ADMINISTRATOR, DLA ADMINISTRATIVE SUPPORT CENTER

SUBJECT: Travel Orders

DoD dictates that only Government-issued firearms and ammunition may be carried by DoD personnel while performing official duties. Recently, many states have relaxed their requirements for permits for private citizens to carry concealed firearms. As a result, we have received inquiries from employees concerning the carrying of firearms while traveling or working for DLA. In order to inform our employees of this prohibition, the following statement will be included in the "Remarks" section of all travel orders effective immediately:

*"Privately-owned weapons may not be transported in conjunction with travel".*

**No exceptions to this policy will be granted.** Questions from travelers regarding the prohibition should be directed to their activity Command Security Officer. Please call Deborah Beckner at (703) 767-3622, or DSN 427, if further assistance is needed.
