**SEGMENT R
DLA FORM 1336

<u>FIELD LEGEND</u>	<u>FIELD POSITIONS</u>	<u>EXPLANATION/INSTRUCTIONS</u>
Expansion Field	1-3	Leave blank.
Package Sequence Number	4-6	*Enter sequence according to number of records in a transaction package.
DIDS Segment Code	7	Enter R.
DRN	8-11	Enter applicable Output Data Request Code (ODRC) selected for interrogation (appendix E-429 P).

*The PSN is constructed of an Alpha A-Y in the first position and 01-99 in the next two positions. The first segment record in a transaction package will begin with A01; the second A02; the third A03, and so on. The last segment record in the package will be assigned a Z in the first position and the next sequential number in the next two positions. If a transaction package consists of only segment record, the PSN Z01 will be assigned to the record.

**If additional DRNs are required to indicate multiple output data request code DRNs to acquire the required TIR segment mix, the complete segment R must be reported for each additional Data Request Code DRN. A maximum of three segment Rs may be submitted.

***For Supply Operations the first position of the Document Control Serial Number will be Alpha O. This will be followed by the ORC of the submitter. The last four positions must be alpha or numeric filled. Must not be repeated for another transaction package on same date.
