

Hall of Fame Inductees

DORA TORITTO

Is being inducted into the Defense Supply Center Philadelphia Hall of Fame for her continuous outstanding mission support from 1962 through 1993. Ms. Toritto distinguished herself as Deputy of Medical's Emergency Supply Operations Center. She supervised the ESOC workforce which operates seven days a week, 24 hours a day. When world disasters or humanitarian relief efforts required extended hours, she personally ensured the office was staffed to handle the job. To this day, the Medical ESOC is considered unique, due to the urgent nature of the requirements. Ms. Toritto successfully conveyed the importance of the office and was able to secure exclusion of the office in the standardization of the DLA ESOCs. She is an inspiration to all and her legacy established a model for employees to follow. Her contributions have remained long after her retirement.
