## APPENDIX B12

### DISTRIBUTION CODES

NUMBER OF CHARACTERS:	Three.
TYPE OF CODE:	Alpha/Numeric.
EXPLANATION:	An alpha or numeric entry in rp 54 requires a decision as indicated in this appendix.
RECORD POSITION(S):	54-56.
POSITION 54:	Activities eligible to receive additional status and assigned codes.
POSITIONS 55-56:	Internal S/A use.

**A. Use of Distribution Codes.** The distribution field is a **three-position** two-part field of which the first part (rp 54) is significant and will require a decision when the entry is alphabetic or **an** assigned numeric. When an alphabetic or assigned numeric entry is contained in rp 54, the activity designated by the entry will be furnished 100 percent supply and shipment status on all priorities in addition to status furnished using the **M&S** entry in rp 7. When rp 7 is **M&S** 0,8, or Y the activity designated in rp 54 is responsible for furnishing status to other status eligible recipients. The second part of the field (rp 55-56) is discretionary for other types of internal control. **The distribution serves only to indicate an addressee to receive status (including MOV requests) and may be changed only by submission of a DI AM\_ requisition modifier.**

1. A numeric entry in rp 54 which is not assigned **on an inter-Component basis by the DoD MILSTRIP Administrator** will be nonsignificant to the system but will always be perpetuated in other transactions.

2. An alpha **character** or assigned numeric entry is significant and will always be perpetuated in other transactions. **[Text deleted.]**

3. **Alphabetic or numeric** entries in rp 55 and 56 **[text deleted]** will not require decisions, but will always be perpetuated in other transactions.

**B. Assignment and Maintenance of Distribution Codes.** **Distribution codes are assigned to identify the activities to receive 100 percent supply and shipment status for all priorities designators in addition to the status to be furnished using the M&S in rp 7.**

1. **Alphabetic distribution codes are assigned by the Component coordinator as identified by the Service/Agency code from appendix B2 and a DoDAAC.**

2. **Numeric distribution codes are controlled by DLMSO and will not be used by the Components without prior approval of DLMSO. Whenever a numeric code is assigned for inter-Service use, a request for implementation date for an approved MILSTRIP change will be staffed with the Components. In addition, numeric distribution codes are nonsignificant**

unless they are assigned by the DoD MILSTRIP System Administrator for inter-Component use.

3. Each Component coordinator listed under paragraph D., below, will ensure currency in code assignments. Additional assignments, revisions, or deletions of distribution codes, with the exception of codes used with Service Code H, will be requested from the DAASC for update of the central file. Requests for assignment of Service Code H distribution codes will be requested from the DoD MILSTRIP Administrator by mail (ATTN: DLMSO (J-673), Defense Logistics Management Standards Office, 8725 John J Kingman Road, Ft Belvoir VA 22060-6217) or electronic mail ([vermella\\_savage@hq.dla.mil](mailto:vermella_savage@hq.dla.mil)).

4. The DAASC ([www.daas.dla.mil](http://www.daas.dla.mil)) will maintain the distribution code file and will serve as the focal point for all file revisions. Use <http://daynt6.daas.dla.mil/dodaac/dc.htm> to interrogate the distribution code file. Use [http://www.daas.dla.mil/daashome/daasc\\_reports.htm#publications](http://www.daas.dla.mil/daashome/daasc_reports.htm#publications) to obtain a listing of assigned distribution codes by month. Select 'MILSTRIP Distribution Codes' from the drop-down box and the applicable month. Each report displays the 'as of' date for the codes listed.

C. Numeric Distribution Codes. Current use of numeric distribution codes are as follows:

<u>CODE</u>	<u>USE</u>
1	<b>Reserved for assignment by the DoD MILSTRIP System Administrator</b>
2	For use by IMMs to identify transactions associated with lateral redistribution of DoD consumable assets
3	For use by IMMs to identify transactions associated with lateral redistribution of DoD reparable assets
4	<b>Use for DoD EMALL requisitions</b>
5	Reserved for assignment by the DoD MILSTRIP System Administrator
6	<b>Inter-Component use with the Navy Service Codes N, V, and R</b>
7 and 8	<b>Inter-Component use with the transmission of MOV requests</b>
9	Defense Reutilization and Marketing Service Federal Center Battle Creek MI 49016-3412
