

APPENDIX A-85

DEMAND VALUE CODES

1. Number of characters: One.
2. Type of code: Alpha.
3. Explanation: A categorization of items based on the dollar value of forecasted annual demand using Acquisition Unit Cost. Items are reviewed annually for replenishment demand type items. Whenever a Demand Value Code is changed in the SCF, a Demand Value Code is changed in the NIR. This code is the second digit of the appendix A-60, Fund Classification Code (FCC).
4. The following codes are assigned:

<u>SCF</u> <u>CODE</u>	<u>NIR</u> <u>CODE</u>	<u>DEFINITION</u>
	A	Very Important Program Item.
H	B	High Demand Value Item - A Replenishment demand item with a dollar value forecast of annual demand of over \$4,500.00.
M	C	Medium Demand Value Item - A Replenishment demand item with a dollar value forecast of annual demand of \$400.01 through \$4,500.00.
L	D	Low Demand Value Item: a. A Replenishment demand item with a dollar value forecast of annual demand of \$0.01 through \$400.00. b. All NSO Type Items (Item Category Code 2 or B).
	E	Decentralized (SSC 2).
	F	Noncataloged Item (SPUR), automatically assigned and not in NIR.
	Z	Nonstocked Item (SSC 3/9).
