

APPENDIX E-528 P

POTENTIAL USER INTEREST LISTS

1. PURPOSE

This appendix is applicable to chapters 46 and 52 and describes the methods and criteria to be followed when processing the Potential User Interest Lists.

2. APPENDICES USED IN THIS PROCESS

a. Appendix B-85, NSN Automatic Recording of User Interest Transaction.

b. Appendix C-9, Department of Army Supplementary Data Receivers Weapons Systems Designator Code (Table 72).

c. Appendix F-83, Potential User Interest List.

3. RESPONSIBLE ORGANIZATIONAL ELEMENT

The Management Support Office (MSO) within the Directorate of Supply Operations (DSO) is responsible for the completion of the procedures described by this appendix.

4. PROCEDURES/INSTRUCTIONS

a. Monthly, the Office of Data Systems (ODS) will identify Defense Supply Center (DSC) managed National Stock Numbers (NSNs) which have experienced three or more demands during the past six months and were not recorded as users. The Air Force will be recorded after one demand. These NSNs will be printed out in the format of appendix F-83 (Potential User Interest List) four copies will be forwarded to DSO.

b. Monthly, ODS will, for each applicable NSN for all FSCs for the Army, Navy, Marines, Air Force and Coast Guard, automatically record that Service as a user for that NSN in the TIR with an internally generated DIC LVA action.

c. The Federal Aviation Administration (FAA) will not be automatically recorded as users of any NSNs.

d. For FAA Requisitions, ODS, in addition to the F-83 listing, will generate a prepunched/preprinted LVA transaction in the format of appendix B-102 B which will be forwarded to the DSO. The LVA transaction will be reviewed to assure that the NSN matches to the F-83 Listing. If the NSN is not on the Listing, discard the LVA. If the NSN is on the listing and there is no LVA, manually prepare an LVA IAW appendix E-102 P. Frequent occurrences of the above should be referred to Office of Planning and Management for research to determine if a system problem exists. Valid LVA transactions will be held in suspense pending replies from FAA.

e. The Management Support Office (MSO) will distribute two copies of the Potential Users Interest List as follows:

- (1) F-083A - Information Potential User Interest List, and
- (2) F-083B - Referral Potential User Interest List:
