

The logo consists of a dark blue rectangular box with a thin black border. Inside the box, the words "Hall of Fame Inductees" are written in a white, sans-serif font, centered horizontally and vertically.

FREDERICA MORENO

Is inducted into the Defense Supply Center Philadelphia Hall of Fame this second day of June 1998 for her extraordinary leadership and support as Chief of the Administrative Services Branch in the Directorate of Medical Materiel and for her continuous outstanding mission support throughout her tenure at DSCP from 1955 to 1993.

Ms. Moreno paved the way for future automation efforts in the Medical Directorate. She obtained one of the first personal computers in the directorate and contracted a systems analyst to design and install user friendly spreadsheets and databases to replace the paper system used to control personnel actions. As a result, the reconciliation of travel funds usage and availability, which previously took eight hours to accomplish, could be computed in seconds. Her dedication, hard work and responsiveness to mission needs and customer support were legendary throughout the Center and integral in Medical.
