

APPENDIX E-406 P

TOTAL SYSTEM RECOMMENDED BUY/REPAIR AGING REPORT

1. PURPOSE

This appendix is applicable to chapter 3 and describes the method for processing the Total System Recommended Buy/Repair Aging Report.

2. APPENDICES USED IN THIS PROCESS

Appendix F-235, Total System Recommended Buy/Repair Aging Report.

3. RESPONSIBLE ORGANIZATIONAL ELEMENTS

The IMs in the Commodity Branches within DSO are responsible for processing the Total System Recommended Buy/Repair Aging Report.

4. BACKGROUND

The Total System Recommended Buy/Repair Aging Report is output to provide a summary of Recommended Buy/Repair reflecting those less than five days (Part I) and those over five days old (Part II). The report is updated and output on a weekly cycle. The report is printed in FSC sequence within ORC with a double space between FSC. The report provides a Summary Total of Demand Value Codes by type of recommendation within FSC, and subtotal by type of recommendations for all NSNs within ORC plus grand total by type of recommendation for all FSCs in the system.

5. PROCEDURES

The IM will utilize the report to review and analyze daily workload and for determining disposition action required for overage recommendations.

6. FLOWCHART

Flowchart not required.
