

APPENDIX A-112

TYPE OF DEMAND CODES

1. Number of characters: One.
2. Type of code: Numeric.
3. Explanation: Indicates the basis for the forecast of the estimated demand quantity in the Logistics Reassignment Gain File (LRGF). The code is provided through the catalog change process. It indicates the basis for a demand quantity in items logistically reassigned.
4. The following codes are assigned:

<u>CODE</u>	<u>EXPLANATION</u>
1	Demand based on actual issues for past 12 months.
2	Estimated demand is a 12-month demand forecast not supported by actual issues.
3	Demand recorded against a preferred item (to be used in conjunction with Acquisition Advice Code V or Y when estimated demand is zero filled).
4	Recommended stockage objective.
5	None of the above.
