

Hall of Fame Inductees

WILLIAM CHU

Is posthumously inducted into the Defense Personnel Support Center Hall of Fame this third day of June 1997 for his extraordinary leadership and support as Deputy Director of Defense Subsistence Region Europe – and for his continuous outstanding mission support throughout his tenure at DPSC – from 1960 to 1982.

Drawing on his extensive food-management experience, Mr. Chu helped build DSR-Europe from scratch. He arranged for payroll, telecommunications, computer support, furniture and hiring of new employees. Starting with just two employees, the command ultimately grew to over 900. His tireless work significantly improved the reputation of the command, and support to his customers. He also improved the European commissary support program, started cold-storage modernization, and created an effective field activity to support fresh fruit & vegetable purchases.
