

APPENDIX A-175

REFERENCE NUMBER STATUS CODES

1. Number of characters: One.
2. Type of code: Alpha.
3. Explanation: These codes are used to indicate whether the manufacturer is a source of procurement and whether the number is required for identification in the Procurement IFB.
4. The following codes are assigned:

| <u>CODE</u> | <u>EXPLANATION</u>                                  |
|-------------|---|
| A           | Suitable for Procurement.                           |
| B           | Unsuitable for Procurement.                         |
| C           | Unsuitable for Procurement but required in the IFB. |
| D           | Procurement Suitability not determined.             |

NOTE: See DRN 2923.
