

APPENDIX A-191

SUPPLY MANAGEMENT APPLICATION RECYCLE INDICATOR CODE

1. Number of Characters: One.
2. Type of Code: Alphabetic.
3. Explanation: These are system generated codes (DRN A180) to provide status to the Supply Management Application on records in the Recycle Control File which require additional action at a later date.
4. The following codes are assigned:

<u>CODE</u>	<u>DEFINITION</u>
F	FSC change pending without change in management - Change FSC in Supply Management Status File (SMSF) on effective date.
L	Logistics loss pending - Remove record from SMSF on effective date.
R	Cancellation or withdrawal of all users pending - Remove record from SMSF on effective date.
W	Withdrawal of all users pending - Generate LDM to remove management data effective one month after last user withdrawn and change Recycle Indicator to R.
A	Cancel-duplicate pending - Generate LCM to add Phase Code A effective same date as cancellation and change Recycle Indicator to R.
V	Cancel-invalid pending - Generate LCM to add Phase Code V effective same date as cancellation and change Recycle Indicator to R.
Z	Cancel-use pending - generate LCM to add Phase Code Z effective same date as cancellation and change Recycle Indicator to R.
D	FSC change pending without change in management (DPSC-Medical only) - Add new NSN to System Support Table 77, add FSC to System Support Table 80, if required, and change Recycle Indicator to F.
