GENERAL ORDER

NO. 27-98

September 28, 1998

I. Authority: Approval of the Chief Information Officer (CIO).

II. References:

- A. HQ DLA General Order No. 1-98, dated January 6, 1998.
- B. HQ DLA General Order No. 43-94 dated August 2, 1994.
- C. HQ DLA General Order No. 31-93 dated November 29, 1993.

III. Pursuant to cited authority and effective October 11, 1998, the Defense Automatic Addressing System Center (DAASC) is established as a Business Support Unit (BSU) of the Chief Information Office (CI) and will report to the DLA Chief Information Officer (CIO). A BSU is a centralized DLA field activity performing policy implementation and/or support functions. BSUs receive administrative support from a support activity, but are under the direct supervision of a Deputy or Executive Director, or their designee. A BSU is responsible for its own performance plan, and FTE/budget execution identified by its parent (HQ) organization.

IV. DAASC designs, develops, tests, implements, operates, and maintains systems to provide connectivity and logistics systems interoperability. The mission, objectives, and resources currently performing these DAASC functions in the DLA Systems Design Center (DSDC) will transfer, in place, to DAASC.

V. DAASC will negotiate inter-service support arrangements for administrative support from current sources.
