

APPENDIX F-76

NAVY REQUISITIONS BY SSD

1. PURPOSE

To provide a means of determining the degree to which Navy requisitioners are adhering to DLA/Navy agreements to support CONUS Naval shore activities from stocks positioned at Norfolk/Oakland SSD whenever the Navy requisitioner is located within a 35-mile radius of the SSD.

2. ORIGIN

a. The open Requisition History File is mechanically scanned for D7B post-post issue transactions and DIC A4\_ referrals from Norfolk and Oakland to the DSCs. Selections are limited to D7B/A4\_ transactions with Service Code N in pos. 30, thus, excluding by design ships and Navy vessels identified with Service Code R or V in pos. 30.

b. The F-76 is a two part report. Part 1 (F-76A) is a mechanically generated statistical summary of selected data output monthly.

c. Part 2 (F-76) consists of detailed data by requisitioner, document number, stock number, quantity, UI, and demand RIC, retained in the computer for printout only on an "as required" basis, based upon a request from MSO, DSO to ODS for same.

3. FREQUENCY

Monthly, during monthend processing.

4. FORMAT

a. Heading Line (Standard Identification).

b. Data Organization.

(1) Sequence:

(a) Major: Authorized/Unauthorized Requisitioners, separately by the Norfolk SSD or by the Oakland SSD.

1. Authorized Requisitioners: Determined by selecting and counting DIC D7B and A4\_ transactions with Activity Address Codes (AAC's) in pos. 30-35 that also have clear text ZIP codes commencing with any one of the numerics listed below, along with a demand location of NN\_ if Norfolk or NO\_ if Oakland.

a. Norfolk SSD: ZIP codes 23185, 233\_\_ through 237\_\_, 0634\_, and 09\_\_ apply.

b. Oakland SSD: ZIP codes 940\_\_ through 950\_\_, 962\_\_ through 966\_\_, and 987\_\_ apply.

2. Unauthorized Requisitioners: Determined by selecting and counting DIC D7B and A4\_ documents with ZIP codes other than those cited above with or without a demand location of NN\_ or NO\_; or with any one of the cited ZIP codes with a demand location of NN\_ or NO\_.

(b) Secondary sequence by DoDAAC of the requisitioner.

(c) Tertiary sequence by DIC. DIC D7B will be listed first; DIC A4\_ will be second.

NOTE: In part 2, all D7Bs will print first, followed by all A4\_s. In part 1, D7Bs and A4\_s will print in that order within AAC.

(2) Spacing: Single-spaced except between authorized/unauthorized.

(3) Page Break: By overflow and by SSD.

(4) Required Totals:

(a) Subtotals by D7Bs, A4\_s, and D7B/A4\_ (combined) per AAC (authorized and unauthorized).

(b) Summary total all D7Bs, A4\_s, and D7B/A4\_ (combined) by authorized and again by unauthorized.
