts support, video packages, extended warranty agreements, and any additional value-added incidental services that the manufacturer or his certified representative can offer in support of fleet maintenance and lifetime equipment support. This incidental service and support may only be ordered at the time the new equipment is ordered. This support cannot be ordered as a stand-alone item.

DLA Troop Support will award only one contract per manufacturer's product line. It is intended to issue multiple Requirements Contracts to responsible vendors that conform to the solicitation requirements contained within this document and whose prices are determined fair and reasonable. After the initial contracts are awarded, customer Fire and Emergency Vehicles requirements described by specifications, commercial item descriptions, or other commercial descriptions will be competed among all contract holders, and each contract holder will be afforded a fair opportunity to submit a quotation. In instances where only certain specified equipment will meet the customer's needs, or only one contract holder offers the required equipment, Limited Source Justifications will be executed, and only those contract holders offering the specified equipment will be solicited.

Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.
- (c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.
- (d) *Product samples*. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.
- (e) *Multiple offers*. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with subpart 4.10 of the Federal Acquisition Regulation), or alternative commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(2)

- (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

- (B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or
- (C) If this solicitation is a request for proposals, it was the only proposal received.
- (ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.
- (3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.
- (4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.
- (5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.
- (g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.
- (h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

Example: If you are offering at least 6 items from TWO different Manufacturer's product lines then you are required to submit at least 30 invoices (15 per each Manufacturer's product line)

It is requested that all submitted invoices are for commercial items that have been sold under the current catalog price. Offerors unable to submit commercial invoices that correspond to the current catalog price may submit other invoices but the offeror must also submit the concurrent catalog price list in effect at the time of the invoice(s). All submitted invoices must identify a manufacturer's part number that is referenced in the commercial catalog and proposed under the solicitation. The government must be able to perform an analysis of the invoices and the corresponding price list to determine the commercially afforded discount, if any. Invoices that deviate from these criteria must be accompanied with supporting documentation that clarifies the invoice price compared to the catalog price to determine the commercially afforded discount, if any. The documentation must adequately support the invoice price for the base unit and all base unit options that may or may not be itemized on the invoice. Invoices must not be altered or redacted in any manner. The government reserves the right to request additional invoices at any time during the evaluation process.

- 5.) <u>Discount Structure</u>: Must identify the standard discount structure for customers and/or dealers. If different discount arrangements exist for different classes of customers or dealers, a detailed explanation of the discount for each such customer or dealer is required.
- 6.) Dealers and suppliers, other than the manufacturer, that wish to be considered for an award must submit an original letter of commitment from the manufacturer specifically addressing the products or product line, the offeror and the solicitation. The Original Equipment Manufacturers (OEMs) letter of commitment must confirm that "the offeror is the OEM's sole representative for the contract". The OEM's letter of commitment must include assurance "to provide the offeror a guaranteed, uninterrupted source of supply sufficient to satisfy the Government's requirements for the contract period". Manufacturer's letters of commitment for the same products or product line from more than one offeror will render all offerors for that manufacturer's products or product line unacceptable.

# **WARRANTY REQUIREMENTS (Optional)**

FAR 12.404(a) requires contracting officers to take advantage of commercial warranties. Accordingly, offerors are requested to submit with their proposal an express warranty, offering the Government at least the same warranty terms, including offers of extended warranties, offered to the general public in customary commercial practice. Offerors must indicate in their proposal whether the express warranty is in lieu of, or in addition to, the implied warranties of merchantability and fitness for a particular purpose contained in FAR 52.212-4(o).

# Any Express warranty must meet the following minimum terms:

- 1.) The equipment purchased under the contract will be sold by DLA Troop Support to our customers in the Military Services and Federal Agencies, and possibly State and/or Local governmental entities. Any proposed express warranty must apply to these subsequent users or purchasers.
- 2.) Any proposed express warranty must cover the equipment including if it is used or operated outside the United States. The warranty may not require equipment outside the United States to be shipped back to a domestic facility for repair.

- 3.)FAR 52.212-4(p) in the RFP states that "Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items." Language in a proposed express warranty attempting to further limit Contractor's liability to the Government, or attempting to limit Contractor's liability to third parties, may result in rejection of the offeror's proposal, or in the inclusion of a statement in the resultant contract that the express warranty applies only to the extent not prohibited by law or regulation.
- 4.) The warranty period must be in effect from the date of purchase or the date of delivery under the Troop Support delivery order. Earlier dates, such as the date of manufacture or date of delivery to the manufacturer's dealer, are not acceptable.
- 5.) The warranty shall provide that Federal law applies, rather than the law of a State or other jurisdiction.
- 6.) The express warranty may not make the customer liable for taxes. FAR 52.212-4(k) provides that the contract price includes all applicable Federal, State, and local taxes and duties.
- 7.) If the warranty requires the customer to return a registration card or form, the customer must be given at least ninety (90) days from the date of delivery to do so.

A comprehensive (line by line) Model Pricing and Discount Information Excel spreadsheet is shown as Attachment #1 in the solicitation. Offerors are required to download the Excel spreadsheet from https://www.dibbs.bsm.dla.mil/ complete it, and <a href="submit it in hardcopy form and as a compact disc (CD) with their proposals">submit it in hardcopy form and as a compact disc (CD) with their proposals</a>. It is also included as an attachment to this PDF (paperclip).

E-mail submissions are not acceptable.

<u>Discounts:</u> The discount pricing relationship shall be maintained throughout the five-year contract period. Contract pricing will be based on catalog price minus discount. <u>The amount of the discount offered should be greater than or equal to the discount offered to your most favored customer, unless adequately justified.</u> At any time, the contractor can offer discounts greater than the discounts negotiated in the contract.

### **Established Catalog Price**

- 1.)As used herein, the term "established catalog price" is one for which a current catalog is maintained by the contractor for sales to the general public (or the manufacturer, if the contractor does not manufacture the item).
- 2.) By signing the proposal the contractor represents:
  - (a) That the items to be delivered under any resulting order are supplies for which there is a catalog price.
  - (b) Any differences between the catalog price and or the contract price may be because of the requirements of the RFQs such as preservation, packaging, additional requirements for overseas shipments, or the amount included for extended warranty, transportation, and any additional discount.
  - <u>Note:</u> Special catalogs or price lists developed for the purpose of offering on this solicitation and showing only net prices to the Government or reference to previous submissions, are **NOT** acceptable.
