Attachment to ADC 160
New Federal Implementation Convention and DLMS Supplement 824R Reject Advice Transaction (Supply)

1. ORIGINATOR:

- a. **Service/Agency:** Defense Logistics Management Standards Office (DLMSO)
- b. **Sponsor:** DLMSO, Ms. Mary Jane Johnson, MILSTRAP Administrator, email: Mary.Jane.Johnson@dla.mil.
- c. **Functional Area:** Supply

2. REQUESTED CHANGE:

- a. **Title:** New Federal Implementation Convention and DLMS Supplement 824R Reject Advice Transaction (Supply).
- b. **Description of Change:** This change creates a new DLMS Supplement 824R Reject Transaction. In DLMS, this transaction will be used in place of the MILSTRAP Document Identifier DZG Reject transactions. Initial development is to provide reject capability formerly provided by MILSTRAP DI Code DZG and so DS 824R applies to a select group of DLMS supplements. Use of DS 824R may be expanded in the future.
- c. **Procedures:**
 - (1) DS 824R will be used to provide for functional reject of select DLMS transactions as follows noted in DS 824R. This change creates a Federal Implementation Convention, and DLMS Supplement 824R Reject Advice transaction.
 - (2) Not all data from the initial MILSTRAP DI Code DZG transaction is contained in DS 824R. DI Code DZG perpetuated almost all data from the rejected transaction. DS 824R will not perpetuate all data, but will include data necessary to identify the rejected transaction and the reason for rejection (reject advice code).
 - (3) Initially DS 824R is for use for rejection of DLMS Supplements 140B, 527D, 527R, 536L, 650A, 650C, 830R, 830W, 846A, 846D, 846F, 846I, 846L, 846P, 846R, 846S, 867D, 867I, 870L, 888B, 888I, and 947I. May be expanded to reject other DLMS Supplements in the future.

3. REASON FOR CHANGE:

- a. This change supports reject functionality formerly provided by MILSTRAP DI Code DZG, Transaction Reject. The MILSTRAP DZG format with DS 824R mapping identified is at the enclosure.
- b. No comments were received to Proposed DLMS Change 165, New Federal Implementation Convention and DLMS Supplement 824R Reject Advice Transaction.

4. ADVANTAGES AND DISADVANTAGES:

- a. Advantages:** Supports MILSTRAP DI Code DZG reject functionality.
- b. Disadvantages:** None identified.

5. IMPACT:

- a. Data Content/Procedures:** DAAS maps and Component systems must incorporate additional capability.
- b. Publication(s):** DLMS; Federal IC and corresponding DLMS Supplement.
