DODAAC

Using the correct DODAAC is critical for delivery of supplies at the **RIGHT PLACE...**

The Department of Defense Address Activity Code (DODAAC) is a six position code that uniquely identifies a unit, activity or organization that has the authority to requisition and/or receive materiel.

The *Navy DODAACs* are the letter "N" followed by the five digit Unit Identification Code (UIC). *Example: N12345*

There may be up to three distinct addresses contained in the Department of Defense Activity Address Directory (DODAAD) for each DODAAC, as follows:

TAC1 - Identifies the mailing address for the activity (mandatory).

TAC2 - Identifies the 'ship to' (freight) address for the activity.

TAC3 - Identifies the billing address (The activity responsible for payment of bills.) If there is no TAC2 present, shipment will be made to the TAC1 address.

To determine your DODAAC contact your Unit Supply Officer, or go to https://www.drms.dla.mil/dodaaac_lookup/
Or EMAIL: DAASDODAAC@dla.mil

Priority Code, Advice Code, & Document

PRIORITY CODE

- Setting the MILSTRIP Priority is critical for delivery of supplies at the **RIGHT TIME...**

PRIORITY DESIGNATORS 1-3 CONUS: 8 Days OCONUS: 12-13 Days	PRIORITY DESIGNATORS 4-8 CONUS: 12 Days OCONUS: 16-17 Days
PRIORITY DESIGNATORS 9-15 CONUS: 31 Days OCONUS: 69-84 Days	

Priority "1" – call-in only

Priority "2" – ongoing operations only

Priority "3" – recommended

- Set the Priority Code higher or forget to make a change and you may not see your supplies for 2 MONTHS!

ADVICE CODE

- When ordering Ecclesiastical Supply Items, ALWAYS use: ***Advice Code 2L***
- Failure to do so may cause your order to be deleted.

DOCUMENT NUMBER

- After placing your order, ensure to write down the *document number*.
- You will need to provide the document number in order to receive a status or track the items.
- It is very difficult to locate an order in the system without a document number.
