The Inventory Accounting Branch will review this report on a monthly basis to evaluate the storage activity and Service inventory accomplishment by Weapon System Indicator Code (WSIC). By reviewing the Low IP Inventoried and High IP not inventoried for each WSIC and comparing to the quarterly F-335, the DSC can determine if the storage activity is placing emphasis on the highest IP NSNs. MMDOI will monitor DLA-wide complete inventory accomplishment and alert DSCs/Storage activities for necessary adjustments.
