For all Air Force reports/products which contain two or more applicable RICs (i.e., mixed managed), or which contain blank RICs, mail these reports/products to HQ AFLC/MMM, WPAFB, OH 45433-5003 for appropriate dissemination and subsequent actions as required. Air Force War Reserve Reports will be distributed IAW MILSTRIP Routing Identifier Codes, DoD 4140.17M Supplement No. 1 and for AF War Reserve reports to RICs FF\_, FG\_, FH\_, FL\_, and FP\_, add attention line: ATTN: MMR to the in-the-clear addresses.

## 6. PROCEDURES FOR REVIEW AND PROCESSING

a. The monitors in the MSO, DSO will research source data and obtain the corresponding RICs for the previous year's submission wherever available, and include these in the verification requests. The submitting Services will be furnished two copies of the report with an accompanying letter requesting verification that the requirements are no longer required or submission of new requirement for any overlooked WMR submissions.

b. The monitors will contact the respective submitting activity via letter with appendix F-172 attachments advising that those items listed had previous year's WMR for which the DSC failed to receive a current year's submission. Request verification of whether this was an intentional omission because the item is no longer required in their WMR1 or whether the oversight is unintentional and there should and will be a submission for this year's WMR.

c. Where exclusions were unintentional, the submitter is requested to submit new DIC DM\_ series documents reflecting WMR to be included in the current computation.

d. When all actions have been completed for a Service's report, annotation and filing may be accomplished on the monitor's copy and retained as source data and information until the replacing report is issued.
