

APPENDIX F-154
LARGE SPR LISTING

1. PURPOSE

To notify the IM when an SPR has been received from a Forecasting Activity for a quantity greater than twelve months anticipated demand for an NSN.

2. ORIGIN

Prepared during the SPR edit and validation process.

3. FREQUENCY

Daily, as part of the daily Requirements Cycle.

4. FORMAT

a. Heading Line:

- (1) Report No. - F-154.
- (2) ORC - Output Routing Code of the IM, as assigned in the NIR.
- (3) Title - Large SPR Listing.
- (4) Page - Page number.
- (5) Date - Date of preparation.

b. Data Organization:

- (1) Sequence by NSN within ORC.
- (2) Page break by ORC.

c. Captions of Data Elements:

- (1) DIC - Document Identifier Code of the submitted SPR.
- (2) NSN - National Stock Number of the item.
- (3) DOC NO. - Forecasting Activity and Serial Document Number.
- (4) QTY - Forecasting quantity.
- (5) SPT DATE - Year and month of Support Date.
- (6) STATUS CD - Status Code on outgoing DIC DYK.

5. DISTRIBUTION AND RETENTION

One copy to the IM.

6. PROCEDURES FOR REVIEW AND PROCESSING

The IM should take the usual actions associated with a potential problem support area. This could include obtaining an SCS for the affected item, if necessary, and contacting the Forecasting Activity to confirm the validity and timing of the anticipated requirement. Advance knowledge of such a sizeable requirement may prevent it from becoming a problem later.
