3 REQUESTED CHANGE

Green highlighting identifies substantive revisions subsequent to staffing of the proposed change.

3.1 BRIEF OVERVIEW OF CHANGE

This change approves various updates to Cataloging Data and Transaction Standards (CDTS), Volume 10, Table 61, Controlled Inventory Item Codes (CIIC), and Table 192, Valid Demilitarization Codes and Controlled Inventory Item Codes Combinations.

3.2 REQUESTED CHANGE IN DETAIL

3.2.1 Background

According to DoD Manual 4140.01, Volume 11, Section 2, the Director, Defense Logistics Agency, under the authority, direction, and control of the Under Secretary of Defense for Acquisition and Sustainment, through the ASD(S), coordinates every five years with the Secretaries of the Military Departments on CIIC definitions in order to incorporate any new security considerations and to ensure that the combinations of CIIC and demilitarization codes address the current security environment.

The most recent review drives the herein approved changes to CDTS, Volume 10, Table 61, Controlled Inventory Item Codes, and Table 192, Valid Demilitarization Codes and Controlled Inventory Item Codes Combinations.

3.2.2 Controlled Inventory Item Codes (CIICs)

CDTS, Volume 10, Table 61 documents the CIICs and explanations. This table also provides CIIC assignment and requirements in accordance with DODM 4140.01, Volume 11, DoD Supply Chain Materiel Management Procedures: Inventory Accountability and Special Management and Handling.

Traditionally, Table 61 is divided into three segments: Classification Items Code, Sensitive Items Code, and Pilferage Code, for storage and transportation of DOD assets. It also includes notes to aid in navigating the 38 different codes. CIICs are determined when the item is cataloged and an NSN is

created. These CIICs identify the extent and type of special handling required due to the classified nature or special characteristics of the item.

The latest mandatory review drives the herein approved changes to CDTs, Volume 10, Table 61, including revisions to clarify and explain the Classification Item Code (previously Classified Item Code), updated citations for DoD Issuances, and changes to the notes for the Sensitive Items Code and Pilferage Code.

During coordination of Proposed Cataloging Data Standards (PCDC) 0004 a supplement previously intended for addition to FLIS Technical Procedures, Volume 6, has been approved as an addition to CDTs, Volume 10, Table 61 instead to aid in the assignment of CIICs.

See Enclosure 1 for detailed changes to CDTs, Volume 10, Table 61 and Enclosures 3 and 4 for changes to the corresponding FLIS DB2 tables.

3.2.3 Valid Demilitarization Codes and Controlled Inventory Item Codes Combinations

The Demilitarization Code (often shortened to DEMIL Code) assists in determination and selection of CIIC assignment for a National Stock Number (NSN); the two codes work together to convey proper handling and instruction. As a result, changes to the DEMIL Code may also require changes to the CIIC. The valid combinations for DEMIL Codes and CIICs are detailed in Volume 10, Table 192, Valid Demilitarization Codes and Controlled Inventory Item Codes Combinations.

The herein approved changes to CDTs, Volume 10, Table 192 entail updates to allowable combinations, clarification of notes, citation changes to DoD Issuances, and finally changes to the notes and overall layout for ease of use.

Per Service/Agency comments and review by DoD DEMIL Program Manager, additional acceptable combinations now appear within the table. Green highlighting identifies substantive revisions subsequent to staffing of the proposed change.

See Enclosure 2 for detailed changes to CDTs, Volume 10, Table 192 and Enclosure 5 for changes to the corresponding FLIS DB2 table.

3.3 REASON FOR CHANGE

Mandatory review of CIIC definitions and combinations of CIICs and Demilitarization Codes, as prescribed by DoDM 4140.01, Volume 11, Section 2.

3.4 PUBLICATIONS

3.4.1 Cataloging Data and Transaction Standards (CDTS)

See Enclosure 1 for detailed changes to CDTs, Volume 10, Table 61, Controlled Inventory Item Codes, and Enclosure 2 for changes to CDTs, Volume 10, Table 192, Valid Demilitarization and Controlled Inventory Item Codes Combinations.

3.4.2 DLM 4000.25, Defense Logistics Management Standards (DLMS)

This change affects DLM 4000.25, Volume 2, Supply Standards and Procedures, Chapter 16, Disposition Services. A separate Defense Logistics Management Standards (DLMS) Change is required to update the in Paragraph C16.6.1.1. listed allowable 'Pilferable CIICs' and 'Sensitive CIICs'.

3.5 COORDINATED JOINT RESPONSE TO PROPOSED CHANGE

The FCC Secretariat provided the coordinated FCC response of on March 31, 2020.

See below table for detailed FCC member responses.

| Originator | FCC Voting Member | Response/Comment | Disposition |
|------------|-------------------|---|--|
| USA | Yes | <p>Concur.</p> <p>Army concurs and provides comments, below:</p> <p>Listed below are updates to Attachment 2, page 12, Table 192, "IF THE DEMIL IS: THE ALLOWABLE CIICs ARE:"</p> <p>DEMIL P: Add CIICs- J, M ,N, P, Q, R, Z Add Demil: A,B,C: Add CIICs 1-4, 7, 9, I, J, M-R , U-Z, \$ (Note -DEMIL codes A,B,C,D,E,F,G,P, and Q are valid for NSNs.)</p> | DoD DEMIL Program Manager accepts all changes except CIICs 1-4 for DEMIL A, B, and C. |
| USAF | Yes | <p>NON-CONCUR for the AF on subject ACDC.</p> <p>We have an issue with this ACDC which impacts the AF. Currently there are 25 NSNs that we have that would require a DEMIL change from "C" or "D" to another DEMIL code to comply with the new "valid" combinations of this ACDC.</p> <p>Currently, CIIC "W" that the AF uses for nuclear weapons security program is compatible with DEMIL "C" or "D" (see FLIS Procedures Manual 4100.39 Vol 10 current table 192) but this ACDC removes that compatibility. We believe this is incorrect</p> | Mitigated. DoD DEMIL Program Manager approves Proposed change to ACDC: ADD "W" to the row containing 9, O, Q (Classification Codes), of Table 192. |

| | | <p>and CIIC “W” should still be compatible with DEMIL “C” and “D”. Please note that when this came around as an PCDC last year I did send up an email to DLIS, although I did miss the tasker due date, highlighting this issue (see attached email). Recommend A4 NON-CONCUR with this ACDC as currently written and propose the following changes:</p> <ul style="list-style-type: none"> - ACDC as written: This has removed CIIC “W” from being compatible with DEMIL C, D, E, F of Table 192 on page 12 of the ACDC for the Pilferage Codes - Proposed change to ACDC: ADD “W” to the 9, O, Q (Classification Codes), of that same table and page, like below screen shot | |
| USN | Yes | <p>Non-Concur. From memory we had concerns on CIIC J not being accounted for in the revised guidance. There were also concerns of having DLA reviewing submitted CIICs on new NSNs and then returning them if incorrect. What would the plan be for that? Does DLA have authority over DEMIL/CIIC (or just DEMIL?) and would DLA go ahead and make changes or return them back to the service to change and resubmit?</p> | Mitigated. DoD DEMIL Program Manager to discuss with USN Voting Member; no impact on CDC per Program Manager. |

TABLE 192
VALID DEMILITARIZATION CODES AND CONTROLLED INVENTORY ITEM CODES COMBINATIONS

Demilitarization (DEMIL) Codes assist in determination and selection of Controlled Inventory Item Code (CIIC) assignment for a National Stock Number (NSN); the two codes work together to convey proper handling and instruction. As a result, changes to the DEMIL Code may also require changes to the CIIC.

CIICs represent three separate segments of codes used to identify an item's (1) security classification and/or (2) sensitivity or (3) pilferage controls for storage and transportation of DoD assets. These CIICs (DRN 2836) identify the extent and type of special handling required due to the classified nature or special characteristics of the item.

| IF THE DEMIL IS: | THE ALLOWABLE CIICs ARE: |

NOTES:

~~1. Arms with a CIIC of 5, 6, 8, or C will have a DEMIL Code of P.~~

~~2. Ammunition and explosives or material potentially presenting an explosive hazard with a CIIC of 5, 6, 8, or C will have a DEMIL Code of G.~~

1. Small Arms items with a CIIC of 5, 6 or 8 will have a DEMIL Code of P. Ammunition and Explosive (AE) or material potentially possessing an explosive hazard with a CIIC of 5, 6 or 8 will have a DEMIL Code of G.

~~3. CIIC of \$ is not a valid code for input to FLIS. This code is unique to the DTRA (Defense Threat Reduction Agency) System only.~~

2. CIIC of \$ is not a valid code for input to FLIS. This code is unique to the Defense Threat Reduction Agency (DTRA) System only.
