

APPENDIX A-148

PROCUREMENT GROUP CONTROL RECORD
GFM RESERVATION INDICATOR

1. Number of Characters: One.
2. Type of Code: Alpha/Numeric.
3. Explanation: These codes are system originated and maintained and identify the status of end-item PGC buys and the associated GFM reservations. Note, however, there are two codes assigned when there is no GFM involved. These codes will be displayed in the GFM Reservation Field of the Procurement Group Control Record of the Government Furnished Materiel Suspense File (GFMSF) for a specific PGC and Recommended Buy Date, and may be accessed via appendix E-287 P, GFM Suspense File Inquiry by CRT Remote (Verb SRGF).
4. The following codes are assigned:
