MEMORANDUM FOR PROCLTR DISTRIBUTION LIST

SUBJECT: Interest Rates

The attached tables show the latest quarterly and semiannual interest rates established by the Secretary of the Treasury for pre and postaward Government contracts. Quarterly Section 6621 interest rates (Attachment 1) are used to compute interest on overpayments for Government contract price adjustments, including defective pricing. The overpayment rate will remain at 8 percent. The underpayment rate will remain at 9 percent. The rates are the same as the prior period. These rates are effective for the quarter October 1 - December 31, 1997. The Quarterly Treasury rates are issued in news releases made approximately 15 days prior to the start of each calendar quarterly period. Shortly after issuance of the news releases, they are made available on the Internet. Select the latest release under the topic "Quarterly Interest Rates" and click the retrieve button (<http://www.irs.treas.gov/news/nandf.html>).

The semiannual Renegotiation Act (Public Law 92-41) interest rate (Attachment 2) is used to compute interest applicable to determinations under the Contract Disputes Act, the Prompt Payment Act, and for standard clauses requiring interest determinations. The Cost Accounting Standards (CAS) utilize this rate in calculating the cost of money for facilities capital (CAS 414); present value of future benefits for deferred compensation (CAS 415); the alternate rate for present value of future payments for losses for insurance costs (CAS 416); and the cost of money for capital assets under construction (CAS 417). A 6.75 percent rate was established for the period July 1 - December 31, 1997. The Prompt Payment rates may also be found on the Internet (<http://www.fms.treas.gov/prompt.html>).

This PROCLTR is effective immediately and expires when superseded, but in no event later than 1 year after the issue date. PROCLTR 97-21 is hereby canceled. Questions should be directed to Jerry Gilbert, MMPPB, (703) 767-1350, or DSN 427-1350.
