MEMORANDUM FOR: SUPPLY PRC MEMBERS

SUBJECT: Approved DLMS Change 60, Revision to DLMS Supplement (DS) 180M,
Material Returns Reporting (Supply)

This change to the DoD 4000.25-M, Defense Logistics Management System (DLMS), reflects an administrative change to the DS 180M, required to support continued logistics operations in the DLSS/DLMS environment. A corresponding change to the Federal IC is required prior to implementation of this revision. The DLMS Supplement will be posted to the DLMSO web site (<http://www.dla.mil/j-6/dlms0/ICs/Default.htm>) immediately upon coordination/approval of the governing Federal implementation conventions (IC) from the DoD Logistics Functional Working Group (LFWG), the DoD Electronic Data Interchange Standards Management Committee (EDISMC), and the Federal EDI Standards Management Coordinating Committee (FESMCC). Additionally, the revised DS will be provided for implementation planning on the above web site pending Federal approval.

Addressees may direct questions to the DLMSO points of contact, Ms. Ellen Hilert, Co-Chair, Supply Process Review Committee, 703-767-0676, DSN 427-0676, or email: ellen_hilert@hq.dla.mil or Ms. Vermella Saváge, DoD MILSTRIP System Administrator, 703-767-0674, DSN 427-0674, or e-mail: vermella_savage@hq.dla.mil. Others must contact their Service or Agency designated representative.

JAMES A. JOHNSON

**Approved DLMS Change 60,
Revision to DLMS Supplement 180M,
Material Returns Reporting**

1. ORIGINATOR: Supply Process Review Committee, Ellen Hilert, Co-Chair, DLA J-673, Defense Logistics Management Standards Office (DLMSO), 703-767-0676 (DSN 427), ellen_hilert@hq.dla.mil

2. FUNCTIONAL AREA: Supply

3. REQUESTED CHANGE:

a. Title: Revision to DS 180M, Material Returns Reporting

b. Description of Change: This change modifies the DS 180M to incorporate data elements originally streamlined out of the DLMS. These data elements are reinstated to support conversion to the equivalent DLSS transaction: DI Code FTT, Followup for Inventory Control Point/Integrated Materiel Manager Materiel Receipt Status (Material Returns Program).

c. Procedures: Revise DS 180M, Material Returns Reporting as follows:

#	Location	Revision	Reason	Federal IC
1	Introductory DLMS Notes (Cover page)	<u>Revise note 2:</u> 2. Users operating under the Defense Logistics Management System (DLMS) must reference the Unit of Issue and Purchase Unit Conversion Table, Transportation Mode of Shipment Conversion Table, and Accounting Classification Appendix which can be found on the Defense Logistics Management Standards Office (DLMSO) web site at www.dla.mil/j-6/dlmso .	Provides DLMS users with link to Transportation Mode of Shipment Conversion Table	No change.
2	2/N901/011	<u>Add new qualifier and associated note:</u> TG Transportation Control Number (TCN) DLMS Note: 1. Enter the shipment unit TCN. 2. Future streamlined data; see introductory DLMS note 3c.	Provides functionality available under current DLSS and is required to support DLSS-DLMS conversion.	Add new code. Requires Federal IC change prior to DS update.
3	2/TD5/055	Open TD5 segment.	Provides functionality available under current DLSS and is required to support DLSS-DLMS conversion.	Add new segment. Requires Federal IC change prior to DS update

4	2/TD504/055	<p><u>Add the following notes:</u></p> <p>Federal Note: Use to identify the mode of shipment.</p> <p>DLMS Note: 1. DLMS users see the Transportation Mode of Shipment Conversion Table for available codes.</p> <p>2. Future streamlined data; see introductory DLMS note 3c.</p>	Provides functionality available under current DLSS and is required to support DLSS-DLMS conversion.	Add new data element. Requires Federal IC change prior to DS update
5	2/DTM01/130	<p><u>Add new qualifier and associated note:</u></p> <p>168 Release</p> <p>DLMS Note: Enter the date materiel was released to the carrier.</p> <p>2. Future streamlined data; see introductory DLMS note 3c.</p>	Provides functionality available under current DLSS and is required to support DLSS-DLMS conversion.	Add new code. Requires Federal IC change prior to DS update

d. Alternatives: None identified.

4. REASON FOR CHANGE: This change supports DLMS implementation and desired functionality. The missing segment, data element, and codes were identified during testing of conversion processing. The Followup for the ICP/IMM Materiel Receipt Status contains information originally provided to the ICP/IMM in the Shipment Status Materiel Returns. Some of this data was eliminated from the DLMS under the assumption that it would not need to be retransmitted by the customer, as it would already be resident in the ICP/IMM database. This data is now required for conversion in order to create a complete DLSS transaction.

5. ADVANTAGES AND DISADVANTAGES:

- a. Advantages:** Supports DLMS implementation
- b. Disadvantages:** None identified

6. IMPACT:

- a. Publications.** Federal Implementation Conventions 180M and corresponding DoD 4000.25-M DLMS Supplement. The DS revision requires prior change to the Federal Implementation Convention (IC). All applicable revisions will submitted to the Federal IC.
- b. DAAS DLMS/DLSS conversion map** has been modified to incorporate above revision.
