

APPENDIX E-105 P

ITEM WAR RESERVE STUDY/TOTALS FILES INQUIRY DOCUMENT

1. PURPOSE

This procedure is applicable to chapter 59, The War Reserve Program, and provides the mechanical build of the Item War Reserve Study File and the Item War Reserve Totals File (IWRSF/IWRTF) resulting from computations, and the daily validation/edit and processing of the appendix B-105, Item War Reserve Study/Totals Files Inquiry Document, DIC ZSB.

2. APPENDICES USED IN THIS PROCESS

- a. Appendix A-42, Action Codes.
- b. Appendix A-82, Violation Reason Codes.
- c. Appendix B-105, Item Nonreserve Study/Totals Files Inquiry Document.
- d. Appendix E-105 V, Item War Study/Totals Files Inquiry Document Violations.
- e. Appendix F-122, Controlled Violation Listing.
- f. Appendix F-176, Item War Reserve Study Totals Files Printout.

3. RESPONSIBLE ORGANIZATIONAL ELEMENT

The War Reserve monitors in the Management Support Branch, MSO, DSO, is responsible for actions/procedures/processes herein described.

4. PROCEDURES/INSTRUCTIONS

a. This procedure prepares the IWRSF/IWRTF resulting from each computation and reflects these results on the appendix F-176, Item War Reserve Study, for both the monitors in the MSO and the DP&P, Industrial Production Planning branch. Reports resulting from computation will be prepared in an abbreviated format for the NSN product which will include computation information through the Systems Analysis Sections only.

b. The daily inquiry capability to request data from the IWRSF/IWRTF is accomplished by submitting an appendix B-105, Item War Reserve Study/Totals Files Inquiry Document, DIC ZSB, IAW applicable Action Codes, appendix A-42. Certain areas may be requested, for example, recurring, nonrecurring, allied forces, separate, cumulative, or totals may be queried. Additionally, requests for these inquiries will be prepared on appendix F-176 Reports when they have resulted from inquiry requests as opposed to computational processes.

c. Certain products are unique to only C&T and others to the hardware DSCs. The NSN and DSC Summary reports occur at all centers, while FSC summaries will never occur at C&T. While NSN requests at C&T must have the applicable MIIG for the NSN only at that DSC. The PGC and MIIG summaries can only occur at C&T. Additionally, for any DSC total summary request, the report is printed on appendix F-176A with caption GRAND TOTALS as opposed to the computational product counter part which will be titled appendix F-176T with caption TOTAL.

d. Those input which fail validation/edit criteria will violate to the requester bearing the applicable VRC, appendix A-82, to be processed IAW appendices E-105 V and E-066 P, as necessary.

5. FLOWCHART

A flowchart is not required.
