

## FACT SHEET

SUBJECT: D2 – DLA Distribution and Disposition Process Consolidation

BACKGROUND:

The D2 team was tasked by the DLA Director to review functions performed at Distribution and Disposition locations. Identify opportunities for efficiencies, such as eliminating duplication at co-located sites. Expected Deliverables and notes:

- Develop COAs that would maximize savings, efficiency and Warfighter support (effectiveness).
- Present 2-3 options on how this could be accomplished.
- Note: Intent is both commands remain separate PLFAs.
- Note: Utilize existing studies, process maps, etc., in this effort.

DISCUSSION:

The team will present of list of actions that can be initiated to eliminate redundancies and create efficiencies at co-located distribution and disposition sites. The approved actions will be applied across the co-located sites.

- DORRA will lead the onsite analysis and process review at Anniston Alabama and Norfolk, Va.
- Analysis and process review will be site specific but should incorporate DLA Enterprise actions where appropriate and identify contingencies and variables to be consider in addressing enterprise recommendations.

RECOMMENDATION:

DORRA participated in this effort, filling analytical roles described above. OPORD 14-02 has been drafted and is being circulated for comments based on this study and the associated DORRA analysis.

Attachment: None.
