

## FACT SHEET

SUBJECT: Global Campaign Plan – Distribution (OPLAN 9033)

BACKGROUND:

- USTC led effort
- The intent of 9033 is to establish a process, using a five paragraph operations order format, to tackle Global Distribution Network issues that arise during the support of COCOM numbered OPLANS.
- Six lines of efforts (LOEs) have been identified; DLA is responsible for optimizing global material positioning.

DISCUSSION:

- DORRA participated as a member of DLA writing team, analysis issue identification working group, analysis working group, and LOE working group.
- 9033 OPLAN has been approved
- DORRA represents DLA as a part of the Analysis Issues Identification Working Group, and is currently submitting issues from a literature search of JLLIS, and from our engagement in recent strategic levels initiatives and studies, such as CMRP, JS JIC, and the Decade of War study.
- Identified issues will vetted with the other working groups, and will then be submitted for tracking and resolution via a decision support tool.

RECOMMENDATION: None. For information only.
