MEMORANDUM FOR SUPPLY PROCESS REVIEW COMMITTEE MEMBERS

SUBJECT: Approved Defense Logistics Management System (DLMS) Change (ADC) 176, Revision to Requisition Format to Accommodate Commodity-Unique (Mapping Products) Data (Supply) (Staffed by PDC 180)

The attached change to DOD 4000.25-M, DLMS, and DOD 4000.25-1-M, Military Standard Requisitioning and Issue Procedures (MILSTRIP), is approved. The Defense Automatic Addressing Systems Center reported implementation on July 19, 2005, to ensure proper routing of transactions. The updated DLMS Supplement will be posted to the Defense Logistics Management Standards Office (DLMSO) Web site (<http://www.dla.mil/j-6/dlms/ICs/Default.htm>) within 15 days from the above date.

Addressees may direct questions to the DLMSO point of contact, Ms. Ellen Hilert, Chair, Supply Process Review Committee, 703-767-0676, DSN 427-0676, or e-mail: [ellen.hilert@dla.mil](mailto:ellen.hilert@dla.mil) or Ms. Aundra Rhone-Jones, DOD MILSTRIP System Administrator, 703-7673630 or email [aundra.rhone-jones@dla.mil](mailto:aundra.rhone-jones@dla.mil). Others must contact their Component designated representative.

  
EDUARDO VICENCIO  
Lt Col, USAF  
Acting Director  
Defense Logistics Management  
Standards Office

Attachment

**ADC 176**  
**Revision to Requisition Format to Accommodate**  
**Commodity-Unique (Mapping Products) Data**

**1. ORIGINATOR:**

**a. Service/Agency:** Defense Logistics Agency (DLA) J-6251

**b. Sponsor:** Supply Process Review Committee, Chair: Ellen Hilert, DLMSO J-6251, Defense Logistics Management Standards Office (DLMSO), 703-767-0676 (DSN 427), [ellen.hilert@dla.mil](mailto:ellen.hilert@dla.mil)

**2. FUNCTIONAL AREA:** Supply

**3. REQUESTED CHANGE:**

**Title:** Revision to Requisition Format to Accommodate Commodity-Unique (Mapping Products) Data

**4. Description of Change:** Before the Map Support Office Distribution System (MSODS) (SD7) receives a requisition from the Defense Automatic Addressing System Center (DAASC), it is first routed to the Defense Mapping Agency Automated Distribution Management System (DADMS) (HM8) for review. If the record meets all requirements, it is then sent to MSODS (SD7) through DAASC. If MSODS receives a requisition for the first time from DADMS (HM8) and MSODS determines they cannot fill the requisition it is sent back to DADMS to fill with "SD7" entered into positions 67-69. DADMS (HM8) uses the information in columns 67-69 to determine if MSODS (SD7) is going to receive this requisition for the first time, or if MSODS (SD7) is returning the requisition to DADMS (HM8). This will occur only for AO\_ transactions (A01, A02, A04, A0A, A0B, A0D). If the information in columns 67-69 is not used correctly, requisitions could go back and forth between DADMS and MSODS with no one taking action. DADMS requisitions will not always use this field on requisitions. For example, if the MSO office is ordering a replenishment for themselves, this field will be empty.

**a. Procedures:**

(1) Revise DOD 4000.25-1-M, MILSTRIP, Appendix 3.2, Requisition, in accordance with (IAW) the following:

<b><u>FIELD LEGEND</u></b>	<b><u>BLOCK NUMBER</u></b>	<b><u>RECORD POSITION(S)</u></b>	<b><u>ENTRY AND INSTRUCTIONS</u></b>
Date of Receipt of Requisition <sup>4 5</sup>	Block 23	67-69	Leave blank.
<p><sup>4</sup> Processing points passing DI AM_ transactions to another supply source for continued processing will enter the RI code in rp 67-69.</p> <p><sup>5</sup> The Map Support Office Distribution System (MSODS) will enter the MSODS RI Code SD7 in A0_ transactions returned to Mapping Agency Automated Distribution Management System (DADMS) (HM8) for processing. This will indicate to DADMS that this is not the initial processing of the requisition (requisition was previously reviewed and forwarded to MSODS, which was unable to fulfill).</p>			

(2) Change DLMS Supplement (DS) 511R as follows:

Location	DS 511R Revision	Reason	Federal IC Impact
2/N101/180	Add new qualifier and DLMS note:  ZL Party Passing the Transaction DLMS Note: <i>Use only for map requisitions. Map Support Office Distribution System (MSODS) will enter the MSODS RI Code SD7 in requisitions returned to Mapping Agency Automated Distribution Management System (DADMS) (HM8) for processing. This will indicate to DADMS that this is not the initial processing of the requisition (requisition was previously reviewed and forwarded to MSODS, which was unable to fulfill).</i>	To provide DADMS notification if the received requisition is the first request or if the received requisition was previously sent to DADMS.	No impact.

**b. Alternatives:** None identified.

**4. REASON FOR CHANGE:** To provide DADMS notification if the received requisition is the first request or if the received requisition was previously sent to DADMS. This will prevent DADMS from resending the requisition to MSODS to fill. MSODS includes their RIC so DADMS will understand that MSODS was unable to satisfy the requisition received from DADMS. The presence of the RIC SD7 in the requisition is a denial mechanism for the DADMS/MSODS interface.

**5. ADVANTAGES and DISADVANTAGES:**

**a. Advantages:** This change will ensure the DLA DADMS translator maintains accurately maps.

**b. Disadvantages:** None known

**6. IMPACT:**

- a. MILSTRIP Appendix AP3.2, Requisition
- b. DLMS, DS 511R revision to accommodate commodity-unique data elements
- c. Perpetuate to DLMS XML and any non-standard XML formats.
