

Hall of Fame Inductees

ROBERT P. POWELSON

Is inducted into the Defense Industrial Supply Center Hall of Fame this twelfth day of December 1997 for his extraordinary leadership and support as Director of the Technical Operations Directorate and for his continuous outstanding mission support throughout his tenure at DISC from 1983 to 1991. Mr. Powelson established a Blanket Purchase Agreement (BPA) to obtain technical data that reduced Administrative Lead Time for the purchase of drawings and permitted DISC to be less reliant on the military services for acquisition of technical data. A strong proponent of quality management, he established a quality environment for his directorate and consolidated the catalog function into a single division to better support our military customers.
