MEMORANDUM FOR SUPPLY PROCESS REVIEW COMMITTEE (PRC) MEMBERS

SUBJECT: Approved Defense Logistics Management System (DLMS) Change (ADC) 281, Administrative Revision to DLMS Supplement (DS) 517M, Material Obligation Validation (MOV), to Insert Missing Qualifier for Material Identification (Supply)

The attached change to DoD 4000.25-M, DLMS, is approved for immediate implementation. The updated DLMS Supplement will be posted to the Defense Logistics Management Standards Office (DLMSO) Web site, http://www.dla.mil/j-6/dlmso/elibrary/TransFormats/formats.asp, within **10** days from the above date for implementation planning.

Addressees may direct questions to the DLMSO points of contact, Ms. Ellen Hilert, Chair, Supply Process Review Committee, 703-767-0676, DSN 427-0676, or e-mail: ellen.hilert@dla.mil. Others must contact their Component designated representative.

DUSD (L&MR) SCI

ADC 281
Administrative Revision to DLMS Supplement (DS) 517M, Material Obligation
Validation (MOV), to Insert Missing Qualifier for Material Identification

1. ORIGINATOR:

a. Service/Agency: Defense Logistics Management Standards Office (DLMSO)

b. Sponsor: Ms. Ellen Hilert, Chair, Supply Process Review Committee, 703-767-0676, DSN 427-0676, or e-mail: ellen.hilert@dla.mil.

2. FUNCTIONAL AREA: Supply

3. REQUESTED CHANGE:

a. Description of Change: Administrative correction to include missing qualifier that identifies nonstandard material. This qualifier is necessary for conversion between MILSTRIP and DLMS.

b. Procedures: Revise DLMS Supplement 517M, Material Obligation Validation (MOV) as follows:

Item #	Location	Revision to 517M, Material Obligation Validation (MOV)	Reason
1.	DLMS Introductory Note:	Added ADC 281 to DLMS Introductory note 7. **- ADC 281, Administrative Revision to DLMS Supplement (DS) 517M, Material Obligation Validation (MOV), to Include Qualifier for Material Identification**	To identify DLMS changes included in the DS
2.	2/N901/20	Revise DLMS note at data element level and Add Qualifier ZZ with applicable DLMS note: **DLMS Note:** *1. Use only one of codes 1I, EQ, FQ, MF, NS, S6, WL XD **or ZZ** to identify the material requisitioned. Must use National Stock Number (NSN) when known.* **ZZ Mutually Defined** **DLMS Note***: Use to identify nonstandard material when all other authorized codes do not apply (Includes management control numbers and locally assigned control numbers). May be used for DLSS-to-DLMS conversion when the translator cannot determine a more appropriate code.*	Corresponds to actual DLMS requirements for MILS to DLMS conversion. Consistent with standard DLMS usage

d. Alternatives: None known.

4. REASON FOR CHANGE: USTRANSCOM support personnel developing the Global Transportation Network Pre-Planned Product Improvement (GTN P31) interface identified a gap between the DLMS Supplement 517M and the applicable DAAS map. The mapping document says that 'part number' (in record position 8-22) is mapped to N902 with N901 = "ZZ". According to the IC, "ZZ" is not a valid value for N901 in the 517M. The developers suggested that the correct code for "part number" (according to the DS) for N901 is "MF", and that the mapping needed to be corrected to identify "MF" in N901 when rp 8-22 contains "part numbers." DAASC noted that "ZZ" must be used as the qualifier because the MILSTRIP AF1, 2, 3 gives no indication whether it's a Part Number or Other. Since the supplement didn't provide for the use of ZZ at N901, this change was required.

5. ADVANTAGES AND DISADVANTAGES:

    a. Advantages: Conforms to MILSTRIP conversion requirements.

    b. Disadvantages: None identified.

6. IMPACT:

    a. Modify DOD 4000.25-M DLMS Supplement 17M, MOV transaction.

    b. No impact on DAAS mapping documents.

    c. Data impact: Allows for identification of an additional category for materiel identification (previously undocumented in the DLMS supplement).
