

APPENDIX E-009 P

FREIGHT CLASSIFICATION (SEGMENT G) REPORTS/VIOLATIONS

1. PURPOSE

The prime depots (MOWASP) will be generating DIC/CBB NSN reflecting Freight Classification Data via AUTODIN to the MOWASP Data Bank, in turn generating a DIC/CBC to the SAMM System. These data will be monitored by the DSC for approval, changes and deletion before updating DLSC files. These data will be suspended in SAMMS for review by all center personnel. The following reports, listed below will be generated weekly and monthly or by request to maintain Freight Classification Suspense File.

2. APPENDIX USED IN THIS PROCESS

Appendix F-58/F-58A/F-58B/F-58C/F-58D, Freight Classification Control File Aging Report.

3. RESPONSIBLE ORGANIZATION ELEMENT - DSC Center Support Branch.

4. PROCEDURES/INSTRUCTIONS

a. The F-58 Freight Classification Control File Aging Report is generated Weekly. This report is used as a management tool to validate and approve, change or delete as depicted in appendix B-183.

b. F-58A, Freight Classification Sensor Report is to provide management with a status report of the item in the suspense file by category.

c. F-58B, Freight Classification Completed/Confirmed via DLSC. Upon receipt of a DIC/KNA DLSC approved, SAMMS will clear the suspense file and print the F-58B. This report will reflect only those items with Action Taken Code. FX automatic generated via SAMMS. This report will be manually screened and corrective action taken if required as depicted in DLAM 4140.2, Volume II, Part 3.

d. F-58C, Freight Classification File Maintenance Reject Listing. This report will reflect those DIC/YDC appendix B-183 that violated. These violations/rejects reflected are in the Remarks Block of this report.

(1) (NSN - Unmatched) This will require a manual screening of the input for Four-Phase error, NSN was written/invalid and/or NSN was not in suspense file. If error is detected/found resubmit DIC/YDC.

(2) (Freight Data Not Present) If error is detected/found resubmit DIC/YDC with valid change data.

(3) (Type Action Code Invalid) Action Taken Code must be FA, FD, FC and FP. If error is detected/found resubmit DIC/YDC if required.

(4) (Invalid/Duplicated Action) This indicates action has been initiated to generated LAF action to DLSC and/or multiple YDC. Validate action from the F-58 listing and resubmit if required.

e. F-58D, Freight Classification Pending DLSC Response. This report is screened for NSN still pending DLSC DIC/KNA approval. If NSNs in question is still pending DIC/KNA approval, screen F-300, F-304 and F-85 reports and resubmit based on DLAM 4130.3, Volume II, Part 12, or DLAM 4140.2, Volume II, Part 3. Generated by YDC/FP.
