MEMORANDUM FOR SUPPLY PROCESS REVIEW COMMITTEE MEMBERS

SUBJECT: Approved Defense Logistics Management System (DLMS) Change (ADC) 232, Administrative Update to MILSTRAP and DLMS to Clarify Supply Condition Code (SCC) Q is Authorized for Turn-in to Defense Reutilization and Marketing (Supply)

The attached administrative change to DOD 4000.25-M, DLMS, and DOD 4000.25-2-M, MILSTRAP, is approved. Addressees may direct questions to the DLMSO point of contact Ms. Mary Jane Johnson, e-mail: Mary.Jane.Johnson@dla.mil. Others must contact their Component designated Supply Process Review Committee representative.

A handwritten signature in black ink, appearing to read "Donald C. Pipp", written over a faint circular stamp.

ATTACHMENT TO ADC 232

Administrative Update to MILSTRAP and DLMS to Clarify that Supply Condition Code (SCC) Q is Authorized for Turn-in to Defense Reutilization and Marketing

1. ORIGINATOR: Defense Logistics Management Standards Office (DLMSO). Ms. Mary Jane Johnson, DLMSO, MILSTRAP Administrator, e-mail: Mary.Jane.Johnson@dla.mil

2. FUNCTIONAL AREA: Supply

3. REQUESTED CHANGE:

a. Title: Administrative Update to MILSTRAP and DLMS to Clarify that Supply Condition Code Q is Authorized for Turn-in to Defense Reutilization and Marketing

b. Description of Change: Administrative update to revise the MILSTRAP AP 2.5 (and corresponding DLMS Data Dictionary) for Supply Condition Codes to add SCC Q to the list of SCCs that can be sent to the Defense Reutilization And Marketing Office (DRMO), in support of current procedures.

c. Procedures: Revise DOD 4000.25-2-M, MILSTRAP, AP 2.5, Supply Condition Codes, explanation and corresponding footnote, which stipulates which SCCs are authorized to be sent to DRMO (change is identified by *red, bold, italics*) (DLMSO will make corresponding changes to the DLMS Data Dictionary):

“EXPLANATION: Classify materiel in terms of readiness for issue and use or to identify action underway to change the status of materiel. When materiel is determined to be in excess of approved stock levels and/or no longer serviceable, Supply Condition Codes A through H, *Q* and S will be utilized to reflect materiel condition prior to turn-in to the DRMO.¹

¹Refer to DoD 4140.27-M for serviceability timeframes associated with shelf-life items. Supply Condition Codes J through *P, R* and V, will not be used for materiel turn-ins to the DRMO.”

4. REASON FOR CHANGE: The published MILS/DLMS business rules for SCC Q include procedures for turn-in of SCC Q materiel to DRMO, however, the AP2.5 SCC appendix was not updated to identify SCC Q in the list of acceptable SCCs for turn-in to DRMO. This change revises the AP2.5 guidance to support the turn-in of SCC Q materiel to DRMO consistent with the following MILSTRAP Chapter 3, paragraph C3.4, and corresponding DLMS:

MILSTRAP C3.4. ISSUE TO DRMO OF SUPPLY CONDITION CODE (SCC) Q MATERIEL.
When an inspection or technical/engineering analysis reveals a product quality deficiency which prohibits further DoD use of the materiel, the ICP will direct the transfer of the materiel to the DRMO in SCC Q. Disposal release orders and related issue transactions for this materiel must cite either Management Code O (alpha) to identify deficient materiel which does not require mutilation or Management Code S to identify deficient materiel which requires mutilation. The DRMS will perform mutilation in accordance with existing guidance for the NSN/type of materiel. The ICP should identify to the DRMS any unique instructions for disposal requiring specific methods or information regarding hazardous constituents contained in the item.

5. IMPACT: Administrative update. No known impact
