MEMORANDUM FOR: SUPPLY PRC MEMBERS

SUBJECT: Approved DLMS Change 80, Revision to DLMS Supplement (DS) 870M,
Material Returns Supply Status, for Inclusion of the Unit Price (Supply)

This revision to the DOD 4000.25-M, Defense Logistics Management System (DLMS), modifying the DS 870M, is required to support continued logistics operations in the DLSS/DLMS environment. The updated DLMS Supplement will be posted to the DLMSO web site (<http://www.dla.mil/j-6/dlms/ICs/Default.htm>) within 30 days from the above date for implementation planning. The attached change to DLMS will be incorporated into the DLMS manual/supplements/maps, based upon the effective or availability date to be determined. DLMSO will concurrently pursue coordination/approval with the DOD Logistics Functional Working Group, the DoD Electronic Data Interchange Standards Management Committee (EDISMC), and the Federal EDI Standards Management Coordinating Committee (FESMCC) for Federal implementation conventions (IC) revisions.

Addressees may direct questions to the DLMSO points of contact, Ms. Ellen Hilert, Chair, Supply Process Review Committee, 703-767-0676, DSN 427-0676, or email: ellen_hilert@hq.dla.mil or Ms. Vermella Saváge, DoD MILSTRIP System Administrator, 703-767-0674, DSN 427-0674, or e-mail: vermella_savage@hq.dla.mil. Others must contact their Service or Agency designated representative.

**Approved DLMS Change 80,
Revision to DLMS Supplement 870M,
Material Returns Supply Status for Inclusion of the Unit Price**

1. ORIGINATOR: Supply Process Review Committee, Ellen Hilert, Chair, DLA J-673, Defense Logistics Management Standards Office (DLMSO), 703-767-0676 (DSN 427), ellen_hilert@hq.dla.mil

2. FUNCTIONAL AREA: Supply

3. REQUESTED CHANGE:

a. Title: Revision to DS 870M, Material Returns Supply Status for Inclusion of Unit Price

b. Description of Change: This change allows the reply to the customer asset report (DLSS DI Code FTR) to provide the unit price of the materiel identified. This data element was originally streamlined out of the DLMS, but is now reinstated for use in a mixed DLSS/DLMS environment. Although not a mandatory entry in the current DLSS, this information is expected by the customer. In addition, this change provides numerous administrative corrections, clarifications, and updates to make this DS consistent with other more recently updated DLMS DSs.

c. Procedures: Revise DS 870M, Material Returns Supply Status as follows:

#	Location	Revision	Reason	Federal IC
1	DLMS Introductory Notes	<u>Add DLMS note 4e:</u> <i>e. Repetition of data (using multiple iterations or loops) which is not compatible with existing DLSS capability. Although supported by the use of the ANSI X12 standard, such data is not compatible with DLSS/DLMS conversion and may not be supported by the recipient's automated processing system. Components must coordinate implementation of enhanced capability with DLMSO prior to use.</i>	Add new clarification restricting use of ANSI functionality for data repetition.	No change required
2	DLMS Introductory Notes	<u>Revise DLMS notes 5 along with adding title of applicable ADCs :</u> <i>5. This revision to the DS incorporates Approved DLMS Changes (ADCs) listed. ADCs are available from the DLMSO website: http://www/dla.mil/j-6/dlmsso/Changes. - ADC 77, Air Force Unique Management Coding for Materiel Management Aggregation Code (MMAC) - ADC 80, Revision to DS 870M, Material Returns Supply Status, FTR Unit Price</i>	Update. To stay consistent with all DLMS Supplements	No change required

3	1/N103/050 and 2/N103/090	<p><u>Add the following DLMS notes for qualifiers 1, 9, and 10:</u></p> <p><i>DLMS enhancement; see introductory DLMS note 4a.</i></p> <p><u>Add the following DLMS note 2 to qualifier M4:</u></p> <p><i>2. Future streamlined data; see introductory DLMS note 4c.</i></p>	Update. To stay consistent with all DLMS Supplements	No change required
4	2/PO104/150	<p><u>Open Data Element and make optional</u></p> <p>DLMS Note: Applicable to the reply to the customer asset report.</p>	This change is required to support continued logistics operations in the DLSS/DLMS environment. The DI Code FTR contains the unit price of the material when available.	Change Required
5	2/PO106/150	<p><u>Add qualifier ZZ and the following DLMS note :</u></p> <p><i>Use to identify nonstandard material when all other authorized codes do not apply (includes management control numbers and locally assigned control numbers). May be used for DLSS-to-DLMS conversion when the translator cannot determine a more appropriate code.</i></p>	Update. To stay consistent with all DLMS Supplements	Change Required
6	2/SAC/310	<p><u>Add the following DLMS note 2 to segment</u></p> <p><i>2. DLMS enhancement; see introductory DLMS note 4a.</i></p>	Update.	No Change required
7	2/LQ01/330	<p><u>Revise DLMS notes for qualifier "A9" to read:</u></p> <p><i>1. Use to identify supplemental address/data.</i></p> <p><i>2. During the DLSS/DLMS transition, this field will be used to perpetuate/populate the DLSS Supplemented Address (SUPAAD) field. During this time, field size is restricted to 6 positions; see introductory DLMS note 4d.</i></p> <p><i>3. Expanded use of this field for supplemental data without size restriction is a DLMS enhancement; see introductory DLMS note 4a.</i></p> <p><i>4. Under full DLMS, the requirement to pass activity address information within the supplement data field will be streamlined. Activity address data previously contained in the SUPAAD will be reflected exclusively in the N1 segment. Future streamlined data; see introductory DLMS note 4c.</i></p>	Update. To stay consistent with all DLMS Supplements	No change required

8	2/LQ01/330	<p><u>Add qualifier GO and the following notes:</u></p> <p>Federal Note: Use to identify the Materiel Management Aggregation Code (MMAC).</p> <p>DLMS Note: Use to identify the MMAC for NSNs to be managed by a specific manager (i.e., system, program, aggregation, selected FSC, technology group). This is an Air Force unique data element, meaningful to the Air Force only. Non-Air Force Components perpetuate without action. An ANSI data maintenance request has been prepared to request a new data element 1270 code qualifier assignment for the MMAC. The code source is identified as the Air Force Manual (AFMAN) 23-110, Volume 1.</p>	This qualifier addition is a primary data element for Air Force requisition processing. (see ADC 77)	Change Required
9	2/LQ01/330	<p><u>Deleted the sentence below from DLMS notes for qualifiers, IMC, MCC, and SMC:</u></p> <p>“Indicate NSL for non-stock numbered listed items”.</p>	Update. To stay consistent with all DLMS Supplements	No change required

d. Alternatives: None identified.

5. REASON FOR CHANGE: This revision supports DLMS implementation and desired functionality.

6. ADVANTAGES AND DISADVANTAGES:

- a. Advantages:** Supports DLMS implementation
- b. Disadvantages:** None identified

7. IMPACT:

a. Publications. Federal Implementation Conventions 870M and corresponding DOD 4000.25-M DLMS Supplement.

b. DAAS DLMS/DLSS conversion map will be modified to incorporate above revision to include the unit price. DLA BSM will be modified to provide the unit price.
