Mapping Customer Operations

ABOUT MAPPING CUSTOMER OPERATIONS

Mapping Customer Operations (MCO) is responsible for the supply management of more than 190,000 National Stock Numbers in four federal supply classes: 7641 (Aeronautical), 7642 (Hydrographic), 7643 (Topographic), and 7644 (Digital). As the DLA lead for the Print on Demand (PoD) initiative for geospatial products, we offer printing services of unique customer needs. Products are provided at no cost when ordered through DLA MCO because we operate under appropriated funds. Please order only the necessary products and quantities.

Product descriptions:

✓ Aeronautical products display map features of the earth, including selected terrain, cultural and hydrographic features, along with is supplemental information for air navigation, pilotage and planning air operations.

✓ Digital products are aeronautical, hydrographic and topographic products available on CD-ROM.

✓ Hydrographic products display water depths, bottom and coastlines contours, and tides, and currents for marine or coastal areas.

✓ Topographic products display the measurable vertical and horizontal positions of physical and culture features, including locations, elevations and extent.

DLA Distribution Mapping receives, stores and ships many of the products managed by MCO. There are also nine forward presence DLA activities throughout the world to aid in timely deliveries to worldwide customers. Many are colocated with PoD facilities.

To receive products from MCO, you must have a valid Department of Defense Activity Address Code (DODAAC), Unit Identifier Code (UIC) or Federal Activity Address Code (FEDAAC), and a valid MCO Account registered in our database.

We recommend familiarizing yourself with MCO ordering procedures before placing an order. You can also order the DLA Map Catalog (CATCDNMCI NSN: 7644015433809) to view available products. The online NIPR catalog is available for download on DOD FEDMALL.

SPECIAL PROGRAMS AND SERVICES

Mapping Customer Operations (MCO) and National Geospatial-Intelligence Agency (NGA) manage the following special programs for the Armed Forces and Specified Commands:

- Flight Information Publications Program
- Fleet Allowance Program
- Digital Point Position Database Program
- U.S. Geological Survey Topo Maps
- Foreign Military Sales
- Non-Standard Printing

MCO MAP ACCOUNTS

To obtain mapping products from MCO, customers must first register and then request the MEBS Prod - Mapping Enterprise Business System Customer MEBS-99 role in the Account Management & Provisioning System (AMPS) at <https://amps1.dla.mil>. This is a two-step process. Once registration and role request have been completed/approved in AMPS, customers will be able to access the Mapping Enterprise Business System (MEBS) to complete the final steps for establishing their map account.

If there are any questions, please contact MCO Accounts Management Team at COM 804-279-6500, DSN 695-6500, or Toll Free 1-800-826-0342, Option 2, or email acctmgr@dlamail.

For more detailed information, please visit <https://dlamail/Aviation/Offers/Mapping/>.

ROUTINE ORDERING

MCO requires all DOD activities and federal agencies submit electronic orders via Military/Federal Standard Requisitioning and Issue Procedures (MILSTRIP/FEDSTRIP) to DLA Transaction Services. Electronic ordering enables customers to use their intra-service or agency logistics systems to validate orders before submission, reducing errors that cause rejection or cancellation.

Preferred method for ordering is via DOD FEDMALL at <https://dod.fedmall.dla.mil>.
