

APPENDIX A-131

RETENTION REASON CODES

1. Number of characters: One.
2. Type of code: Numeric.
3. Explanation: This code is entered in pos. 37 of the Inactive Item Review Notification Transaction DIC CZR/CZF. Reviewing activities enter this code to depict the reason for retention of a potentially inactive item.
4. The following codes are assigned:

<u>CODE</u>	<u>EXPLANATION</u>
1	<u>Active Item.</u> Valid requirements for items which do not necessarily create demand within the specified time periods, but which are deemed essential to current or future mission requirements (i.e., identified MOB Reserve items; items used only in the International Logistics Program, or having requirements unique to a service).
2	<u>Semiactive Item.</u> A potentially inactive NSN which must be retained in the supply system because stocks are on hand or in use below the wholesale level or in use assets are being reported.
