

APPENDIX B-270

RECEIPT CONFIRMATION FOR MATERIEL OBLIGATION VALIDATION (MOV)
REQUEST AND NOTICE OF NONRECEIPT OF TOTAL BATCH OF MOV TRANSACTIONS

1. The DIC AP9, Receipt Confirmation for Materiel Obligation Validation (MOV) Request, is used to acknowledge receipt of scheduled MOV Requests (DIC AN_s, appendix B-13) by annotating the DIC AN9/Z (appendix B-271) as DIC AP9, entering the information as shown below, and returning the DIC AP9 to the supply source from which it was received. The acknowledgement (DIC AP9) will be returned by AUTODIN, whenever possible regardless of receipt by mail or AUTODIN.
2. The DIC APX, Notice of Nonreceipt of Total Batch of MOV Transactions, will be used by receiving activities which have not received the total number of transactions indicated in the MOV Control Transaction (DIC AN9/Z). Those activities receiving an incomplete batch of DIC AN_s will so advise the supply source by annotating the DIC AN9/Z as DIC APX, entering the information as shown below, and returning the DIC APX to the supply source from which the validation requests were received. DIC APX is processed mechanically and will provide a complete replacement batch of DIC AN_s. A replacement batch of DIC AN_s will be transmitted under the appropriate Control Transaction, i.e., DIC AN9 or ANZ.
3. This document can be processed through SAMMSTEL by entering Verb SODE as described in DLAH 4745.2, Volume I, Part 1, DLA Remote Users Handbook.
4. The following fields apply:

<u>FIELD LEGEND</u>	<u>FIELD POSITIONS</u>	<u>EXPLANATION/INSTRUCTIONS</u>
